## Two Die in Big Train Wreck

### TRAINS CRASH TWO MEN KILLED

Two New Haven Freight  
Trains in Collision at East  
Porchester, New York

Wreckage Caught Fire—  
Passenger and Freight  
Traffic Blocked

GREENWICH, Conn., July 31.—Two  
men were killed when two freight trains  
over the N. Y. N. H. and H. R. R. were  
in collision at East Porchester, N. Y.,  
early today.

The dead are:  
HENRY BRICKLEY, engineer, of  
New London.

CHARLES E. RUST, instructor, of  
New Haven.

They were in a motor engine hauling  
a west bound freight which crashed into  
the rear of a midway-Harlem river  
extra freight just west of the signal  
station. The crash threw the motor  
engine crosswise on the tracks and  
both men were wedged in the cab.  
Eight cars of the leading freight  
were thrown over all four tracks. The  
wreckage caught fire but was quickly  
extinguished.

Passenger trains from the east ran  
close to the wreckage and trains sent  
up from New York made as close con-  
tact as possible to accommodate pas-  
sengers. As traffic is very heavy there  
was great delay to commuters and  
others.

### OPEN HEARING ON TREATY

Senate Foreign Relations  
Committee Calls Baruch as  
First Witness

First Time in History an Im-  
portant Treaty Inquiry  
Thrown Open to Public

WASHINGTON, July 31.—The senate  
foreign relations committee was ready  
today to begin hearings on the peace  
treaty. Bernard Baruch, an adviser to  
the American peace delegation, had  
been called as the first witness and the  
committee had decided to hold its hear-  
ings in open session—one of the first  
times, if not the first, in senate his-  
tory that an inquiry concerning an im-  
portant treaty was thrown open to the  
public.

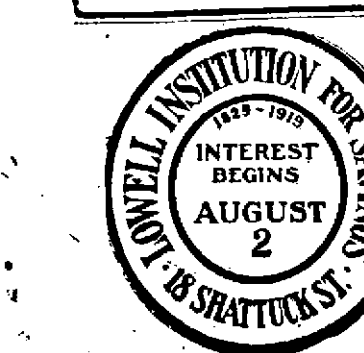

President Wilson was to continue his  
conferences with republican senators.  
Senators New and Watson of Indiana  
and Keyes of New Hampshire had in-  
vitations to the White House today.

### BRITISH NAVAL FORCE GOING TO RUSSIA

LONDON, July 31.—The British gov-  
ernment is arranging to send a naval  
force to Russia to cover the evacu-  
ation of the Archangel district. A con-  
tingent of regular army troops is held  
in readiness to assist, if necessary.

Saturday

### WILL ASK FOR NEW HOSPITAL

Women's Building at State  
Infirmary Not Adequate to  
Meet Demands

Prohibition Does Not Affect  
Number of Inmates at  
Tewksbury

Unlike the corrective institutions,  
state and county, throughout the com-  
monwealth, the state hospital at  
Tewksbury at the close of 1919 will  
show a larger weekly average of in-  
mates than for the 12 months of last  
year. In other words, the huge insti-  
tution in the nearby town will not feel  
the effects of the era of prohibition,  
but rather the decline of industrial  
activity from a war status will have a  
tendency to increase the average num-  
ber of men and women received at the  
hospital for treatment.

This is the belief of Dr. John H.  
Nichols, superintendent and resident  
physician, who first went to the insti-  
tution in 1891 as an intern and has  
risen to the position of active super-  
visor of this miniature city. By in-  
direct methods, prohibition may make  
itself felt in the number of people ad-  
mitted to the hospital in the course of  
time, says Dr. Nichols, but persons  
continue to grow old and feeble and  
contract illness whether or not liquors  
are sold and until the real elixir of  
youth is found, the Tewksbury hos-  
pital will continue to function in an  
ever widening scope.

There are in the hospital today 2081

### LOWELL HAS 18 CASES

Anti-Prohibs Gratefully Take  
to 2.75 and Glad List  
Grows Rapidly

Sixteen saloons, one hotel and one  
fourth class liquor establishment, open-  
ed their doors today for the sale of  
2.75 per cent. beer. Thirsty Lowell  
people who have been forced to ride  
on the water wagon since the drought  
descended July 1, congregated again in  
the familiar resorts where John Bar-  
loycorn formerly held undisputed sway  
and allowed that it wasn't such a bad  
old world after all.

All the 15 thirst emporiums reported  
a brisk business throughout the morn-  
ing and afternoon, but it is said that

### TRANSFER OF SAAR MINES

German Commissions Charg-  
ed With Details of Deliv-  
ery Reach Versailles

PARIS, July 31.—The German com-  
missions charged with details of the  
delivery to France and Belgium of  
livestock called for by the peace treaty  
and the transfer of the coal mines of  
the Saar valley, have arrived at Ver-  
sailles.

Postal communication between France  
and all parts of Germany was reopened  
today.

### THE SELECTION OF YOUR BANK

It is not a matter of minor im-  
portance. The fact is an added  
reason for serious consideration of  
this invitation for your account  
from an institution that is a land-  
mark in Lowell banking.

We are seeking new business on  
our record.

Interest in Savings Department  
begins the first day of each month.

### NOTICE!

Meeting of members of Notre Dame  
Alumni at the Academy, Saturday af-  
ternoon, at 3 o'clock, to make plans for  
attendance at Convention of Notre  
Dame Federation at the Summit, Cin-  
cinnati, Ohio, August 23 to Sept. 1.  
Those unable to be present may apply  
for particulars to the president, Miss  
Julia Doherty, 60 East St., Dorchester,  
Mass.

### WILSON FAILS TO CHANGE VIEWS

My Back Stiffer Than Ever  
for Ratification With Reser-  
vations, Says Sen. Keyes

New Hampshire Man Talks  
After Conference With  
President on Treaty

WASHINGTON, July 31.—"My back  
is stiffer than ever for ratification of  
the treaty with reservations," said  
Senator Keyes of New Hampshire to-  
day, after a conference with President  
Wilson at the White House.

Senator Keyes, who was one of the  
signers of the round robin on the  
League of Nations, circulated by republi-  
can senators in the closing hours of  
the last congress, told the president he  
favored reservations along the lines  
proposed by William H. Taft, Charles  
B. Hughes and Elihu Root.

### TROOPS GUARD RIOT ZONES

Mayor Calls on Soldiers to  
Control Law Breakers—  
6000 Troops Patrol Streets

Death List 30 With Over 500  
Injured—No Serious Out-  
breaks Today

CHICAGO, July 31.—The main negro  
quarters of Chicago today were pat-  
rolled by 6000 soldiers after four  
nights of race rioting that caused  
deaths of 17 negroes and 13 whites and  
the injury of more than 500 persons.  
290 of whom were severely hurt and  
a dozen of whom may die. No deaths  
were reported during the night, but  
many injuries and fires were record-  
ed.

Troops Ordered to Act

Gov. Lowden ordered the troops out  
on request of Mayor Thompson after  
darkness had brought renewed riot-  
ing and the city's three thousand po-  
licemen found themselves exhausted.  
Fighting kept up after the troops  
reached their stations shortly before  
midnight. One squad of soldiers had  
to fight a crowd of negroes to reach  
their station at 41st street and Wa-  
bash avenue while other soldiers were  
fired on from ambush on their way to  
duty. No soldier was killed or wound-  
ed and after the troops had taken

### WATER INCOME \$15,000 MORE

Result Due to Increased Rate  
Which Went Into Effect in  
Month of April

Amount Received, Today Ex-  
cluded, Beats July Record  
for the Past 5 Years

Receipts credited to the water de-  
partment for the month of July, ex-  
clusive of today, amount to nearly  
\$15,000 more than was the case for  
the entire month of July last year.  
The increase is due to the advance in  
rates on water bills which went into  
effect April 1. The yearly bills are  
payable during the month of July if  
consumers are to get discount and,  
accordingly, the coffers of the water  
department always overflow in this  
month.

The following compilation shows the  
amount of water department receipts

### DATA ON ITALY'S MARKET

Lowell Manufacturers Can  
Get Information From Fed-  
eral Expert at Hub

Lowell manufacturers who may have  
occasion to sell to Italian firms will  
be interested in a communication re-  
ceived by the board of trade today  
from the bureau of foreign and com-  
merce of the federal depart-  
ment of commerce.

The bureau announces that its trade  
commissioner, W. C. Marshall, has  
recently returned from Italy where  
he made an extensive study of the  
markets there and opportunities for  
American trade. Mr. Marshall will be  
at the customs building in Boston on  
Aug. 7, 8 and 9 and will be glad to  
talk to anybody interested. He will  
be able to give first hand informa-  
tion on the condition of the market  
for American goods in Italy as it ex-  
ists today.

### CAMPERS FOUND GUILTY

Next Time Caster and Adams  
May Earn Equipment for  
Life in the Wild

That the names they had given were  
assumed, and that they now stood  
ready to admit their guilt on all  
charges, after having previously de-  
nied all knowledge of the offences re-  
gistered against them, was the state-  
ment of the two young Lowell men  
called on continuance before Judge  
Fisher in police court today on charges  
of breaking and entering two camps  
in Tyngsboro last week and stealing

Price May Start Him on  
Crusade Against Dealers

40,000 Quarts Consumed  
Daily, But It's Too Costly  
for Beverage Purposes.

"With the announced advance in the  
price of milk to the consumer, the  
producer will be expected to furnish  
at least a standard grade article," said  
Inspector Melvin Master this morning,  
and this is directly aimed at several  
producers in the city, who at the pre-  
sent time are not selling a grade of  
milk which comes up to the standard  
in total solids and butter fat."

Inspector Master added that Lowell  
milk producers are working along the  
lines of quantity rather than quality,  
and that at the present time the stan-  
dard of milk in Lowell is lower than  
it has been for some time. This is a

### SUDDEN DEATH

Mrs. Esther D. Williams  
Fatally Stricken at Work

Mrs. Esther D. Williams, aged 48  
years, residing at 51 Brookings street  
and employed as a clerk at Wardell's  
music store in Merrimack street, died  
suddenly while at her work shortly af-  
ter 5.30 o'clock this morning. Mrs.  
Williams was seen to collapse and a  
hurried call was sent in for the am-  
bulance, which removed her to St.  
John's hospital, where upon her ar-  
rival it was found that she had  
breathed her last.

The body was later removed to the  
funeral parlors of Undertaker George  
W. Healey in Branch street, where it  
was viewed by Medical Examiner T. B.  
Smith. Deceased is survived by three  
sisters, Mrs. Helen Blanchard, Mrs.  
Alexander Duncan and Miss Winifred  
L. Davis and a nephew, William D.  
Blanchard.

### POSTAL MEN TO SELL US FOOD

Lowell Carriers Friday Start  
Helping Uncle Sam Sell  
341,000,000 lbs. in Cans

He Gives Price List First,  
You Give Him Order—  
Parcel Post Brings it

Lowell housewives will have an op-  
portunity to put one over on old high  
cost of living during the next few days.  
This time it is Uncle Sam who has an-  
nounced that bargains in foodstuffs  
are in order. The war department,  
through the postmasters of the coun-  
try, will offer for sale direct to con-  
sumers, its present available supply of  
surplus foodstuffs, amounting to 341-  
000,000 pounds at prices representing  
the cost to the government plus post-  
age.

Although Postmaster Meehan of the  
local office has not yet received in-  
structions from the postal department,  
he anticipates that beginning tomor-  
row the Lowell mail carriers will be  
acting as government salesmen for  
this supply of "eats," and will begin  
taking orders from housewives who  
wish to take advantage of this chance  
to stock up at reasonable prices.

After receiving orders, the carriers  
will turn them in at the local office,  
where they will be forwarded to the  
supply depots to be filled. The post-  
master expects to have a full price list  
tomorrow of the goods to be sold,  
which consist principally of canned  
vegetables and meats, and this will be  
made public upon its receipt.

So if your mailman asks you tomor-  
row if you wish to purchase a supply  
of eatables from Uncle Sam, at the  
lowest prices possible, just fill out  
your order and the local postoffice  
will do the rest.

### KATSAKAROS SCALDED

Merrimack Mfg. Co. Worker  
Hurt This Forenoon

Peter Katsakaros, employed at the  
Merrimack Mfg. Co., and residing at  
816 Market street was badly scalded  
about the body while at his work  
shortly after 10 o'clock this morning.  
The ambulance was summoned and the  
injured man was taken to the Lowell  
Corporation hospital, where it was  
stated this afternoon that his condition  
was not considered serious.

### DEMAND SHORTER WEEK

Box Shop Employees Ask for  
48 Hours' Work With 54  
Hours' Pay

The box shop employees of this city  
are out for a 48-hour week with 54  
hours' pay, and it was learned this  
morning that in some of the shops  
employees have threatened to strike  
unless their demand is granted. There  
are six box shops in this city and  
those of George L. Cady & Sons and  
A. L. Brooks & Co. already have grant-  
ed the demand, it is said.

At the Otis Allen & Son shop it  
was stated this morning that no de-  
mand had been made by the employes,  
while at the Davis & Sargent Co. it  
was said that the employes had not  
yet filed a formal demand. The same  
condition exists at the Eagle Box Co.  
At the James Thompson box shop the  
men have presented their demand for  
shorter hours with the same pay, but  
at noon their demand had not been  
granted and it was not known what  
the outcome would be.

"Who sells it cheapest?" you ask  
and this evening's issue of The Sun  
answers the question because each  
live merchant advertises in it.

### ACTION FOLLOWS R. R. ULTIMATUM

Pres. Wilson Giving "Deep  
and Thoughtful Consider-  
ation" to Problem

R. R. Men Demand Reduc-  
tion in Living Cost or In-  
crease in Wages

WASHINGTON, July 31.—President  
Wilson is giving "deep and very  
thoughtful consideration" to the high  
cost of living. It is announced at the  
White House and all branches of the  
government that may aid in solving  
the problem are at work.

The president is understood to have  
been deeply impressed by the statement  
presented to him by Warren S. Stone,  
chief of the brotherhood of locomotive  
engineers, describing the unrest  
over the country because of the de-  
creased purchasing power of the dol-  
lar.

The Brotherhood of Railway Train-  
men has presented to the railroad ad-

## STONING OF GERMANS

Judge Advocate Who Investigated Charges Finds There is no Case

PARIS, July 31.—The Judge advocate attached to the second permanent court martial, who investigated reports of the stoning of Germans on their departure from Versailles, finds that there is no case.

It has been established that the Germans aroused the protests of the crowd by sticking out their tongues and shouting "Heil!" The charges that stones were thrown rest upon the unsupported testimony of Dr. Theodor Melchior, one of the German financial delegates, and Frau Greta Dorblush, one of the secretaries of the delegation.

The incident occurred on June 16. It was claimed that Dr. Melchior and Frau Dorblush were struck on the head by stones. The demonstration was confined mostly to jeering.

Premier Clemenceau sent a letter of apology to the head of the German delegation and the police officials charged with protecting the Germans were dismissed.

## CITY IN MEAT BUSINESS

Mayor of Jersey City Opens Sale of Bacon Bought From War Department

NEWARK, N. J., July 31.—Mayor Gillen today opened the city's sale of bacon bought from the war department. The sales were held in fire houses. Fifteen tons of strip bacon and half a ton of canned bacon were offered.

The price was 35 cents for strip and 45 cents a pound for canned. This is a two-cent advance over the price at which the city bought the meat from the government. Bacon of this quality is being sold at retail shops, according to the mayor, at 50 to 55 cents a pound.

## CROSSES SO. AMERICA IN AIRPLANE

SANTIAGO, Chile, Wednesday, July 31.—Lieut. Locatelli, a member of the Italian aviation mission now in Argentina, completed today an airplane flight from Buenos Aires to Valparaiso, marking the first crossing by air of the South American continent from the Atlantic to the Pacific.

Several days ago he covered the first stage of the flight from Buenos Aires to Mendoza, on the eastern edge of the mountains, where he waited for good weather. He started early this morning to complete the flight, crossed the Cordillera Andes and after circling over Valparaiso, landed at Vina Del Mar, near that city. This afternoon he flew to San Diego. He brought several sacks of mail from the Mendoza postoffice as well as a number of private letters.

## GROWING SQUASHES AND CUCUMBERS

The failure of squashes and cucumbers to bear fruit is quite a common occurrence. There are three causes for this condition—lack of sunlight, fresh air and bees. To do well squashes and cucumbers should not be planted too thick or in places where they are likely to become shaded during the day. If planted thickly the leaves of the plants shade the blossoms and the plant itself, thus shutting off all sunlight and circulation of fresh air.

No other way than the Grape-Nuts way can process wheat and barley into such tempting flavor.

**Grape-Nuts**  
"There's a Reason"

## NO BEER, WINES or WHISKEY

I consider my preparation, put up and sold in tablet form and known as DR. GRADY'S "JUST-A-MERIT" TABLETS, (Trade Mark Registered), the crowning achievement of my life. Knowing as I do the great blessings that will surely follow their use.

OLD DR. GRADY, Specialist. They furnish good rich blood to pale people; give life and snap to the overworked and run-down; make old folks feel strong, and do away with both the necessity and desire for beer, wine and whiskey. If you are overworked—use them; if you are weak and run-down—use them; if you have no appetite—use them; if you feel old—use them; if you are depressed and feel the need of new life and good cheer—use them; if you can't sleep—use them; if your stomach or liver is out of order—use them.

DR. GRADY'S TABLETS are Nature's own remedy, improved by man's scientific skill. Seal boxes, like a box, at all druggists.

**Sale Price \$5.98**

Buy your Summer Wearables now, the values are exceptional.

among the vines. Bees do not like to frequent such spots and as a result the majority of blossoms fail to become fertile. Thinning out the plants themselves or pruning the foliage will help to overcome this trouble.

The spotted pellinota is an insect that quite a few persons have found in their gardens this year. It is a large brown beetle with several small black spots on its back. It is a very common species, and is usually collected on or near grape vines. It feeds to some extent on foliage, but is not classed among our injurious species from the fact that it seldom, if ever, occurs in large numbers. No treatment is necessary usually, therefore, for its control.

There is a small caterpillar that was found last week on pole beans that seems to be important enough to warrant some attention as it had eaten many holes in the foliage. The worm

belongs to the looper family as its characteristics indicated. It was about a half-inch or more in length, very slender and light green in color. The looper worm obtains its name of looper through its habit of doubling up, or looping, as it walks. It is a very active worm and is, therefore, more difficult to control than other slug-like caterpillars. It affects all members of the cabbage family besides peas, beans, beets, celery, lettuce and sometimes the potato and tomato. Spraying with arsenate of lead is the best remedy, using the poison in the proportion of four pounds of arsenate of lead paste to 50 gallons of water.

REAL ESTATE BOUGHT, SOLD, EXCHANGED ON REASONABLE TERMS. List your property with me for quick sales. Cash customers waiting. **JOHN J. ROONEY** 215 Pine Street Fire Insurance

proportion of four pounds of arsenate of lead paste to 50 gallons of water. The second brood of cabbage worms are now doing much damage throughout the county. Arsenate of lead spray should be used to control this insect when the cabbages are small. Any kind of a fine, dry, gritty substance is also effective when dusted upon the leaves. Hand-picking the worms is the most efficient method of control on a small scale.

About this time of the year the first crop of string beans have been harvested, or are about to be picked. If you allow the old vines to stay in the ground and give them a good cultivation they will begin to blossom again later on in the season and a second crop of beans may be obtained from them.

At least is the month, when thorough cultivation of the garden, crops should not be neglected. Keep the spray pump working among the potatoes for

blight usually strikes the crop during the muggy weather which generally comes this month. Also it is well to be on the lookout for plant lice. Remember that "a stitch in time saves nine."

**IMPUTATIONS BASELESS**  
London Paper Prints Apology to British Government Officials

LONDON, July 31.—The Daily News today prints an apology to J. Austen Chamberlain, chancellor of the exchequer; Walter Hume Long, first lord of the admiralty; Sir Eric Geddes, minister without portfolio, and Sir Auckland Geddes, minister for national service and reconstruction. The newspaper says that its investigation has proved its imputations to be baseless. Writs had been issued against the Daily News for libel as the result of comments on charges made by the

Weekly Nation that the ministers were in possession of various Russian mining and development company shares, some of which had been purchased since the armistice was concluded.

There are men who succeed in the world, and then there are men who buy something they don't need merely because it is offered on an easy-payment plan.

## WHO OWNS THE LAKE?

Old Chelmsford Settler Gives  
Opinion to Help Clear Up  
Mooted Question

There has been considerable controversy for years as to whether Crystal Lake at North Chelmsford is private or state owned, the claim being set up that any pond covering over 20 acres is a state owned pond, because of the fact that the law makes it so.

Members of the Lowell Fish and Game association have discussed the much mooted question and have had some heated arguments as to ownership, the one side claiming that if it is over 20 acres it should be state owned and the other side claiming that it does not cover 20 acres and that it is privately owned, anyhow.

One of the association members met Mr. Eltz E. Adams of Chelmsford and immediately proceeded to question him about the lake, knowing in advance that Mr. Adams was thoroughly posted on the subject. Mr. Adams, who is 84 years old, is living in Lowell at the present time, but he spent the greater part of his life in North Chelmsford.

"The original or Indian name of the lake," said Mr. Adams, who talked in the presence of the writer, "was An-namuc lake. Later it was known as Litchfield's pond and finally as Crystal Lake. The lake originally covered over 20 acres and I think it has not dwindled much."

"About 200 years ago one Daniel A. Waldo built a sawmill on Stony Brook near the Merrimack river back of Seabury's store in Middlesex street. He later sold the mill to John Richardson, my great-great grandfather. The purchase included a large tract of land including the lake and extending to West Chelmsford. The whole purchase comprised several thousand acres of land and the bottom of the lake at that time was estimated at 90 acres."

"Mr. Richardson conceived the idea of making the pond or lake 30 feet higher than Stony Brook for the purpose of supplying his mill with water in dry times—not the kind of dry time we are having now—but when rain was scarce. But his plan didn't work just as he expected. He failed to strengthen or protect the sides of the canal, that he was digging from the lake to Stony Brook and the result was that the canal overflowed and pretty nearly all of the lake went into the brook causing an overflow that did considerable damage. It was stated at the time that a colored man employed on the canal or ditch, was swept away and that later his body was taken from the brook."

"Nothing more was done to the lake for about 100 years. This story, as I am telling it, I read in the history of Middlesex county, under the Chelmsford section. Trees grew in the bottom of the pond and considerable lumber was cut there. The lumber for the old

## THE FLIGHT AROUND THE RIM OF THE U. S. A.

WASHINGTON.—Around the rim of the United States of America in three weeks. That's the schedule of Col. R. S. Hartz of the United States air service, who in the picture is pointing out the route to Lieut. L. A. Smith. Hartz and his crew are making the flight in a Marlin bomber capable of carrying a ton of mail or 12 passengers. They are booked for but 20 stops.

tavern in North Chelmsford was taken from the pond and I guess it furnished lumber for several other buildings. I know, too, that they mowed hay on the bottom of the lake."

"In the year 1824 William Adams sold to Sheppard Leach the land of the lake, comprising, as has already been said, about 90 acres. Gen. Leach constructed a dam across Stony Brook in West Chelmsford and ran water into the pond, bringing it back to its original size. It was the general's intention to make iron from bog ore. He built a large furnace, but was unable to get enough bog ore to make it a paying proposition and later sold out to his brother-in-law, Lincoln Drake."

"The sawmill became the property of William Adams who built a grist mill adjoining it and made flour there. The lake, now known as Crystal Lake, finally became the property of George Moore and he controls the water power there. Some people claim it is a state lake, but Mr. Moore owns the bed of it and I calculate that what a man buys he owns. He gets his water power for his carding plant and big machine shop from the lake and I reckon he isn't worrying much about state ownership."

Before taking your train home from Boston get The Sun at either newsstand in the North station.

U. S. SENATE TO DELAY  
SODA TAX REPEAL

WASHINGTON, July 31.—Formulation of a definite policy as to legislation modifying various provisions of the war revenue act of 1918, against which protests have been received from various parts of the country, will be discussed at a meeting, today of the senate finance committee. The call for the meeting was issued by Chairman Penrose late yesterday, following hearings on house bill repealing the soda water tax and substituting a tax of two cents a gallon on fruit juice beverages for the present 10 per cent gross sales tax.

In addition to the two bills now pending before the senate committee, which certain republican senators regard as "pop-gun" legislation, proposals have been made in the house looking to the repeal of the luxury taxes, especially those relating to imposts on candy, sporting goods and furs.

Senate leaders, it is understood, feel that the question as to how far congress is to go in this matter, should be determined at once. Many senators feel that if one section of the bill is reopened, there is nothing that would prevent modifications of other provisions being taken up, which, as one senator said today would bring a "Pandora box of trouble."

Owing to the house recess Saturday for more than a month, members of the senate committee said last night the committee would take no final action upon the soda water and fruit juice tax bills before September at least.

The committee today is expected to discuss also the question of tariff legislation to some extent, although senate republican leaders believe that it would be unwise to take any action along these lines at this time owing to abnormal business conditions. They also doubt whether any such legislation could be enacted at the present extraordinary session.

FREE LESSONS GIVEN BY AN EXPERT

## Why all this Precaution?

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

## Children Cry For

**Fletcher's**  
**CASTORIA**

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit. Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splash, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little one.

There are substitutes and imitations as there are for the diamond, for anything of value. One might almost say that that which is not copied has no value. So you have had the signature of Chas. H. Fletcher and a copy of the genuine wrapper kept constantly before you that you may guard against the false and the untrue.

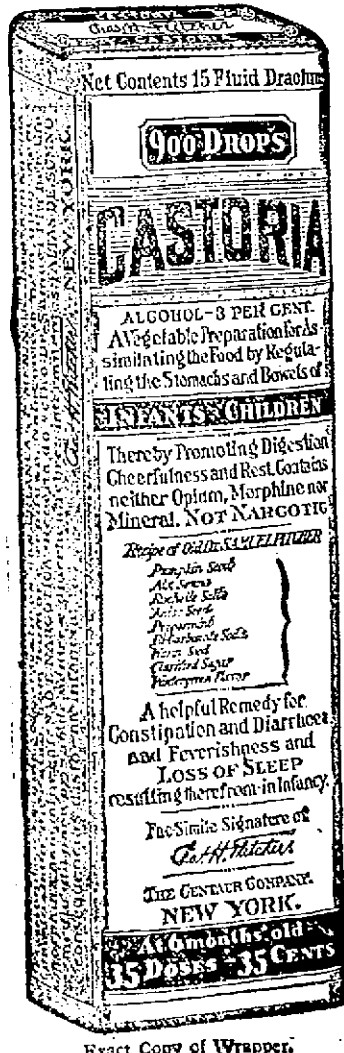

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

NAVY MAN SAYS  
PLANES COMING HERE

A fleet of airplanes will fly over the cities of New England early in August, according to information received by Chief Cary of the local naval recruiting station, and it is expected that Lowell will be one of the cities included in the route. In this event it is probable that the machines, which are of the seaplane type, will alight on the Merrimack river and give a demonstration in the interest of recruiting for Uncle Sam's air service and literature will be dropped over the city. All recruits wishing to sign up with the air service may apply now at the local station.

BUILDING INSPECTOR  
DECLARES FOR WAR

The world war is over, but State Building Inspector Angus McDonald has started a little war of his own in Lowell, and unless people who are building dwelling houses do their work according to state laws, trouble will brew. Mr. McDonald stated this afternoon that a good deal has been tolerated during the war by the state building inspectors all over the state, because of the fact that builders were handicapped to some extent by the lack of material and the shortage of labor, but he says the war is over now and conditions have got to change. Mr. McDonald not only declares war on those who are not obeying the building laws but he has begun an offensive and has issued a warrant against a property owner in Central-

**STOPS PAIN**  
For CRAMPS, COLIC and DYSENTERY  
**Radway's Ready Relief**

ville, Michael J. Shamus, who owns dwellings in Broughton avenue which were gutted by fire last year, causing the loss of five lives. Mr. Shamus, according to the charges brought against him, has secured a permit from the city inspector of buildings for the erection of a building in Broughton avenue, stating that there would be six rooms on the top floor, while in reality it was found that there were eight rooms. The city permit was revoked and the state inspector was notified. As a result Shamus was arrested for violation of the state building laws and his case will be called in police court Aug. 8. Mr. McDonald wishes to take this opportunity to issue a warning to all local builders to do their work according to state law, or they will be prosecuted.

## WOOL DESTROYED IN TWO ALARM FIRE

BOSTON, July 31.—Fire, for which two alarms were sounded, destroyed the general merchandise warehouse of J. L. Kelsa's storage warehouse on Union wharf early last evening and was prevented from spreading to building 5 by the quick work of the department under the direction of Acting Chief Peter F. Walsh.

Five minutes after the second alarm came in for this fire, box 1351 was sounded for a blaze at 11 Chambers street, West End. The apparatus in the West End and down town houses was busy with the Union wharf fire and it was necessary to pull in several pieces of apparatus from outlying houses to cover the Chambers street blaze. This proved to be a slight fire in a waste basket.

The wharf fire started in the basement of the five-story brick warehouse, worked its way up the stair well to the fifth floor, where it burned through the ridgepole. It also penetrated into building 5, which is separated from building 6 by a fire wall, but did little damage there. The damage to the merchandise on the floors other than the top was from smoke and water.

Fireboats 17 and 31 responded to the alarm. Forty-seven soon had lines into the building and aided materially in confining the fire.

An estimate of the damage could not be obtained last night with any degree of accuracy. After the fire had been extinguished in the walls, it was necessary to pitch many balls of wool and other merchandise to the wharf in order that the smoldering sparks could be extinguished. Thomas Carey, watchman of the warehouse, discovered the fire. He sent in the first alarm. Acting Deputy Chief Swallow upon his arrival sent in the second, largely because of the dangerous situation of the blaze.

### AMERICAN LEGION

There will be an important meeting of the Lowell post of the American Legion next Monday evening at 8 o'clock in the rooms of the War Camp Community club in Dutton street. Several matters of importance are scheduled to come up and it is hoped to have an exceptionally large attendance.

## ONLY DAMP SPOT THIRSTY YANKEES?

This spot by the sad sea waves will be the only "wet" place available to dehydrated Americans, if plans of a California "near-beer" syndicate mature. Investigation has disclosed that San Miguel Island, a few miles from Santa Barbara, Cal., was never ceded

to the United States by either Spain or Mexico, and consequently protected from the damp by the umbrella of the dry order. The future may show every rock in this picture sheltering a stack of beer bottles, while coast steamship lines will crowd their cabins by advertising: "We Touch at San Miguel." What's more, the island is a barren rock without a drop of water on it!

## LAWRENCE GRANTS 74 LIQUOR LICENSES

LAWRENCE, July 31.—Seventy-four liquor licenses were granted to local dealers by the license commission yesterday. On each license was pasted a strip stating that the license was granted at the licensee's own responsibility in case of federal interference. All dealers who applied for licenses received them, including Timothy J. Scanlon, Cornelius A. Guiney and

Frank Laramie, who were summoned to appear before the federal authorities in Boston Monday on charges of the illegal sale of liquor.

The licenses granted yesterday were divided as follows: Retailers, 65; hotels, 4; wholesalers, 11; brewers, 1. No club licenses were granted, as the advertising time for such licenses had not expired.

The commission set a fee of \$1500 on the Cold Spring Brewery, the only brewery applying for a license. Hotel licenses cost \$500 each and retail licenses cost \$300 each.

Don't forget to order The Sun mailed to you while away on your vacation.

## TAHAN'S DAUGHTER Tells About the Indian Girls' Doll Game

To Readers: Princess Nacoomie is the daughter of Chief Tahan whose Indian stories have been such a hit with The Sun boy readers. Her stories are authentic accounts of woman and child life among the Indians written especially for Lowell girls and published in The Sun only.

BY PRINCESS NACOOMIE, Of the Kiowa Indian Tribe

This time, girls, I am going to tell you how little Indian girls played before white people came. Well, nearly everything they played was meant to teach a lesson. They played with dolls, boy dolls, like this one of mine. Sometimes they helped to make them. But usually a grandmother made the doll out of soft deer skin, and stuffed it with buffalo hair. The shirt and moccasins as well as the leggings were fringed and beaded about as beautifully as those of a real warrior. The hair of the doll warrior—maybe some of the little girl's own—was carefully arranged into three braids, one on each side of the head, the other one, the scalp lock, hanging down behind.

The girls used to have great fun playing "Hunt the Baby." They played the game on the edge of the leopie village, and as in all of their games, where some woman could see them. One of the girls took the doll and all of the others shut their eyes. Then she dropped it somewhere in the grass and went back to the others and cried out: "Where is my baby?" That meant that all was ready for the hunt to begin. The girls then opened their eyes and scoured around singing their "mother song," each one hoping that the song would help her find the baby. The one that found it would give a glad cry, the others would gather around to get the first look at it, and the little "mother" played that she was very proud of the new found baby. Then they would get poles and make a make-believe tepee, build a fire in front of

it, roast some pieces of meat over the fire and have a feast.

While the feasting was going on, the women who had watched their play usually told them an old time story like this one: One day a mother left baby in his cradle leaning against the tepee and went to the stream for some water. When she went back, the baby was gone. His mother cried so loud that everybody heard her, and they hunted and hunted. But they could not find him. The poor mother spent many sad nights and many long winters thinking about her lost child, and that it was her fault that he was lost. A long time afterwards some hunters found the lost baby boy with some wolves who had stolen him. When they took him home he could not talk but he howled and acted like a wolf.

All this taught the children the lesson, "never leave the baby out of sight," which a mother rarely if ever did. She preferred her child in her arms to the prettiest little dog that ever lived.

## FATE OF EX-KAISER

Up to England, says Foch's Aid—Foch Says Terrors of Peace Worse Than War

LONDON, July 31.—Marshal Foch, submitting to photographers at his hotel in London, yesterday, said to a reporter of the Mirror:

"For me the terrors of peace are worse than those of war. I hate all this posing."

Maj. Gen. Maxime Weygand, who is accompanying Marshal Foch, said it was for England to decide what should be done with the former German emperor. "He is covered with shame and ignominy and branded as a coward," the general declared. "The French people think that is enough punishment."

## WATCH YOUR DAUGHTER

IS she quiet and listless?  
DOES she complain of being always tired, of giddiness and ringing in the ears?  
IS she losing her color? Is her skin like wax?  
DOES she suffer with headaches? Is she pale and thin?  
IS she nervous, irritable, unhappy?  
THEN your daughter has Anaemia. Her blood is poor and thin. She needs RED PILLS for Pale and Weak Women.  
RED PILLS are food for the blood. They make the blood pure and rich. They feed the nerves. They build up strength and vigor.  
THEY will transform your daughter into a happy, rosy, healthy girl, who will be a joy to you and a delight to others.  
GET RED PILLS for her today.

MRS. DORA ROBERTS, Mill Street, Wilkesville, Mass., says that when she was sixteen years of age, she became so weak and exhausted that her family thought she would never recover. Her appetite was poor, her digestion was bad, and she found it difficult to walk around the house. Her mother, became alarmed over these bad symptoms, and after many failures elsewhere, decided to try RED PILLS for Pale and Weak Women. "They were my salvation," says Mrs. Roberts, "I soon began to get stronger and it was not long before I was enjoying the best of health. All this thanks to the good tonic, which cured the Anaemia I was suffering from, and relieved me of the general symptoms which usually accompany such poor blood."

**CAUTION:**—The formula of RED PILLS for Pale and Weak Women was first discovered in Paris, in the year of 1870, by a famous French doctor, and they have been widely used ever since.  
To avoid imitations or substitutions, insist on the signature "Cie Chimique France-Americaine". In boxes only, 50 cents, or six boxes for \$2.50.

## MOTORISTS SUE TOWN ARREST OF AMERICAN ORDERED BY MEXICO FOR \$44,000

RUTLAND, Vt., July 31.—The town of Clarendon has been made the defendant in four suits aggregating \$44,000, filed in the United States court in this city by Worcester, Mass., residents as the result of a serious motor accident which occurred in the early hours of the morning of July 28, when a touring car owned and driven by Leonard P. Leboeuf and containing his brother, Charles I. Leboeuf, and a cousin, Carleton Leboeuf, crashed through a covered bridge near North Clarendon and down over an embankment into Cold river. Leonard P. Leboeuf was instantly killed and the other two men suffered many injuries.

The first suit is for \$23,000 damages and is brought by Florence L. Leboeuf, the wife of the dead man, for the death of her husband. In the citation she alleges that the bridge was unguarded, unsafe and badly in need of repair, and that the west bank over which the car went is not properly guarded. The second suit is for \$10,000 damages brought by Charles I. Leboeuf for injuries consisting of a broken left arm, dislocated bones in his back, severing of tendons in his legs, and other injuries. The third suit is for \$5000 damages brought by Carleton Leboeuf for injuries consisting of a broken jaw, bruises and nervous shock.

The fourth suit is for \$4000 for the complete loss of the touring car. The Leboeufs were on their way from Worcester to Vergennes, Vt., to attend a funeral of a relative.

### BODY NOT IDENTIFIED

Medical Examiner T. B. Smith, after a careful examination of the skeleton found in the woods in Billerica last Sunday, states that the bones were those of a man about six feet tall, while the tattered fragments of clothing proved to be those of a laborer, consisting of a vest, a blue cotton shirt, blue overalls, white cotton socks and heavy blucher russet shoes. Near the body were found a broken clay pipe and the back of a mirror advertising Duffy's Malt Whiskey. The body is at the morgue of J. F. O'Donnell & Sons in Market street, where anyone who might possibly identify it may see it.

MEXICO CITY, July 31.—The arrest of David Morris, an American, general superintendent of the express system, and Felipe E. Pescador, former general director of the Mexican National railways, was ordered yesterday by the district court as the result of an investigation of railroad affairs.

Morris and Pescador were charged with irregularities in the financial affairs of the railways.

A writ of "amparo," which is a process of staying further proceedings somewhat similar to the American writ of habeas corpus, was obtained by both men, delaying further judicial action for 72 hours. At the end of that time the arrests ordered by the court will be made unless further judicial action should change the court's course.

The investigation of affairs of the Mexican national railways followed the publication by newspapers here of many criticisms on the managements and allegations of irregularities. Pescador recently resigned as director general of the railways and Col. Paulino Fontes, manager of the Southeast railways, was appointed to succeed him on July 8.

## Cadum Ointment for Children's Skin Troubles

Cadum Ointment can be applied to the tender skin of infants and children suffering from letter, rash, eczema, chafing and similar troubles. It stops the itching at once, and much suffering from skin troubles may be avoided by the timely use of this wonderful remedy. Cadum Ointment is also good for pimples, itch, blotches, scabs, eruptions, sores, scabs, cuts, burns, ringworm, etc. [Cadum Ointment is a French preparation made in America from the original formula.]

## Simple Operations Fitted Together

The business of Swift & Company is the fitting together of many simple operations.

No one thing in a packing business is particularly difficult for men trained to do it; but no one thing is enough.

Thousands of other operations, properly performed, are necessary for the completed processes. And some one must fit together all these thousands of simple operations.

The success with which a packing business performs its function of supplying the best possible meat products to the consumer with the greatest possible benefit to both him and the producer depends upon the energy, brains, experience, and faithful effort of the men trained in the business.

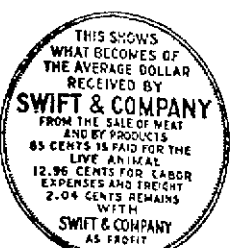

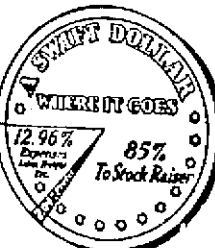

Swift & Company turns the producer's live stock into meat for the consumer at a profit of only a fraction of a cent a pound, because it fits these operations together with the least waste, overlapping, and friction.

Do you believe government direction could do it better?

Let us send you a "Swift Dollar". It will interest you.

## PRAISE FOR YEOMEN (F)

Sec. Daniels Lauds Girls for  
Faithful and Patriotic Serv-  
ice—2000 Mustered Out

WASHINGTON, July 31.—More than 2000 yeomen (F) and feminine marine corps reservists on duty here were mustered out today. Many will be employed in the navy department in civil service capacities. The remaining girls in the navy and marine corps in various parts of the country and island possessions will not be released from active service before Aug. 11 under the provisions of the new naval bill.

Secretary Daniels and Major General George Barnett reviewed the battalion of uniformed yeomen (F) and a company of girls of the marine corps yesterday as part of a "farewell ceremony." Mr. Daniels praised their faithful and patriotic service. He said their enlistment had released nearly 10,000 men for active service with the fleet and with the marines in France.

FEDERAL CONTROL OF  
WIRES ENDS TONIGHT

WASHINGTON, July 31.—Government control of telegraph and telephone properties will end at midnight tonight. Orders for their return to private owners were issued yesterday by Postmaster General Burleson as required under a resolution adopted by congress and signed by President Wilson 10 days ago.

Mr. Burleson, in a statement accompanying his order, said sound public opinion ultimately would determine "how this trust has been met," and that he was content to abide by the result. He said this reply to criticisms of his management of the wire companies, the postmaster general also took a parting shot at the Postal Telegraph Co., most of the officers of which were removed several months ago because of what termed interference with government management.

The postmaster general did not mention the company by name, but said that "with one notable exception, the reason for which is thoroughly understood by those who have kept informed," every wire company had given him loyal co-operation.

Under the resolution of congress directing the return of the companies, government-fixed intra-state telephone rates are to remain in force for a period of four months, unless sooner changed by state commissions but no provision was made as to telegraph rates. Clarence H. Mackay, president of the Postal company, in urging congress to provide for speedy return of these properties, said his company could reduce rates 20 per cent and still earn a profit.

This statement was recalled yesterday in connection with the return of the properties and a rate war between the telegraph companies was viewed in some quarters as a possibility. Telegraph rates were increased approximately 20 per cent last March to meet increased salaries of operators and other employees and rising costs of materials.

Will Ask for New Hospital  
Continued

Inmates, 1051 of whom are men and 1927 are women. Of same persons there are 1709, while 702 are insane. Insane women far outnumber insane men, there being 595 of the former and only 137 of the latter, but this is not due to any idiosyncrasies of the sex, but simply shows the relative accommodation spaces allotted to each.

The number of inmates has been declining steadily since March of this year and will continue so until September, when the total always is at its lowest ebb. From the latter month through the winter and until spring comes again the total will rise rapidly, as it has in other years. This is due to the severity of winter weather.

## Two Abnormal Years

In the last decade at the hospital there have been two abnormal years—1915, when the weekly average of inmates was 2601, and last year, when it was 2104. In 1915 there was a long period of industrial unrest and more or less business stagnation. Bread lines were common, persons in poor circumstances were ill-clothed and filled to overflowing. The average dropped back to normal in 1916 and continued so until last year when it dropped to an abnormally low level, the lowest, in fact, since 1909.

## The reason for last year's low average

age was industrial activity. People commanded high wages and their personal bodies and living conditions benefited thereby. Poverty was decreased a hundredfold and state institutions were not operating at capacity. Even the number of tuberculosis cases at the Tewksbury hospital were considerably fewer last year than in 1915 and 1917, and Dr. Nichols, although admitting that he did not dare to lay his finger on the exact reason, and emphatically say he was right, nevertheless, believes that many people infected with lung diseases instead of going to hospitals kept at work.

The average weekly census for the first seven months of this year, however, shows that the yearly average will revert back to what it was in 1916 and will be in excess of two years ago. And the reason is plain: industry has slackened.

It was well that the activity of 1915 did cause a decline in the number of inmates at the institution for the hospital sent 75 men and women into the service, including 19 of the medical staff of 16 members. The work in the general hospital, as in the other departments, was conducted throughout

## McCALL PATTERNS FOR SEPTEMBER HAVE ARRIVED

The McCall Fall Quarterly is out and we honestly believe  
that it is as beautiful and attractive a book as has ever been  
issued. It contains over four hundred authentic styles direct  
from Paris and Fifth Avenue and is a big fashion show in itself.  
McCall Patterns, Third Floor.

Capturing Fashion is like capturing trout. You must make  
the "catch" at the vital moment. This is what McCall's Fall  
Fashion Quarterly enables you to do. It gives you the pictures,  
descriptions and the Pattern number of the styles that have just  
bloomed in Paris and New York, and turning them to your own  
use is merely a matter of following the easiest and simplest  
directions. Only 15 cents when purchasing a McCall Pattern.

# No energy

You cannot attend to your work properly, or with any degree of  
satisfaction, if your head aches or if you feel dull and grouchy from  
a disordered stomach, or imperfect digestion. To do your work  
easily, quickly and well, and to keep at it, you must have a clear  
head.

If you have been confined in a close room, open the windows or get  
out for a moment and get your lungs filled with fresh air. If your  
stomach is deranged from hasty eating, or eating too heartily of  
rich or indigestible food try a few doses of "L. F." Atwood's  
Medicine to start up your digestive functions. You will get speedy  
relief and you will find yourself doing your customary work easily  
and with satisfaction to yourself. Fifty cents a bottle at all dealers.  
Sample free from "L. F." Medicine Co., Portland, Me.

HAIR ON FACE  
DISAPPEARS QUICK

The most effective, convenient  
and harmless way to remove hair  
is with Dettol, the original  
sanitary liquid. It acts quickly  
with certainty and absolute safe-  
ty. Results from its use are im-  
mediate and lasting.  
Only genuine Dettol, the  
original sanitary liquid, has a  
money-back guarantee in each  
package. At toilet counters in  
60c, 81 and 52 sizes, or by mail  
from us in plain wrapper on re-  
ceipt of price.  
FREE book mailed in plain  
sealed envelope on request. De-  
toll, 129th St. and Park Ave.  
New York.

work which should naturally fall to

three or four.

Service Men and Women

Many of the service men and women  
have returned to the hospital and  
more are expected, but in a number of  
cases physicians and nurses will not  
return and their places will be filled  
by others.

Like many other institutions under  
city, county and state management,  
the Tewksbury hospital management is  
not keeping pace with the demands  
made upon it. If an average weekly  
census of 2360 is attained this year,  
that number will be far in excess of  
what the institution is capable of han-  
dling with the maximum of ease and  
comfort. There was no appropriation  
forthcoming from the state last year  
for new building work, in fact, no new  
addition to the plant has been made  
for about eight years. Some of the  
buildings are far too old and al-  
though they have been expanded by  
wings and additions, wards in several  
instances are slightly overcrowded,  
based on modern hospital hygiene. The  
men's hospital building was erected in  
1888 and others have lives of almost  
equal length.

Dr. Nichols is a firm believer in the  
proper segregation and distribution of

patients according to diseases as far

as possible. This is being done now

to a great extent, but new buildings,  
not larger than to accommodate 100  
beds are needed. The old idea of creat-  
ing state institutions all under one roof  
has long since become obsolete, and it  
is with the aim of forever burying this  
idea that the present superintendent  
asks for more buildings.

This year he will petition for an  
amount of money sufficient to erect a  
new women's hospital to take the  
place of the present one built in 1887  
and which has an equipment of about  
150 beds. He would have the new  
building large enough to accommodate  
250 beds and be erected on a level plot  
of ground just outside the present  
boundary fence on the west side. Dr.  
Nichols also favors a building of one  
story, rather than one covering less  
ground but of three floors. The hos-  
pital has plenty of room for expansion  
to the westward and as it grows it  
will be in this direction. Buildings  
erected on the west side of the present  
group also will be nearer the heating,  
power and light plant, a fact which  
Dr. Nichols has in mind.

Wants Domestic Building  
The superintendent also wants a

new domestic building and will ask

for an appropriation of \$120,000 for it.

He said today that he believed if the  
state thoroughly knew of the extent  
of the hospital and the countless de-  
mands made upon it, more money for  
new work would be forthcoming with  
no signs of reluctance.

In 1891, 25 years ago, when Dr.  
Nichols first became connected with  
the hospital, the weekly average of  
cases was 900; there were 71 persons

employed during the year and the pro-

portion of inmates to officers was 12.

At present there are more than 350  
persons employed and the proportion  
of inmates to officers has shrunk to  
six. Yet Dr. Nichols says he does not  
remember of being particularly con-  
scious of this growth of more than 150  
per cent except at particular times  
when the entire staff feels that the  
demands are greatly overbalancing  
the workable material and accommo-

modations of the institution.

## HIGH WAGES TO GO ON

Commissioner, Mulready Sees

Period of Good Times for Labor

BOSTON, July 31.—Commissioner Edwin Mulready of the state board of labor and industries announced yesterday one of the men in his department had just left the service in order to go to France to help repair the damage of the war. He said there will doubtless be many such cases, as there is a great demand in France for American push and enterprise in consequence of their practical experience with Americans during the last part of the war. He predicts the movement of labor from this country to Europe will be so marked as to affect the labor situation in the United States. He does not believe there will be any immigration to offset this loss, for the European countries have no "men to spare," and it is probable their governments will pass laws to prevent immigration.

The commissioner sees a long period of good times for labor before there comes any reaction. At present, the labor situation is unusually favorable, he said.

"One agency manager tells me that it is not a question of finding a job for a man, but of finding a man for a job," he said.

## Vets Absorbed

"I think the way the labor market has absorbed the many thousands of men who have returned from the war is remarkable. In many cases they have better positions than they had when they went away. They are disposed to insist upon something better and, in many instances, do not want to return to their former positions. A book-keeper who was getting \$17 a week told me he could go back on the old terms, but he did not because he wanted something better. My advice was to take the job, and then look for something better, for it is easier to go from one position to another than to go from one street to a job."

"The high wages of labor have a material part in the cycle of advance which is setting everything on a high level. Wages was one of the first things to go up, because the government needed men and supplies for carrying on the war. Wages were a secondary consideration. Production and speed were the main facts. Hence wages jumped till they reached an unprecedented point."

"This jump in wages was felt in the price of commodities into which labor entered, and hence the workmen got their share of the advance early, and it looks as if the conditions in the labor market would keep up the wage level for years to come. There is the loss of life by the war, which will make a deficit for a long time. There is the lack of immigration. There is the high standards of living to which labor has become accustomed."

"From my observation of the labor situation I find the style of living of the mass of workmen and their families has improved. This in itself is a good thing and it is desirable that it be continued. I recall the statement of Mr. Barr of the Foundry association, immediately after the signing of the armistice, that now wages must come down, which was followed by the declaration of Samuel Gompers, in behalf of labor, that wages should not go down. That shows the disposition of the labor men and it is to be expected that the conditions must be compelling before organized labor will consent to any less wages than it is now getting."

"Massachusetts is doing more for the laboring people than ever before, for it has the state board of labor and industries, the minimum wage commission, the industrial accident board and the state board of conciliation and arbitration directly organized for the benefit of labor. In addition, there are important activities of the state de-

partment of health, of the inspection department of the district police and of the state department of education which have much to do with the welfare of laboring people and their children in the public schools and at home."

## WOULD KEEP ALL ARMS OUT OF MEXICO

WASHINGTON, July 31.—Congress would declare itself opposed to exportation into Mexico of any arms or munitions of war under a resolution introduced yesterday by Representative Hudspeth, democrat, Texas.

The resolution asserts that inasmuch as the existing embargo on shipment of arms into Mexico permits certain exceptions, congress should go on record as opposing any exportation whatever.

President Wilson through a proclamation made public several days directed no arms or munitions of any kind should be sent into Mexico except under such limitations as might be prescribed by the secretary of state.

Representative Hudspeth's resolution follows:

"That inasmuch as the president of the United States has found that there exists in Mexico conditions of domestic violence, promoted by the use of arms and munitions of war procured from the United States, as expressed in the embargo proclamation dated July 12, 1919, and inasmuch as he has, in consequence, forbidden the exportation to that country of all arms or munitions of war, except under limitations and exceptions to be prescribed by the secretary of state, it is the sense of congress that this measure shall be administered impartially and without limitation or exception as to any citizens or authorities of the republic of Mexico."

The Hudspeth resolution was dropped into the bill clerk's basket without comment, and referred to committee for consideration. Action on it before the house recess beginning next Saturday seems improbable, but during the vacation the inquiry into Mexican affairs will be continued by the house rules committee.

Representative Hudspeth, commenting on his resolution, said that it was aimed to prevent arms from being sent to the Carranza forces.

## SEC. LANE SAYS LEAGUE DIFFICULT QUESTION

WASHINGTON, July 31.—Patriotism of men who held differing views on the wisdom of ratifying the peace treaty, including the League of Nations covenant, is not to be challenged "so long as they think above the plans of partisanship," Secretary Lane declared here last night before a mass meeting of government employees.

"It is not an easy question to answer," Mr. Lane said, adding that it was one "to which we wish an American answer."

"And it takes courage," he declared, "whether we stand still and risk the scorn of a waiting, eager world, or break through our inertia and take the step that leads to a multitude of new relationships and possible obligations."

"The view of the ordinary citizen the secretary said he thought, was that as many obstacles as possible be put in the way of nations desiring to make war, 'but to be left as free as possible to follow our own designs, knowing that these do not endanger the peace of the world.'"

"We will not hazard our national life or the right of our people to determining their own institutions and destiny," he said. "But with these safeguards we will go far for the sake of the world."

Mr. Lane said he believed everyone would have preferred that the league should have been born "in a different way, at a different time." When Theodore Roosevelt returned from his trip

to Africa, he added, the former president made the strongest appeal any national leader had then voiced "for such a league."

"Then was the day for its creation," Secretary Lane continued. "But the world did not see the danger it was in."

"Such men as President Taft and Mr. Root committed themselves to the project then, Mr. Lane said, but 'the stern figure of the Kaiser, backed by his standing army of 2,000,000 men,' stood in their path. William Jennings Bryan, as secretary of state, had moved in the same direction with his negotiation of arbitration treaties, Mr. Lane continued.

It was not until the war came that any but tentative steps could be taken toward the formation of a peace league, Mr. Lane said, and if the president had not made the effort to secure it "we would have said he was a quitter."

## STORE WORKERS ARE ENJOYING GOOD REST

Employees of Macartney's Apparel Shop, Cook, Taylor & Co., and The Thompson Hardware Co. are enjoying vacations as follows:

Macartney's—Mr. Joseph Hicks is enjoying a two weeks' fishing trip in Maine. Miss Lillian Lebrun is touring the beaches along the North shore. Cook, Taylor & Co.—Miss Harriet Frazer is visiting in Bangor, Me. Miss Gertrude Cooney is spending a couple of weeks at Nantasket beach. Miss Jennie McCort will leave Saturday for Malden, where she will spend a couple of weeks. Miss Mary Madole will leave Saturday on a two weeks' vacation at Beverly. Miss Ethel Mountain is the guest of relatives at Greenfield, N. H. Miss Jane McDougall will spend the next two weeks at Beverly. Miss Eva Bresault has returned from a two weeks' vacation spent at Long-Sought-For pond.

Thompson Hardware Co.—Mr. Clarence Reynolds is enjoying his vacation at Cape Cod. Mr. Ralph Norwood will leave Saturday for Hampton beach where he will spend the next two weeks. Miss Lucy Adams will spend the next two weeks enjoying the cool breeze on a farm in Chelmsford. Nelson Lebrun has returned from a two weeks' vacation spent touring the state of New York and Canada in an automobile.

## Milk Must Improve Continued

condition which prevails all over the country, however, and is not accountable to any peculiar local conditions. Milk inspectors everywhere are experiencing the same difficulty and are doing everything within their power to raise the standard by peaceful means. The Lowell inspector says that one or two producers have been warned several times, and unless the standard grows better and conforms with the state law, prosecutions will follow.

Lowell milk is not of poor grade, far from it, he says, but in several instances it is just a point or two below the recognized standard and in many cases, while the per cent of total solids may be a trifle low, the per cent of butter fat will be greater than is required, thus creating a balance. The law says that milk shall test 12 per cent total solids and 3.35 per cent butter fat.

"There is no shortage of milk in Lowell and the supply and demand are about equal. A prolonged hot spell would create a shortage, however, and this occurs once or twice every summer, but no critical condition is expected. At the present time Lowell people, including householders, stores and restaurants, are consuming approximately 40,000 quarts of milk a day.

Inspector Master believes there is no doubt but that a quart of milk is worth at least 16 cents, based on its food value in comparison with the high prices being obtained for practically every other eatable, but adds that the prevailing cost it cannot be used as a leverage only in remote instances. As a substitute for other foods it is not excessively high in price but as a beverage it is an out and out luxury. Even at the present price of 14 cents a quart, people in poor circumstances find it extremely difficult to purchase milk and with two cents added, this condition, of course, will be greatly aggravated. Milk is an absolute necessity and it is very probable that children will suffer because of an insufficient amount as daily food.

## Campers Found Guilty Continued

everything of value they could remove. One of the defendants, who said that his real name was Carl Caster, instead of George E. Edgings, as he originally stated, was sentenced to the Shirley Industrial school, from which he had been on parole. The other boy, known as Edward Johnson, and who today gave his name as Edwin C. Adams, was given a suspended sentence to the Massachusetts reformatory.

According to the admission of the boys and the testimony of Constable Connel of the Tyngsboro police, the pair broke into the camp of J. H. Kingsbury in Tyngsboro last Thursday and besides appropriating a quantity of camping utensils and provisions, helped themselves to Mr. Kingsbury's tent and rowboat. They rowed up the Merrimack river to the camp of Charles E. Goulding the following day and added to their supply from Mr. Goulding's camp.

By this time the youthful campers were well provided with the wherewithal to camp out for some time and when arrested by Constable Connel on Sunday had pitched camp on the bank of the Merrimack two miles above the Tyngsboro bridge, and were apparently at peace with the world. The constable couldn't quite see into the idea of allowing the camping trip to last any longer at the expense of Messrs. Kingsbury and Goulding, and they were brought to the police station. Most of the stolen property was recovered.

Joseph A. Marcotte was charged with operating an automobile while under the influence of liquor, and also with operating the car in a manner to endanger the lives and safety of the public. He was found guilty on both complaints and the case continued until Saturday for sentence.

We Serve Our Customers Best by Being Open Friday Nights Till 9.30

# AFTER STOCK-TAKING Odds and Ends Sale

Our stock-taking just completed has brought to light several hundred pieces of odd merchandise—not enough of any one kind to carry in our regular stock—many items we could not duplicate at any price if we wanted to. We are going to dispose of these odds and ends in quick order by placing them on sale at very low prices. FRIDAY and SATURDAY will be two days of unusual opportunity to get some real bargains.

## BRANDEIS IS HONORED

Jewish Colonies Declare  
Holidays for Justice—Com-  
pletes Tour of Palestine

NEW YORK, July 31.—Justice Louis D. Brandeis, of the United States supreme court has completed a tour of Palestine and is en route to Paris, according to word received here today by the Zionist organization of America. The Jewish colonies were reported in a flourishing condition.

Justice Brandeis who is honorary head of the Zionist movement in this country, accompanied by Jacob De Haas, executive secretary, and Professor Alfred Zimmerman of the University of Wales, a former British foreign under secretary, visited Jaffa, Jerusalem, and more than 20 Jewish colonies in Judea, Galilee and Samaria. Their arrival was the signal for a public holiday in most of the cities and towns. Equally cordial was the reception of the party by officers of the British army of occupation.

Secretary De Haas reported that "much was done to encourage the conviction that the League of Nations would begin under favorable auspices because of the accomplishments of the present Jewish population."

Justice Brandeis expects to reach this country in time to report the Zionist convention which will open in Chicago on Sept. 14.

## PROTEST TO KOLCHAK

Inter-Allied Commission  
Charges Violation of Agree-  
ment on Railways

VLADIVOSTOK, Saturday, July 13.—(By the Associated Press).—The inter-allied railway commission here de-  
pached a formal protest yesterday to the Onokh government of Admiral Kolchak against violations of the inter-allied agreement regarding the operation of railways. The communication demands that Russians live up to the agreement which they signed, and are a party to, if the government expects allied aid. The removal of General Semenov from the zone where he can interfere with railroad operation also is asked.

The violations have been chiefly through the military station commanders who sell tickets, allot cars and attempt general supervision of traffic, a duty assigned to the technical board of the American railway commission to Russia under the chairmanship of John P. Stevens.

The chief disturber is alleged to be General Semenov who appears to be the dominating figure in the trans-Baikal sector.

The United States has furnished \$1,000,000 and China \$500,000 for the railroad reorganization, while the other allies have promised funds.

## APPEAL TO NATION TO STOP LYNCHING

BOSTON, July 31.—Demand for an investigation by congress of mob violence and lynching in the United States is made in an address to the nation signed by 150 citizens throughout the country, including ex-President Taft, Atty. Gen. A. Mitchell Palmer, Dr. Henry Van Dyke, the governors of seven states, every living ex-attorney general of the United States, the heads of California, Illinois, Princeton, Western Reserve, Fisk and Vanderbilt universities, Charles W. Eliot, Elihu Root, Charles Evans Hughes, J. R. Bingham of Mississippi, and Senator Arthur Capper of Kansas.

The address to the nation is an outcome of the national conference on lynching, which was held in New York city, May 5 and 6, last.

"The people of the United States suffer justly under the grievous charge that they continue to tolerate mob murder," says the address. "In the year 1918 no less than 57 persons were done to death without trial or any process of law, having been denied the right to a day in court according to the federal and state constitutions to all citizens.

"It is well known that the innocent with the guilty suffer the cruel inflictions of mob violence. Mobs have

Stop Seborrhea—Grow Healthy Hair

even invaded court rooms and prisons to seize and murder prisoners whose punishment had already been fixed. Early in 1919, a hospital was invaded by a mob, and the attack resulted in death from shock of a patient that day operated upon.

"Patriotic citizens throughout the country feel the shame which lynchings cast upon the nation, but they have assumed partial responsibility for this shame by their silence and their acquiescence. The time has now come when citizens of the United States can no longer contemplate without protest the setting at naught

of the fundamental principles upon which their citizenship is based.

"The undersigned, therefore, as citizens of the United States without sectional or party bias, with the interest only of the republic at heart, urge all public spirited men and women to oppose with all their power the recurrence of the crime and the shame of mob murder, they urge the governors of the several states to do all that is possible to prevent and punish lynchings; they pledge their support to the officers of the law who, in the face of mob excitement, discharge their duties; and they urge

upon the congress of the United States national investigation of lynching and mob murder to the end that means may be found to end this scourge."

Among the southern signers of the address are Charles J. Bonaparte, of Maryland, former attorney-general of the United States; George M. Bailey, editor of the Houston Post; William M. Huxley of Lexington, Va., secretary southern race commission; William S. Sutton, dean of department of education of the University of Texas.

Among the signers from New York are the editors of the Evening Post, the

Independent, the Public, the New York Age, the New Republic, the Nation, the Survey, the Crisis, the publisher of the New York Times, and the presidents of the Bar and Merchants' associations.

**FREED OF DRAFT EVASION**  
BOSTON, July 31.—Lewis F. Curtis of Newton, reputed to be one of America's best rifle shots, has satisfied the government that his reasons for not getting into the war were sufficient. The United States district court has not pressed an indictment charging him with falsifying his questionnaire for the purpose of evading the draft.

He is 32 years old, the son of Thomas Curtis of the firm of Deering, Milliken & Co., New York and Boston. He was placed in class 4 by the Newton draft board when his questionnaire

showed that he had a wife and child. The indictment was brought by the United States grand jury last December.

**COUNTY TAX RECALLED**  
The tax of \$112,653.75 levied against the city of Lowell as the county tax for this year has been recalled and will be re-levied in accordance with one of the final acts of the recent legislative session which provided that such taxes should be re-apportioned. The Lowell tax will undoubtedly be increased and the assessors expect to know the exact amount within a week.

SAYS TURKS PARBOILED  
GREEK VICTIMS

NEW YORK, July 31.—Charges that Turkish officials decimated the Greek population along the Black Sea coast, 250,000 men, women and children living between Sinope and Orzoo, without the shedding of blood but by "parboiling" the victims in Turkish baths and turning them half dead out to die of pneumonia or other ills in the snow of an Anatolian winter, are made in a letter from Dr. George E. White, representative of the American committee for relief in the near east made public here yesterday.

Sinope was the birthplace of the philosopher Diogenes, Dr. White recalls, and Orzoo is just beyond Cape Jason which is still preserved in memory of the Argonauts and the Golden Pleece. The letter, written to Professor J. P. Noyes, secretary of the Greek relief committee here, described the new method of ridding the land of its inhabitants which, it is said, was somewhat different from that employed by the Turks against the Armenians.

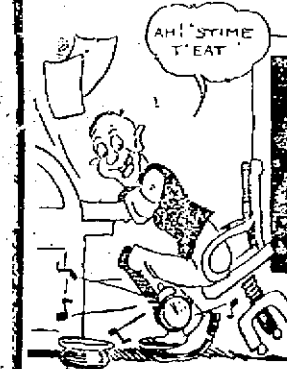

The worst of the crimes laid to the Turks, according to Dr. White, were committed in the winters of 1916 and 1917 when orders were issued for the deportation of the Greeks along the Black Sea coast. The people, he wrote, were crowded into the steam rooms of the baths in Chorum under the pretense of "sanitary regulations" and after being tortured for hours were turned out of doors into snow almost knee deep, and without lodging or food. Their garments, which had been taken from them for fumigation, were lost, and they perished. Most of the victims, Dr. White said, suffered from contracted tuberculosis and other pulmonary diseases and "died in swarms" on the way to exile, the letter declared.

Dr. White said that in the province of Batna, where there were more than 95,000 village Greeks, now less than 12,000 survive and every Greek settlement has been butted. The number of orphans, including sons, Armenians and Turkish children, in the entire district, it was said, aggregated 24,000. Since the armistice, the doctor wrote, many of the deportees have been returning to their ruined homes.

The few Hun patriots, who are eager to absolve the Kaiser by suffering for his sins overlook the fact that many millions have already suffered for his sins.

Miss Alberta Hall

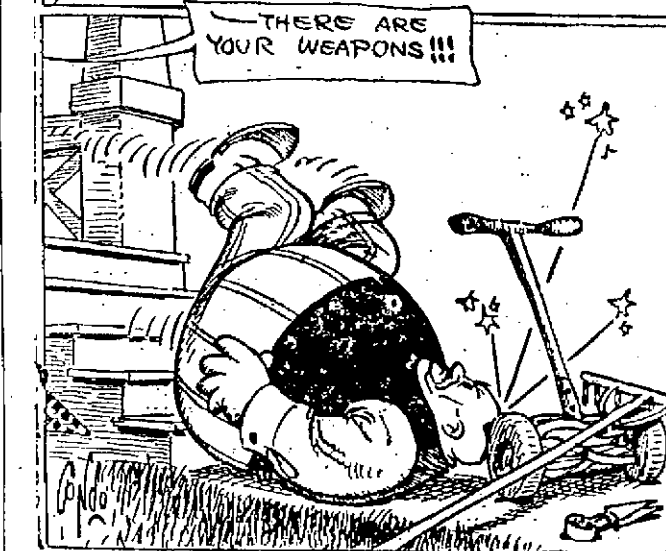

Pretty Alberta Hall of San Jose, Cal., accused Rev. J. W. Kramer, in whose church she was soloist, of spreading tales about her after she and three other young women had refused to marry him.

After hearing both sides of the question the board of deacons exonerated the minister, who explained that he had no intention of slandering the attractive choir-girl.

SAYS GIRL MET DEATH  
BY DROWNING

PATERSON, N. J., July 31.—Miss Mabel Harris, 26-year-old Pompton girl, whose parents reported her missing Sunday after she had failed to return from a canoe trip she had taken with her fiancé, Lester Decker, and whose body yesterday was recovered from the Ramapo river, met death by drowning, according to the opinion given by County Physician Armstrong

## EVERETT TRUE

after an autopsy performed late yesterday afternoon.

In announcing the physician's verdict, Prosecutor Dunn said last night that no water had been found in the lungs, but explained this by stating that the girl may have fainted from fright before striking the water. No marks of violence were found on the body.

Following a conference held last night with County Physician Armstrong and police officials, Prosecutor Dunn announced that there was no evidence on which to hold Decker and that he would ask Magistrate Ramano to release him from custody, as his account of the accident in which Miss Harris met her death was now fully corroborated.

According to Decker's statement, he and the girl had fallen asleep in the canoe when suddenly he found himself battling in the water after the canoe had drifted over a dam and capsized.

## AGAIN DENIED BY JAPAN

Foreign Minister Nails Report of Secret Plot Between Japan and Germany

TOKIO, Saturday, July 19 (By the Associated Press).—"I declare once more with a clean conscience, that Japan never acted to breach her plighted faith to her allies and associates in the war."

This statement was made today by Viscount Yasuya Uchida, the foreign minister, to the Kokusai news agency with regard to reports that Germany and Japan had entered into secret negotiations for an alliance during the war.

"The absurd story that secret negotiations were conducted during the course of the war between Japan and Germany," he said, "seems to be again attracting public attention in America. That such a report is persistently circulated, despite the categorical denial repeatedly made by the ministry at Tokio and by the Japanese representatives at Peking, Washington, Paris and elsewhere, apparently indicates that certain quarters interested in the present moment in the estrangement of Japan from her friends have been desperately at work with this ill-advised object in view."

## Action Follows Ultimatum

Continued

ministration a statement similar to that of the engineers, setting forth that the trainmen must have increased wages unless immediate steps are taken to reduce living costs.

## Sell Army Food

WASHINGTON, July 31.—First steps in the federal government's attempt to reduce the high cost of living were taken today with the inauguration of a plan for the sale of \$125,000,000 worth of army food stocks direct to the people with every postmaster and mail carrier over the country acting as a salesman.

Distribution in this manner was requested by the house of representatives and details were worked out at conferences between Secretary Baker, Postmaster General Burleson and Representative Kelly of Pennsylvania, author of the house resolution.

While this program was being put into effect, President Wilson had before him a statement from the Brotherhood of Locomotive Engineers which declared that "conscienceless profiteering by the great interest who have secured control of all the necessities of life" had brought about such conditions that the engineers felt they must demand increased wages, unless living expenses speedily were reduced.

At the department of justice, investigations into causes of increasing living costs were under way with particular attention to the question of whether producers or dealers had combined in violation of law to raise prices of necessities.

Meantime there was pending in the house a resolution proposing that the federal trade commission investigate rising costs of coffee, sugar, shoes and clothing.

## R. R. Shopmen Not to Strike

WASHINGTON, July 31.—Representatives of the six railroad shops who are in conference here with railroad administration officials telegraphed to shop employees over the country today not to strike pending final settlement of their demands. The workmen were informed that the railroad administration had consented to enter into a na-

## Influenza Left Woman Run-Down and Despondent

Failed To Regain Strength Until She Began Treatment With Dr. Williams' Pink Pills

"Like so many others who had influenza during the epidemic," says Mrs. Honoria J. Laconture, of No. 76 Broad street, Marlboro, Mass., "I was left in a badly run-down condition, and it seemed impossible for me to regain my strength."

"The influenza didn't last long but the disease was so severe that it sapped almost all my strength. My stomach bothered me and food soured, causing severe pains, and dizzy spells. There was also a very rapid heart action which caused me to worry and I became despondent. I was very weak and found great difficulty in doing my household work."

"I read about Dr. Williams' Pink Pills in a newspaper and decided to give the remedy a trial. In a few weeks there was a decided improvement in my condition. My appetite was better and I could eat without distress. Gradually I regained my strength and the unusual heart action was corrected. I feel better than I have in a long time and can strongly recommend Dr. Williams' Pink Pills." Dr. Williams' Pink Pills for Pale People are sold by your own druggist or will be sent direct by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for free book, "Building Up the Blood."—Adv.

national agreement with the unions covering rules and working conditions. The committee represented 450,000 men. Two broad subjects were up for consideration—creation of national agreement and a "very substantial" increase in wages to meet increased living costs, which the committee said had caused a serious state of unrest among the shopmen.

"We are now officially assured by the director general that the railroad administration will sign a national agreement," said the telegram to the shopmen. "An earnest effort is now being made by the director general to give us definite information at the earliest possible moment as to position of railroad administration regarding wage matters."

"The successful termination of our efforts depends upon the united support of all men involved. There must be no stoppage of work during these negotiations. We will advise you as soon as we are in possession of further definite information."

## Trainmen's Ultimatum

WASHINGTON, July 31.—William G. Lee, president of the Brotherhood of Railway Trainmen announced today that unless the railroad administration had taken action by Oct. 1, on the demands of the brotherhood that wages of the trainmen either be increased or the cost of living reduced, steps looking to the enforcement of the demands would be taken.

Mr. Lee said a resolution containing this declaration, which had been adopted last night by the special committee of 15 appointed at the recent convention of the trainmen at Columbus, Ohio, would be sent to the railroad administration. The resolution provided that in the absence of action by Oct. 1, the committee would reconvene to consider "the necessity for using the protective features of the brotherhood."

## PROHIBITION CAMPAIGN

Secret Movement in British Cabinet to Maintain Liquor Control Regulations

LONDON, July 31.—In connection with the prohibition campaign in England, the members of parliament who sympathize with it will conduct an energetic secret movement in parliament to maintain the existing liquor control regulations established during the war and especially the restricted hours of sale, says the Daily Mail. These members are trying to persuade Premier David Lloyd George to receive a secret deputation, the newspaper asserts.

## Lowell Has 18 Oases

Continued

the big rush will come tonight. Although it is admitted that 2.75 per cent. hasn't got the kick contained in the beverages sold before the town went dry, it's a mighty smooth drink for a warm summer day, say the knights of the white apron.

Many of the dealers who secured licenses yesterday were unable to get

stocked up in time to open their doors last evening, but the three establishments who paved the way for the anti-prohibitionists Tuesday evening by applying at the license commission for first class liquor licenses, and who opened shortly before noon yesterday, did a rushing business throughout the evening.

Or disturbance there was practically none. It was a jolly, good natured crowd who touched elbows again in front of the three bars aforesaid and one would be led to believe that 2.75 per cent. was indeed non-intoxicating after making a round of the places open and observing the conduct of the patrons.

No liquor licenses were granted by the license commission today but a special meeting has been called for tomorrow morning when the commission will act on a batch of applications which have been coming in, throughout the day. All dealers taking out new licenses subject to federal regulations will be forced to surrender the old licenses under which they operated prior to July 1, but the commission stated that should the prohibition ban be lifted before the end of the license year, the dealers will not be forced to renew their licenses and can continue to do business.

Regardless of its education or its morals, the class that is a menace to the established order is the one that isn't getting enough to eat.

## FOUR HONDURAS TOWNS CAPTURED BY REBELS

SAN SALVADOR, July 31.—Four towns in Honduras have been captured by the revolutionists, according to despatches received here today, while government troops have scored successes at three points.

General Lopez Gutierrez, one of the leaders of the revolution, was routed at Tupacanti and fled to a mountain, according to the Honduran minister here, Senor Fortin.

Col. Francisco Carbona, with a force of 800 men, was reported defeated yesterday by government forces at Caballeros and Goascoran. At Goascoran Col. Juan Jacinto Velasquez was killed.

The four towns taken by the revolutionary forces, according to advices here, were Comayagua, Gracias, Camasca and Marcala.

## Troops Guard Riot Zones

Continued

their places disorders died down within the region patrolled.

Plans for Concerted Attacks

Mayor Thompson's decision to request the aid of state troops was reached after his secretary and Gen. Dickson had gone through the zones where whites and negroes had clashed many times since Sunday and he had received reports from private investigators who told him that many small athletic clubs were arranging to make a concerted attack on negroes.

Gen. Dickson reported that the situation was ominous and Chief of Police Garity presented a tabulation of two policemen slain and 31 injured. The fire chief told the mayor that firemen had answered to alarms for fires in negro homes. With this information at hand the mayor hastily telephoned Gov. Lowden and General Dickson to order the soldiers on duty.

## Rioters Flee When Troops Arrive

As the soldiers swung with steady stride into the riot area, the rioters disappeared as if by magic. Some of the gangs sped to territory hitherto uninfected by terrorism and resumed their unlawful occupation, but most of them retired for the night. Rain aided in driving them to cover.

By 2 o'clock in the morning, all was quiet in the troops-guarded territory.

## Battle for Two Hours

The most serious riot of the night took place at 53rd and State streets, where 200 policemen fought nearly two hours a crowd of negroes, firing several hundred shots before the rioters were subdued and 45 of them arrested. It was only after the patrolmen had chopped their way into some of the buildings and seized a dozen snipers with their rifles and 300 cartridges that the fighting ceased.

## Many Persons Clubbed

Although many persons were clubbed

as the police charged the barricaded negroes, all the rifle fire resulted in the injury of only one person, patrolman Emil Johnson, driver of a patrol wagon. He was shot as the policemen dashed up to the scene and there after the bluecoats kept in the shelter of their vehicles while approaching the row of houses.

## Soldiers Captured Negroes

Before the troops had all been assigned there were some minor clashes. The first melee occurred in front of the shop of the motor transport corps at 51st street and Wabash avenue. Nine negroes, armed with revolvers fired promiscuously, but hit no one. A squad of soldiers soon came up and gave chase, capturing the negroes after firing several shots. Ten revolvers and several razors were taken from them.

## Five Whites Arrested

The first arrests made by soldiers were those of five white men whose automobile was searched because of their rowdiness, and found to contain a revolver.

## While the soldiers were taking their stations, a crowd of whites surrounded the home of John Cole, a negro policeman in Englewood. The house was severely damaged before other policemen came to the rescue.

## Troops Guard Postoffice

Federal officials hinted today that troops would be asked to surround the postoffice, affording protection for employees of both races and guaranteeing delivery of mail. Failure of 1000 chauffeurs, carriers and clerks to report for duty yesterday, was declared by Postmaster Carlisle to constitute interference with the mails.

## Negro 102 Years Old Arrested

Sanford C. McCoy, colored, who told the police he was 102 years old, probably was the oldest person picked up by the police as a suspect in the round-up of rioters. He was disarmed of a loaded revolver, and warned to go to his home.

## Woman in Man's Attire

A white woman, dressed in man's clothing and carrying a pistol, was arrested. She told the police she was on her way to a railroad station and had donned male attire through fear of rioters.

## Leaders among the negroes of Chicago met last night in an effort to discover the real causes of the race riots and to devise means of ending the disorders. Resolutions were adopted advising negroes to be the first to cease acts of violence.

## Negroes Wreck Shoe Store

Rain today dampened the spirits of even the stragglers remaining about the riot areas, for they disappeared without waiting the appearance of a soldier.

## Before rain negroes wrecked the windows of a shoe store in East 35th street, owned by a white man, and carried away a quantity of shoes.

With the coming of daylight it was discovered that rioters in a number of streets on the South Side had stretched steel cables across the pavements with the evident intention of preventing the fire department from answering alarms and perhaps wrecking the apparatus. There were a number of fires in houses occupied by negroes during the early morning hours. The police believe they were started by white platers.

## DECKER RELEASED

PATRICKSON, N. J., July 31.—Lester Decker, who had been held pending investigation into the death of his 20-year-old fiancée, Miss Nabel Harris, whose body was recovered from the Ramapo river, was released today. County Prosecutor Dunn reported that an autopsy showed that the girl had met death by drowning and that there were no marks of violence.

## Thin People Need Bitro-Phosphate

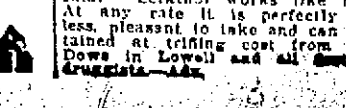

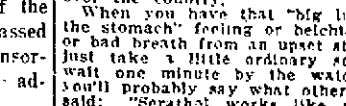

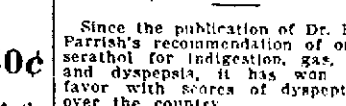

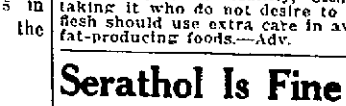

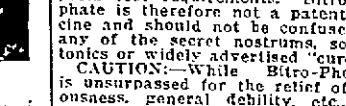

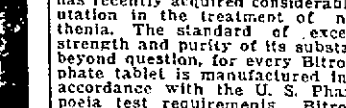

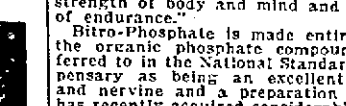

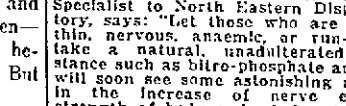

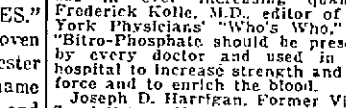

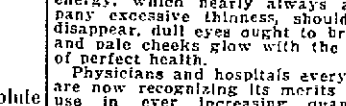

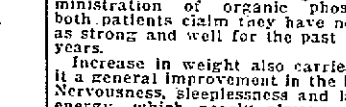

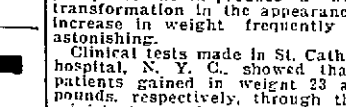

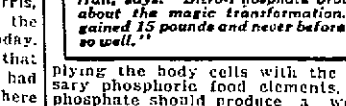

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances

Take plain bitro-phosphate is the advice of these physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by A. W. Dows in Lowell and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by sup-

"Georgia Hamilton, the wonderful 'movie' girl, who was once thin and frail, says 'Bitro-Phosphate brought about the magic transformation, gained 15 pounds and never before felt so well.'"

## GRAND CIRCUIT RACES

Wilkes Brewer Creates a  
World's Record in Sixth  
Heat of 2.06 Trot

COLUMBUS, O., July 31.—A race program, in which some very warm finishes, other quite startling upsets of form and one world's record was produced, highly entertained 7000 Grand Circuit spectators here yesterday. The world's record was taken by Wilkes Brewer when he defeated Royal Mac in the deciding heat of the 2.06 trot, of which five heats were completed on Tuesday. In the time of 2.05 1/2, a new record for the mare and also the fastest sixth heat ever trotted in a race. The former record was held by Esperanza at 2.06 1/2 at Toledo in 1915.

Royal Mac was favored yesterday to defeat the mare in the final heat, but the aged trotter, after a game effort, fired a few hundred feet from the wire and was defeated by two lengths. Walter Cox sent Mignola over a straight-heat winner in the 2.05 trot. The Hotel Southern, purse \$3000. He was not annoyed at any time. Allie Fox won second money, although Petrex finished a good second in the final heat for Murphy.

The 2.05 pace was just as easy for Roy Gratten, the Canadian gelding, Alexander the Great finished in second money. Highland, 2.03 1/2, and Antie Guy, 2.03 1/2, made their first big line appearance yesterday afternoon in the 2.04 trot, with Esperanza as the third horse in the field. Because of the injury to Frank Heirick, Ed Geers was asked to take the mount behind the 1915 Transylvania winner, and the result was three losing heats for the Ohio stallion.

Antie Guy won each time, trotting the last two miles in 2.01 1/2. The 2.13 pace was a split heat affair in which the judges had a hard time to declare the winner. They were hoisted when Jack Keith was given the decision over Gray Hal in the second mile, which was nearly a dead heat. When the double heat winners came out in the fifth mile, Lady Wreath laid back and tried to outbrush Valentine's pacer in the last quarter. The result was a quarter in 29 1/2 seconds, in which Jack Keith had just enough to spare to win.

Symbol Baxon, a pacer with a record of 2.06 1/2, and owned by Chauncey R. Sears of Fall River, Mass., fell dead on the track yesterday while Dick McMahon was giving him a workout.

Our Mexican policy is the theory that a burglar should not be arrested or interfered with while he is having family trouble.

## MOY AND CLINTON MEET HERE TOMORROW NIGHT

The Crescent A. A. will stage a classifying attraction tomorrow night at the third street rink, when Eddie Moy of Allentown, Pa., and Johnny Clinton of New York, two of the leading light-weight battlers of the east, will meet in the main heat of 12 rounds. There is great interest in the bout, not only in Lowell, but in Boston and surrounding towns. The pair battled through 12 rounds in action this season, a short time ago, and fans who saw the mill aver that it was one of the classiest of the season. Both men have trained diligently for the bout, and their managers announce that they are in the pink of condition. Jimmy Gardner, the "pride of Lowell," will be the third man in the line. Matty Carney will officiate in the other bouts, which will include two eight-round numbers and one six-round bout. One of the most promising boxers seen in action this season, will meet Willie Green of Boston in one of the eight-round events. Charlie Collins, the Boston southpaw, will perform in the other. Jim Demas, of the Hellenic club and Young Corry, of the B. & M. car shops will entertain in the opening number.

## Kloby vs. Donovan

Young Kloby, the famous K. O. king of the Yankee Division, who has set up a wonderful record since returning to this country, will meet Johnny Donovan of Boston in the main bout of 12 rounds at the Lawrence hall park on Saturday afternoon. There is much interest in this set-to, for the pair met a short time ago in Boston and while Kloby won, up until he put over his famous sleep producer, Donovan had the advantage. Donovan claims that he gave away too much weight to Kloby in that battle, and as he has added several pounds he will be in better condition for the coming mill. Friends of both men are confident of victory and are ready to back their favorite to the limit. There will be three other good bouts. Local fans may secure tickets at Bob Carr's, Central street. Social cars will run from Lowell for the fight.

## CHAMPIONSHIP TENNIS

NEWTON, July 31.—Championship tennis was expected at the Longwood "cricket club when William M. Johnston of San Francisco met K. Norris Williams, former national champion. In the challenge round for the long-wood bowl trophy in 1916, had two more losses to win in order to gain permanent possession. Williams won the right to challenge by defeating Richard Hart in the tournament finals yesterday. Both players specialize on a close to the net game.

## GET \$40,000 FOR MAYS

Three Yankee Players Thrown in—Scott Perry May Come to Boston

BOSTON, July 31.—The trade by which Carl Mays, a pitcher of the Boston Americans, was transferred to the New York Highlanders took rank today among the biggest transactions financially, in the history of baseball. An official of the Red Sox stated that the Boston club received \$40,000 in cash for Mays, in addition to Pitchers Alvin Russell and Robert McGraw and a third player to be chosen later. An estimate of the trading value of the three latter players placed the amount in excess of \$15,000. It was understood that Derrill Pratt, second baseman of the New York team, was the most likely choice of the Boston club among six players available. With this choice exercised, the Red Sox management is expected to consummate a deal now pending which has as its object the acquisition by Boston of Scott Perry, pitcher of the Philadelphia Athletics. Boston probably will offer Pratt and another player, with \$15,000 for Perry, it is said.

## PRES. JOHNSON SUSPENDS PITCHER

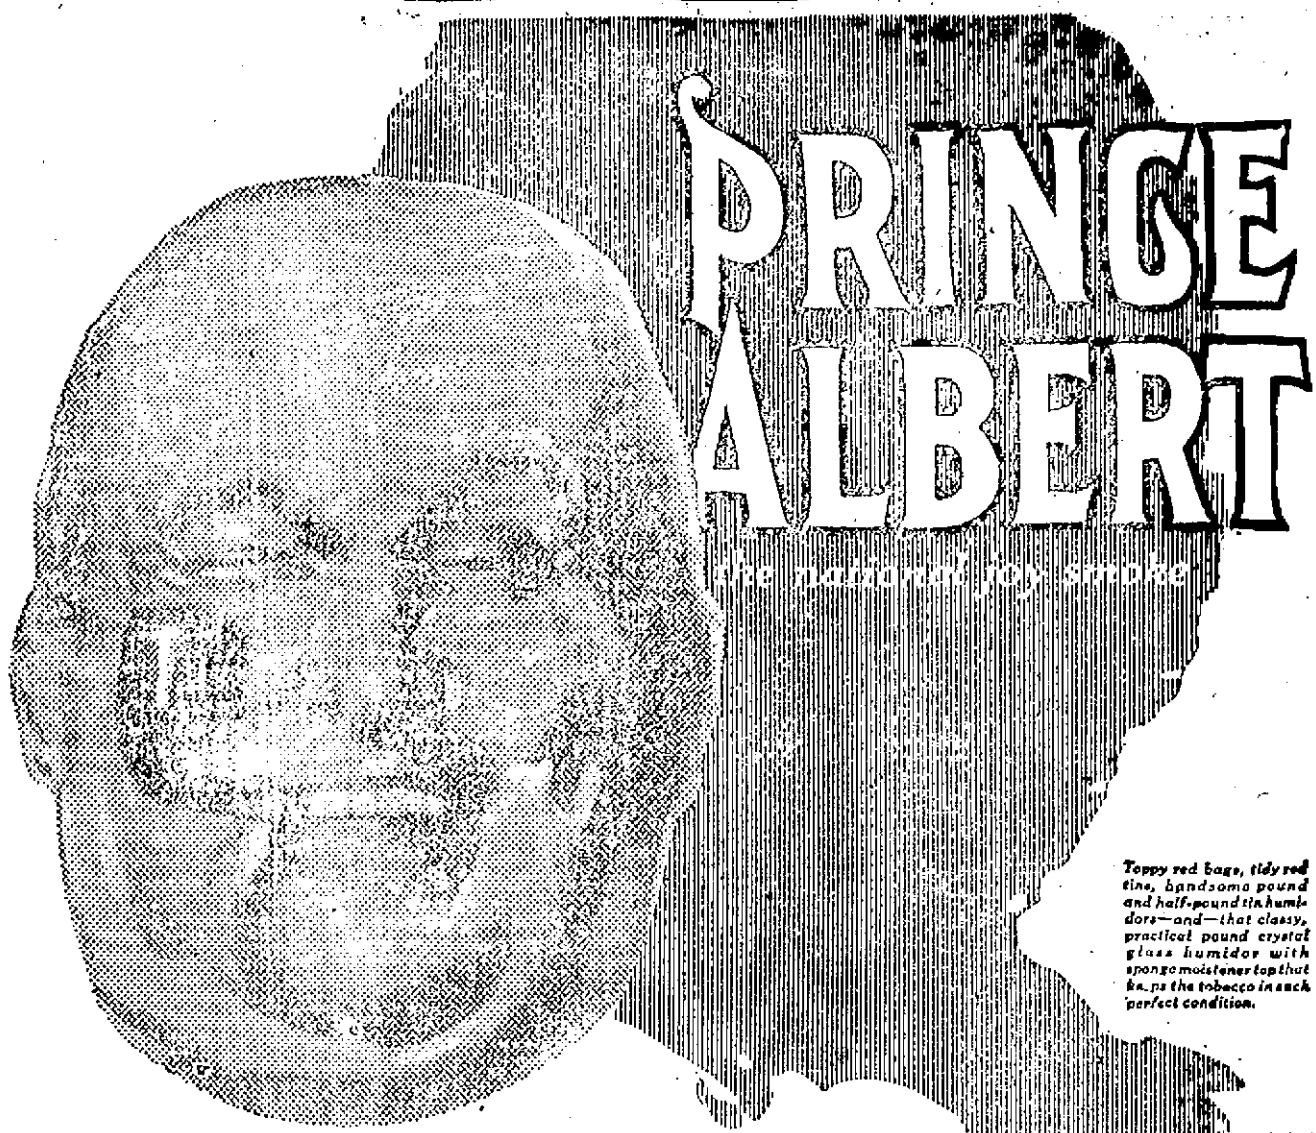

CARL MAYS—TRADE IS BLOCKED

CHICAGO, July 31.—Carl Mays, who was traded yesterday by the Boston Americans to the New York Yankees, has been suspended indefinitely by E. H. Johnson, president of the American League, as the result of his desertion of the Boston club in Chicago, July 13. Mays had a three-year contract with Boston, and when he left the club, he broke this contract, Johnson declared.

If you wish to know whether stock in an all well or a mine is worth the paper it is printed on, observe whether it is offered to bankers or laboring men.

## The Call'em

Although it would have pleased many new and old players, too, if Carl Mays had been placed in exile for the remainder of the season as punishment for desertion while under fire, nevertheless, there cannot be any great amount of criticism over the decision which takes him to the Yankees in exchange for Russell and McGraw and a good sized chunk of cash. The American League never would have been able to live down its reputation of unfair dealing if Mays had been allowed to go to the White Sox, no matter what the price. The Yankees are willing to play. The Yankees are slumping and are not seriously feared as pennant contenders and it is not generally thought that Mays will supply the necessary winning punch. Of the capabilities of Pitchers Russell and McGraw, little has been said, but at least they will be of some use and Blomde Carl certainly was not.

## Only Ten More

With Seybold's American League home run record in his hip pocket Babe Ruth now sets sail over the trail blazed long years ago by Buck Freeman. To equal Buck's mark the Boston battering ram needs to pole nine more circuit smashes between now and October, or ten more to create a new world's record. He is sure to hang up an American League mark which will stand for seasons to come and many people firmly believe he will eclipse the greatest slugging record of all time.

## What's a Kidney or Two?

One of the most sensational "come-backs" unfolded in the big leagues some time is that of Carl Wehman, tall southpaw of the Browns. Two years ago when the left-hander underwent a major operation resulting in the removal of one of his kidneys, it was believed his baseball career was ended.

but today finds him pitching as good ball as he did in 1916, when he ranked with the best southpaws in the American League.

## A Handy Pair

No two players on any club in either major league are heining their team more this year than Ty Cobb and Bobby Veach of the Detroit Tigers. They are hitting better than ever and with Flanagan to help out a bit now and then, constitute a terrible pair.

## A Couple of Perils

Japanese domination of the United States tennis championships and the peninsula of Shantung are two menaces that are interesting the American public. The tennis peril, as embodied in the person of the diminutive Ichiji Kumagae, is not unfavorably exciting Yankeeedom, which has placidly taken the little Oriental to its bosom and made him feel entirely at home. The United States ranking committee gave him a place in its ratings, although he had not taken out citizenship papers. Kumagae was ranked fifth in the United States in 1916. Last year he tried to adapt his game to American theories and failed, playing an inferior game. At reports that Jones had been he has gone back to his old specialty of back-court play, improved, and has thus far swept through his opposition amazingly.

## AMATEUR BASEBALL

The Bellevues and Matthews will clash on the South common Saturday afternoon at three o'clock and as both teams are in the running for the city championship some classy baseball is sure to materialize before the issue is decided. Both teams have been constantly strengthened throughout the season and the rival managers are well satisfied with their respective lineups, which will be announced later.

## AMERICAN SPORTS TAKE 16 JAPANESE KILLED AND 18 WOUNDED

PARIS, July 25. (By mail).—American baseball, basketball and army mass games have been played for the first time in Africa at Tunis and Algiers this year and have been adopted enthusiastically for Yankee athletics was carried to the French colonies in Africa by the returning colonial soldiery who learned the games in France under instruction of Y.M.C.A. athletic directors with the Foyer des Soldats. When the colonials were returned to Africa the French war ministry asked the Y.M.C.A. to send to Tunis and Algiers four athletic directors for permanent work at the army posts there. This being impossible, the Y.M.C.A. sent three, a Harvard athlete and professional coach in athletics at Worcester academy, to spend six weeks in each of the two African cities to train teachers in baseball, mass games and basketball. Jones had been teaching at the French army center of physical instruction at Joinville, near Paris, and at Algiers found a number of "moniteurs" as the French call their army athletic instructors, whom he had trained in American games at Joinville. They were already playing our games. Secretary Jones came in six weeks at each army post to organize the sports on a permanent basis, commence a baseball series, basketball tournaments and programs of mass games.

The Arabs were intensely interested, the colonials enthusiastic, and the French army officers and soldiers delighted with the new method of play. The sporting instinct in their natures responded to the call of the bat and the ball. It is to be hoped that the Y.M.C.A. is to be heard of in Africa to stay, so the French officers say.

## FISH AND GAME CLUB PLAN BIG OUTING

The executive committee of the Lowell Fish and Game association held a meeting last evening and transacted considerable business, the most important of which was the voting in of 15 new members and the appointing of a committee of twelve to act in conjunction with the executive committee in arranging for the annual outing to be held at Willow Dale in September. William Purcell was elected chairman of the committee and the outing given more of being the first in the history of this rather young but active and progressive association. The speakers at the outing dinner will include the governor or his representative, the mayor and other well known men, including Congressman Rogers who is an enthusiastic member of the association and one who has done a great deal to assist in the work to which the association is devoted, that of restocking streams and covers, enforcing fish and game laws and protecting migratory birds, etc. It is to be hoped that the fishways will have been installed in this city and in Lawrence before the date of the outing and dinner in order that the outing may serve the history of the occasion. The big feature of the affair will constitute a "welcome home" to the many members who served in the world war. It is up to the state fish and game commission to complete the fishways before the date of the outing in order that the celebration may be complete.

## FREIGHT STEAMER RAN AGROUND

BOSTON, July 31.—The freight steamer Lake Olga, bound from South American ports, ran ashore on Cross Blk shoals in Vineyard sound late last night and refloated without assistance early this morning. The cutter Ossipee had been ordered to assist the stranded ship but was recalled.

TOKIO, Monday, July 28.—(By the Associated Press).—A second official statement on the incident at Kwang-Chang-Tau places the Japanese losses at 16 officers and men killed and 18 others wounded. (No previous report of the incident has been received. The place mentioned presumably is Kwan-Chang-Tau, about 100 miles west of Kiern in Manchuria.)

## NO REFERENDUM VOTE ON PROHIBITION

LANSING, Mich., July 31.—A referendum vote on ratification of the federal prohibition amendment cannot lawfully be held in Michigan, Attorney General Goessbeck has ruled in advising the secretary of state not to accept inflammatory petitions to that end filed by the State Hotelmen's association.

When James P. Rock of Central Village, Conn., went to his barn to get his horse he found the stall empty. And eventually found the horse in a dark corner of the hayloft, reached only by a steep flight of stairs. To get him down he had to cut a hole in the side of the barn and lower the horse with a tackle.

## FLY TIME

Help your stock to live more comfortable during the hot weather. Your horses will do more work and your cows will give more milk if protected from flies, by the use of a good FLY SPRAY that will not burn the flesh or mat the hair.

## NATIONAL ADVERTISING

Advertised goods are usually more reliable and as a rule the values are better than goods not advertised. Part of the system of carrying on a campaign of advertising an article that is to be pushed, is included in the benefit it is expected may accrue by creating good will and a good reputation for the article.

This is equally true in local or "nationally advertised" merchandise. "Well" advertised merchandise is usually worth while in every respect. Its advertising campaign is a benefit to every merchant who carries a stock of the article advertised. The experience of most advertising men shows that when the shopper is "impulsed" to go to a certain store to buy an article advertised in such a campaign, the chances are more than even that he will buy other things at the same time.

The national advertisers pick the "live one" in every city and this is one of the reasons you find them selecting

## THE SUN

Lowell's Greatest Newspaper

### FIRST STREET DISGRACE

Early this summer, when it seemed probable that the work of diverting First street to make it a part of the Lowell-Lawrence state highway would be started within a short time, or at least, when it became known that the proposed plans were acceptable to all parties concerned, an agitation so to construct the new road as not to interfere with the First street dump, so-called, received general notice. It was the belief of many people that the city might well take over that plot of made land on the river bank and create an athletic field and recreation park thereon. The idea received very general approval but the state highway commission pronounced the idea impracticable from the standpoint of the construction of the road and it gradually passed out of the public mind.

After several months of inactivity, now comes the statement from the city engineer and a representative of the engineering force of the highway commission that they do not believe the work will be started this year. The old roadway remains as bad as ever and we have no centrally located recreation field. We believe that the entire blame should be laid at the now closed door of the highway commission. It fears a loss of individuality which may come through a proposed merger of several state organizations, including the highway, rivers and harbors and Metropolitan park commissions and, therefore, much prefers to "pass the buck" rather than to do any work for which it may not receive full credit.

The question now arises as to what our city officials can do about it.

County Commissioner Barlow took pains to see that the county provided an appropriation to meet its quota of the expense and the city of Lowell did likewise, but the state highway commission that under the usual arrangement was to do the work has flunked. Is there any remedy or any way by which the work so greatly needed may be started so that our city may be relieved of the disgrace of that rough and dangerous section of highway on First street?

Verily somebody at city hall if not the board of trade and citizens in general, should register a vigorous kick against this delay on starting work on the First street boulevard.

### RAILROAD CROSSINGS

Way back in 1913 a Massachusetts court submitted a finding that public convenience and necessity required the abolishment of the Middlesex street, Western avenue and Fletcher street grade crossings at Lowell, but that the financial condition of the Boston & Maine railroad at that time would not permit of such an expenditure of money and therefore, action would be held in abeyance until such a time as the company was financially strong enough to undertake the work. That was six years ago, but from that day to this not a single constructive step has been taken.

The finding of the court substantiated the outlined plans of the city of Lowell, which at first only embraced the abolishment of the Middlesex street crossing, but which later were developed to include the Western avenue and Fletcher street grades.

Presumably the six years which have elapsed have not been sufficient to allow the railroad to replenish its depleted treasury and possibly Lowell may expect some action when in the mind of the road the resources warrant it, but we seriously doubt if the corporation will act on its own initiative. It will submit to considerable prodding before it takes up this work and

such prodding may as well start now if we of the present generation desire to see these grade crossings abolished.

When the project first was brought forward the estimated cost to the railroad was in the neighborhood of \$800,000, but this sum in the six years which have elapsed has shrunk perceptibly in purchasing power, and it is safe to say that if the crossings were to be done away with today, according to the present plans, the expenditure would be well in excess of a million dollars. This consideration will stand as an obstacle to early action in the undertaking.

### FOR CHEAPER FOOD

It has seemed to us that a suggestion contained in the Daily News Record of New York, concerning a very great trouble we are experiencing in this country at the present time, is very much worth while.

Referring to the oppression of the high cost of living the Record has said: "The root of the trouble is not the government guarantee of \$2.20 a bushel for this year's wheat crop, but the fact that the government will not allow wheat to be sold at a low price. The farmer will get his \$2.20 but for some reason the government will not let the people have cheap wheat and charge the difference to the cost of the war. If wheat were \$1.26 a bushel down would come the price of corn, the price of meat, poultry, butter and eggs, every one a staple article eaten by the masses. It is the artificial price of wheat that keeps an artificial price on corn and other grains and in a measure also on beef, pork, poultry and eggs."

The Record says:

"It seems to be a penny wise and pound foolish policy this apparent determination that the great guarantee to the farmer shall not take money out of the United States treasury. No account whatever is taken of the billions of dollars that our people have to pay for their food in excess of what they should pay, and in excess of what they would pay if wheat price was reduced and the government loss taken, and charged off to the war."

"Perhaps some cabinet officer, says Secretary Lane, who has shown extraordinary common sense in what he has said and what he has done, might bring before congress in his convincing way the good which would come, and so compel the passage of a bill which would do more for all of the American people than any other which could be devised."

The problem of the man in the street today is how to feed, clothe and house his children when the cost of living threatens to go so far ahead of what he can earn. The suggestion of the New York paper seems reasonable, but apparently such sentiments do not prevail in congress.

### RACE RIOTS

It is most regrettable to find race riots raging with such fury in Chicago following the outbreaks at Washington. The negro race in the recent war performed its duty fully as well as any other class of citizens and Chicago is the last place that should assail any class as undesirable. The negroes are here and have a right to live here. The nation poured out its blood in the Civil war to free them from slavery and it is not to our credit as a nation today to find the negroes abused in any of our large cities or anywhere else within the boundaries of the nation. What we should do is to help the negro to a higher plane of intelligence and better citizenship. We do not believe, however, that the negroes have been responsible for the recent outbreaks of racial hatred. The government should stamp out race riots wherever they appear as it is decidedly dangerous to permit

them to spread. Already they stand as a disgrace to the nation and steps should be taken not to permit such a calamitous state of affairs as reported from Chicago to exist anywhere in this country.

That there should be such a formidable list of wounded and killed is not creditable to the Chicago authorities. The state troops should be allowed to make up the shortcomings of the police department, but apparently although in the city the troops were held in barracks during the time the worst of the riots were in progress.

Principal John J. Mahoney of the local State Normal school is recognized throughout the country as a leading authority on the best methods of Americanization not only through the schools but through social and industrial agencies. It is gratifying, therefore, to those who have known his ability in this line and who have read his book on Americanization to learn that he has been engaged by the Massachusetts chamber of commerce as one of the leaders in this important work in Massachusetts. Mr. Mahoney is at present giving a series of lectures before the summer school at Harvard for the benefit of teachers and organizers in Americanization work. His new duties will occupy most of his time for the coming year so that it may be necessary for him to obtain a leave of absence as principal of the Normal school.

We note that the situation regarding alleged cruel and inhuman treatment of American boys under punishment in the American army's prison camps in France, has switched around now so that Lieut. "Hard Boiled" Smith says the original orders to torture prisoners came from Brig. Gen. William W. Harts, commander of American troops in the Paris district. Evidently nothing had hitherto been heard of Gen. Harts being out in the territory where a Boche bullet might accidentally interfere with the activity of his mind. If the charges made by Smith against General Harts be true, it is difficult to reconcile his conduct with the usual disciplinary methods of the American army.

Perhaps, as the New York shoe and leather merchants proclaim, the present soaring prices of leather indicate that in October a good pair of shoes will cost you \$30, but we refuse to subscribe to it. Moreover we have a hunch many New York toes may have intimate acquaintance with New York cobblers, if the \$30 price really appears.

We know of no finer thing bestowed on helpful but non-combatant individuals who had a share in the war, than the certificate which the war department announces it will award to employers who take back all their men returning from service and whose wording says the certificate is given for "decency and honor."

Harvard is asking her "grads" to chip in now and make it possible for more business and scholastic ability to be turned out, and by present accounts they show a good disposition to slip their alma mater that \$10,000,000 she says she has got to have.

There were all kinds of news in The Boston Globe yesterday, good, bad and indifferent, but for women folks perhaps, there was nothing more valuable than an item a reader contributed for the household page wherein she told how she had canned beans for three years and never lost a single jar.

It strikes us that the republic of France might have made the United States a somewhat more generous offer for the military property of the United States now in that country which consists variously of docks, railways and real estate. The French believe we should sell it to them for one-fifth of its cost.

The service men experience two Christmas holidays this year, the first of which may be said to be tomorrow when the state treasurer starts sending out the \$100 bonus checks, each one of which will without doubt be gladly and gratefully received.

Now they offer \$25,000 for Pancho Villa, dead or alive. Who would suppose a hundred and fifty pounds of yellow was worth so much?

We expect each day the kaiser's mind may approach a conclusion whereby he will at last realize he was not really a superman. He was just a superfluity.

Hard times in Massachusetts? No, not by a long shot. The record shows 150,000 new automobiles have been registered in this state since Jan. 1 and 1919 is only six months old.

## SEEN AND HEARD

Somebody who knows something about oiling streets may sometime meet somebody who has something to do with street oiling in Lowell and tell that somebody how to do it.

Bang! An automobile tire busted. The machine was standing at the curb and a nervous man standing on the sidewalk jumped through a plate glass window. Now it is up to the court to decide who shall pay for the window.

That poor boy of Henry Ford's, according to testimony at the Ford trial, was only receiving during war time the sum of \$75,000 per year. Must be hard to keep up appearances on such small pay.

When Jimmie Mercuryfoot's brother came home from the war and received his discharge at Camp Devens he blew into Jimmie's apartments. "Well, Jimmie, old top," said the returned brother, "how goes the battle?" Jimmie looked admiringly at the brother who had been over there and who had done his bit. "Oh, pretty good," said Jimmie, "but don't forget, brother, that all the battles of life are not fought with beating drums and booming cannon."

### The Nut Season

Getting sunburned is right stylish now. Nut season doesn't begin until fall. It takes that much longer for the tree species to tan. Scientists are tossing away a lot of good thought and time on other subjects, when they're straphanging right next to a popular problem. Why do folks willingly nominate themselves to get sunburned? They aren't satisfied with letting the sun skid along up in the sky, but invite it down on their necks, shoulders, and arms. Then once everything that comes in listening distance. They'll sentence themselves to a lot of sun paint punishment, lay low to enjoy the broil again, then steer themselves in sun focus again just to get smeared up in an enlarged freckle. After all, which side of the bars are the monkeys on?

### Such Is Life

The country folks spend their vacations running around crowded cities, and the city cousins forsake the comforts of the avenue mansion for the tumbledown "Boarders Taken In." Suburbanites hardly can wait of a Sunday morning to motor in to the city park for a day's restful recreation, and best way in they meet the city family hurrying out to the dustiness of a rural picnic ground.

John Blinks, who is married, wished he wasn't, and John Jinks, who isn't, is worrying the life out of his lady friends proposing to them.

Mother will scold her Willie all day long, but let Mrs. Next-door intimate Willie isn't quite the angel child he ought to be, and the fur does fly!

Most people would as soon witness a divorce proceeding as a wedding ceremony.

All the world loves a lover, but laughs behind his back.

We encourage matrimony and then turn the newlyweds over to the mercies of the landlord, the grocer and other high cost of living Robin Hoods.

We pick a shoveler because he knows how to shovel, but we choose a congressman because he can shake hands well.

We preach learning to our youngsters and then pay a baseball pitcher ten times the salary of a college professor.

And in Big Business "honesty is the best policy" unless you can get away with it.

We yell our heads off because milk is 15 cents a quart, and yet we'll hug the promoter who sells us a scrap calico of stock worth less than white paper.

We send men to congress who fill their collars with booze and deny the working man the privilege of getting a glass of beer.

We make it hardest for those who need food most to get it and pile it high on the plate of the sated stomach.

We're all so equal that we charge the 100-pounder no more than the 200-pounder when we carry him in the passenger car. Via freight it's different.

When a fellow refuses to agree with us, he's stubborn, but when he does, he has no mind of his own.

But such is life, and no doubt that is one of the reasons why life is such.

### Education

(Copyright, 1919, N.E.A.)

As far as Arnolds are concerned, perhaps, Ford's never learned. Which one was Ben and which was Mat, but some folks say that he's some sage in dealing on a living wage.

What history taught him that?

His information is so scant he runs the modern wonder plant. A thing the world has marvelled at. And yet he seems to have a plan of fair play to his fellowman.

What grammar taught him that?

And any dunce who's been to school. Or any educated fool. Can mix his dates and floor him flat. Can gibber at his foolish fan. That date is wrong and bloodshed's bad.

What Bible taught him that?

An ignorant idealist he. So he gives back to you and me His total profits of the war. So recant a profiteer. Can never lose, it's crystal clear. What education's for!

—Edward Vance Cooke.

## ONLY TREATMENT THAT GAVE RELIEF Suffered Three Years Before Finding "Fruit-a-lives"

CENTRAL WHARF, BOSTON, MASS.  
"For three years, I was troubled with Constipation, accompanied by Dizziness and Violent Headaches. I took medicines and laxatives, but without permanent relief."

Last October, I heard of "Fruit-a-lives" or **Fruit Liver Tablets**. I used one box and the results were so pronounced that I bought two dozen boxes.

I continued using "Fruit-a-lives" until the twenty four boxes were finished, when my physical condition was perfect."  
JAS. J. ROYALL.  
606 a box, 6 for \$2.00, trial size 25c.  
At dealers or from FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

## MAN ABOUT TOWN

Do all the city's ministers have a chance to enjoy a much longer vacation at the seashore or mountains than the average person in their flocks? I wouldn't say so. I had a talk with one clergyman this week and he said if it was necessary to make apology because at the time he did not look like a gentleman of the cloth, some pardon might be due him from the fact that during that forenoon, he had been very busy at his home putting up string beans—several cans of them—and he said rather proudly that he had raised them himself so that preserving them for next winter represented a very profitable operation in its entirety. I understand Lowell in fact has many parson gardeners whose gardens are a credit to them.

Teaching the vernacular to non-English speaking immigrants is regarded as one of the most important phases of Americanizing them and their children. In order that they may not be lost astray by bolshevism and other isms harmful to themselves and the country. As these alien students mingle with their American born neighbors and listen to their speech they must be somewhat puzzled at the difference in the language as used by these neighbors and that taught in the schools. The chief offenders against decent English are in two classes: the men ignorant of their own tongue who resort to profanity or vulgar slang, and the women who characterize everything as "swell," "great," "awful" and other superlatives, excellent in their proper place, but decidedly inelegant as used. It seems to me we can all do our bit for Uncle Sam by keeping a closer watch on our tongues as we go through the daily routine.

When the new homes of the Merrimack River bank and the Old Lowell bank are completed and ready for occupancy, they will artistically grace the streets upon which they front, but will look like two orchids in a cluster of dandelions. Possibly this added prominence gained through glaring comparison with nearby and adjoining buildings is what the bankers are seeking, but whether they seek it or not, they are going to get it, sure as shooting. Of course the more new and modern structures erected, the fewer grow the homely arks, but what we need is a wholesale investment in new real estate down town—buildings planned along 1015 lines, inside and out, rather than the old hitching post, watering trough type of our grandfathers. Some of the money heirs have obtained from rentals might well be put to civic use, and I would also heartily favor a city ordinance which would allow the city to seize an undesirable building, if it becomes generally known that the owners refuse to sell for a fair amount and thus block enterprising and progressive building operations. Lowell will never have a business section worthy of the city's population and area until some multi-millionaire, philanthropically inclined, comes along and buys the whole business.

## VOTE ON CHICAGO STRIKE

15,000 Carmen Will Ballot on Wage Scale Tomorrow—Strike on Since Tuesday

CHICAGO, July 31.—Fifteen thousand surface and elevated men on strike since last Tuesday morning, will ballot tomorrow on whether to accept the wage scale agreed upon last Monday by their representatives and those of the companies and rejected the same night at a mass meeting of 6000 carmen. This scale provided 65 cents an hour and overtime of time and a half. Union leaders claim it was rejected at a meeting that was not representative and was dominated by radicals.

If the strike is settled it is expected fares will be increased from five cents to seven on surface lines, with a one cent charge for transfers, and from six to eight cents on elevated lines.

## DIDN'T KNOW HIS BOSS

Guard Held up Sec. Glass When he Tried to Enter Treasury by Front Door

WASHINGTON, July 31.—Secretary Glass, departing from his usual custom of entering the treasury by a private entrance, walked up to the Fifteenth street door.  
"What do you want?" asked the guard.  
"I want to go into the treasury."  
"Do you work here?"  
"Yes, I'm secretary of the treasury."  
"What's your name, then?"  
An officer of the watch about that time rescued the head of the nation's financial system who later told the joke on himself.

## FRANCE NOT TO WAIT

Plan to Ratify Peace Treaty Before Aug. 20—Discussion Opens Aug. 10

PARIS, July 31.—(By the Associated Press)—It is expected in French circles that the discussion of the German peace treaty will open about August 10 in the chamber of deputies and will continue for three or four days. There will then be a three or four-day discussion in the senate.

The suggestion that the French would not consider the treaty until the United States had acted came from opponents of Premier Clemenceau. But it is generally believed that M. Clemenceau will be able to bring about a speedy consideration.

As Japan is supposed to have a copy of the treaty by this time, and the emperor's ratification is expected at an early date, French officials are of the opinion that the treaty will become effective when the French ratify, about August 20. England has already ratified the treaty, and the signatures of only three great powers are necessary to make it effective.

One o'clock on the afternoon of August 6 is the time fixed for termination of the Austrian delegation's communications concerning the peace treaty.

The Bulgarian peace treaty was taken up again yesterday by the supreme council. The Bulgarian delegation this afternoon sent its first note to the conference, insisting that Macedonia, Dobruja and Thrace must be given to Bulgaria.

### AMERICAN SAILOR KILLED

WASHINGTON, July 31.—Robert I. Simpson, Iowa Falls, Ia., was killed and another seaman injured in the explosion of a mine close aboard the mine sweeper Curlew in the North sea, the navy department was advised yesterday. Simpson was knocked overboard and his body was not recovered. The Curlew was damaged only slightly.

## New Hair Growth After BALDNESS

HAIR GROWN ON MR. BRITAIN'S BALD HEAD BY INDIANS' MYSTERIOUS HAIR GROWER

My head at the top and back was absolutely bald. The scalp was shiny. An expert said that as he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth. Yet now, at an age over 66, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures show here are my photographs.

### Indians' Secret of Hair Growth

At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian "medicine man" who had an elixir that he asserted would grow my hair. Although I had but little faith, I gave it a trial. From recent photo. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as profuse as in my youthful days.

I was astonished and happy in expressing my state of mind mildly. Obtaining the hair roots had not been dead, but were dormant in the scalp, awaiting the fertilizing potency of the mysterious pomade. I negotiated for this precious elixir, now called Kotalko, and later had the hair grown in its present form by a chemist.

That my own hair growth was permanent has been amply proved. Many men and women, who children, have reported satisfactory results from Kotalko.

### How YOU May Grow YOUR Hair

My hunch beller is that hair roots rarely die even when the hair falls out through dandruff, fever, excessive dizziness or other disorders. I have been told by experts that often when hair falls out the roots become imbedded within the scalp, covered by hard skin, so that they remain for a time like bulbs or seeds in a bottle which will grow when fertilized. Shampoo (which contain alkalis) and hair lotions (which contain alcohol) are enemies to the hair, as they dry it, making it brittle. Kotalko contains the elements of nature which give new vitality to the scalp and hair.

### PROVE FOR YOURSELF

Get a box of the genuine Kotalko at a reliable druggist's. \$2.00 GUARANTEED with each box. A small testing box of Kotalko (with testimonials, etc.) may be obtained by sending ten cents, silver or stamp, to my address below.

JOHN HART BRITAIN, 88-1193 Station F, New York City

### Almost the sole source from which sweet, UNSALTED BUTTER may be obtained in Lowell is

directly from, or some food store

here, which is supplied by the

## Gordon Dairy Company

It goes without saying that this butter, made from cream actually produced at dairies within a FEW MILES OF LOWELL, is the best and purest of its kind being sold in this city. Both for its salted and unsalted butter. The GORDON DAIRY COMPANY is making and distributing the best quality of butter obtainable here, with the added distinction that its creamery in Worthen street is the ONLY PLACE in the CITY where you can go and have your butter put up for you TAKEN DIRECTLY from the CHURN.

We are also manufacturing DUTCH CHEESE "made as your mother used to make it," LIGHT and HEAVY CREAM, and sell BUTTERMILK, SWEET and SKIMMED MILK. The stores selling our goods can help you in your food problem by selling you pure, nutritious food at reasonable prices.

## ARRESTED FOR MURDER

Ten Persons, Including Russian General, a Colonel and Several Women Held

LONDON, July 31.—Ten persons, including a Russian general and a colonel and several women have been arrested in connection with the death of Nikolai Ardashev, a prominent member of the Russian colony in Stockholm, says a message to the Exchange Telegraph Co. from Stockholm.

Ardashev is declared to have had close connections with the Bolsheviks and the Stockholm message says he probably was killed by supporters of the old regime. He was court-martialed at a villa outside of Stockholm, hanged and thrown into the sea.

Destroyers' crews have been depleted to such an extent by the discharge of men enlisted for the duration of the war and the reversion to inactive status of naval reserves, together with the month's furloughs granted to men re-enlisting that some crews are on a skeleton basis. One destroyer has but 45 men aboard. The condition is such that Captain Harris Lanning, chief of staff to Rear Admiral Charles P. Plunkett, commander of the destroyer force, has gone to Washington to press the urgency of the need of an increased enlisted personnel.

Harbor drills and instruction aboard the destroyers are being carried on but maneuvers at sea and full power tests cannot be held for a month or more. As a result it is expected the destroyer force will maintain its base in these waters until late in September.

## PAWTUCKETVILLE IS KEEN ON CELEBRATION

A meeting of the residents of Pawtucketville interested in the welcome home celebration to be given the French-speaking soldiers and sailors of this city Labor day, was held last evening in the rooms of the Pawtucketville Social club in Moody street.

Chairman Joseph Sawyer occupied the chair and considerable business was transacted. The various committees reported favorably, particularly the committee in charge of the cavalcade, which reported that no less than 25 names have been secured for that division of the parade. It was announced that the district would furnish a float for the parade, the subject to be, Foch signing the armistice at Spa. There was great enthusiasm at the meeting and all indications point to a big celebration for Labor day.

Keep in touch with local events by having The Sun mailed to you while on your vacation.

## He Quit Tobacco

This veteran, S. D. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit but needed something to help him.

He learned of a free book that told about tobacco habit and how to conquer it quickly, easily and safely. In a letter he writes: "I have no desire for tobacco any more. I feel like a new man." Locations of others report similarly. Write for cigarette and pipe habit, and chewing.

Anyone desiring a copy of this inspiring book can get it free, postpaid, by writing to Edward J. Woods, TD-31, Station F, New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself with nicotine. In three days you can be rid of the addiction—then become robust, acquire healthy flesh, and add years to your life. Show others this ad.

MANY WANT TO BE  
MAINE'S GOVERNOR

AUGUSTA, Me., July 31.—Indications are that the republican primary for governor will equal that of 1916 in point of number of starters and that the list will contain quite a few of those who battled for the nomination that year. At this time there are but two announced candidates, Col. Frederic H. Parkhurst of Bangor and John P. Deering of Saco.

Bangor it is said will have a second candidate in Taber D. Bailey, who was speaker of the senate in 1917.

It is believed the announcement of Mr. Bailey's candidacy will be the signal for a number of others to get into the field. They will include Frank G. Farrington of this city, who was speaker of the house last winter, Leon F. Higgins of Bangor, president of the senate of the last legislature, and Dr. Alexander C. Haggerty of Ellsworth, who is one of the record makers of the nation. This will give a field of six starters against seven in 1916. Of the six, Parkhurst and Haggerty were candidates 3 years ago, although Dr. Haggerty withdrew before the primary election. Col. Parkhurst ran next to Gov. Milliken for the nomination.

In political circles there is a strong belief that the contest for a third term, something which has never been done since Maine adopted biennial elections. It is known the governor has been urged in many quarters to enter the contest.

For some time before the Yankee division returned from France and since then there has been a strong sentiment that Col. Frank M. Hume, commander of the 103rd Infantry of that division, be nominated for governor by the republicans. The color has been interwoven, but has so far refrained from giving a definite reply. It is said that if he will agree to run all the candidates will withdraw.

Recently there has been a persistent rumor that Col. Hume is to be made governor of the National Soldiers' home at Togus. The salary as head of the home is not quite that of the governor, but the position is more permanent and the expenses are much less.

MANY WANT TO BE  
MAINE'S GOVERNOR

AUGUSTA, Me., July 31.—Indications are that the republican primary for governor will equal that of 1916 in point of number of starters and that the list will contain quite a few of those who battled for the nomination that year. At this time there are but two announced candidates, Col. Frederic H. Parkhurst of Bangor and John P. Deering of Saco.

Bangor it is said will have a second candidate in Taber D. Bailey, who was speaker of the senate in 1917.

It is believed the announcement of Mr. Bailey's candidacy will be the signal for a number of others to get into the field. They will include Frank G. Farrington of this city, who was speaker of the house last winter, Leon F. Higgins of Bangor, president of the senate of the last legislature, and Dr. Alexander C. Haggerty of Ellsworth, who is one of the record makers of the nation. This will give a field of six starters against seven in 1916. Of the six, Parkhurst and Haggerty were candidates 3 years ago, although Dr. Haggerty withdrew before the primary election. Col. Parkhurst ran next to Gov. Milliken for the nomination.

In political circles there is a strong belief that the contest for a third term, something which has never been done since Maine adopted biennial elections. It is known the governor has been urged in many quarters to enter the contest.

For some time before the Yankee division returned from France and since then there has been a strong sentiment that Col. Frank M. Hume, commander of the 103rd Infantry of that division, be nominated for governor by the republicans. The color has been interwoven, but has so far refrained from giving a definite reply. It is said that if he will agree to run all the candidates will withdraw.

Recently there has been a persistent rumor that Col. Hume is to be made governor of the National Soldiers' home at Togus. The salary as head of the home is not quite that of the governor, but the position is more permanent and the expenses are much less.

# DEFENDS "HARD-BOILED" SMITH

## Col. Grinstead Says Army Desertions Necessitated Drastic Action

### Declares Thousands of Men Ran Away From Front Lines During Battle

PHOENIX, Ariz., July 31.—Further defense of Lieut. Frank H. (Hard-boiled) Smith in his conduct of prison farm No. 2 and assertions that large numbers of American army desertions necessitated drastic action, were contained in a formal statement made public today by Col. Edgar P. Grinstead, mentioned in testimony Tuesday before the congressional committee in New York as one of the men responsible for prison cruelties.

Col. Grinstead said: "Everybody that was a soldier in France knew that thousands of our men were running away from the front lines and that had the war continued, many executions would have been necessary before these desertions could have been stopped."

### Says Smith Did Duty

"He characterized as 'absurd' intimations that he had made a scapegoat of Lieut. Smith. 'I don't believe and never did believe, that Lieut. Smith did anything, but his duty at farm No. 2,' he said."

# CHILD SAVED FROM WORMS

A mother of six children writes: "My baby was very sick and a friend of mine suggested trying Dr. True's Worm Elixir. Now I have six children and am never without Dr. True's Elixir, the Family Laxative and Worm Expeller in my house." Mrs. B. N. Gile, West Newbury, Mass.

Signs of worms are: Deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short, dry cough, grinding of the teeth, little red spots sticking out on tongue, starting during sleep, slow fever. If your child shows any of these symptoms, start giving Dr. True's Elixir at once.

—Adv.

# To Urge Bela Kun to Quit

BASLE, July 31.—General Boehm, Hungarian soviet minister of war, has left Vienna for Budapest to urge Bela Kun to retire voluntarily according to Vienna despatches received here today quoting the Neisse Wiener Tageblatt.

# Peace as Soon as France Ratifies

PARIS, July 31.—The French cabinet approved today the proposal that peace should be considered to exist officially from the date of publication in the Official Journal of ratification of the German treaty by the chamber of deputies. It was decided that the ratification of the German treaty should be considered to mark a state of peace without awaiting the completion of treaties with other powers still at war with France.

# THE ELECTRIC FIRELESS COOKER

MAKES

## A COOL COOK A COOL KITCHEN

Do your-cooking in a cool kitchen this summer with an Electric Fireless Cooker.

You will find you can cook even more successfully in this appliance than by the ordinary method. It will save you fuel, time, work, worry and grocery and meat bills.

Connects to the ordinary electric socket and costs no more to operate while cooking than the regular size house lighting bulb. Comes supplied with clock which automatically shuts off the current. Come in and see it.

Reasonable in Price Economical in Operation Sold on Easy Payments

A large assortment of unclaimed goods from the freight storage, to be offered at public auction. Goods consist of a lot of hardware, dry goods, men's rubber boots and a lot of rubber coats.

JOSEPH KELLEY, Auctioneer

## DEATHS

OSGOOD—George G. Osgood, formerly of this city, but for some years a resident of Manchester, N. H., died at the Pembroke hospital. He was for several years a foreman in the Amoskeag Mills. While here he was prominent in Y.M.C.A. work. He leaves three daughters.

HOY—Irene V., aged 8 months and 3 days, infant daughter of Edmund L. and Christina (Planagan) Hoy, died today at the home of her parents, 111 High street.

THERRIAULT—J. Arthur, aged 1 year and 23 days, infant son of Edward L. and Adele Therrault, died today at the home of his parents, 3 Hancock avenue.

TYMOWICZ—Wladyslaw, aged 16 months and 23 days, infant son of Mr. and Mrs. Wladyslaw Tymowicz, died today at the home of his parents, 693 Market street.

FLANN—John Flynn, an old and esteemed resident of Westford and a devout attendant of St. John's church, North Chelmsford, died this morning at his home in Brookside, Westford, aged 72 years, 1 month and 5 days. He leaves four sons, William J., Bernard J., Thomas E. and John L.; one daughter, Mrs. James J. Savage, and one brother, Patrick Flynn.

## FUNERALS

THOMASSON—The funeral of Anders Thomasson took place yesterday afternoon from his home, 452 Westford street. Public funeral services were held at the Swedish Lutheran church in Meadowcroft street and were largely attended by relatives and friends. The Rev. J. B. Nordgren, pastor of the church, officiated. There was singing by a mixed quartet composed of Mr. and Mrs. Frank Lindquist, Miss Florence Gillingham and Olaf A. Bernson, who sang "Rock of Ages" and "Nearer, My God, to Thee." There were many beautiful floral tributes. The bearers were: Victor John, John Mouson, Ernest Lundgren, John C. Caster and Carl G. Pihl. Burial took place in the family lot in the Woodlawn cemetery. The committal service was read by Rev. Mr. Nordgren. The burial service of the Swedish Mutual Aid society was exemplified by its president, Edward Wikstrom. The funeral arrangements were in charge of Carl G. Pihl, under the direction of Undertaker William H. Saunders.

## FUNERAL NOTICES

FLANN—The funeral of John Flynn will take place Saturday morning from his home, Brookside, Westford. A funeral mass will be sung at St. John's church, North Chelmsford, the hour to be announced later. Burial in St. Patrick's cemetery, Lowell, in charge of Undertakers James P. O'Donnell & Sons.

HUBBARD—Died July 30th, in Boston, Mass., George L. Hubbard, aged 65 years, 1 month and 11 days, at the Massachusetts General hospital. Funeral services will be held at his late residence, 55 Fifth street, this city, Friday afternoon at 2 o'clock. Friends are invited without further notice. Burial private. Automobile cortege. The funeral arrangements are in charge of Undertaker George W. Henley.

Robert E. Terrill of Lanesburg, Ind., took a large amount of honey from his beehives and put it in a storehouse. A few days later it had disappeared, and Terrill found that bees had carried off all the honey, having gained entrance to the storehouse through a keyhole.

## SEC. JOHN T. SPARKS AIMS AT COLBURN'S JOB

Trouble Looms for Autoists Who Judge Parking Area Signs are for Fun

Although signs in abundance relative to the length autos may be parked in the restricted areas along Prescott street and Merrimack, between the square and the spur track of the Massachusetts Co., can be plainly seen, autoists continue to give the traffic policemen considerable trouble.

Within a distance of 75 feet from either end of Prescott street, there shall be no parking whatsoever, the traffic rules say and between these inner boundaries of the restricted sections, a 5-minute rule is set. It is the violation of this latter regulation which oftentimes causes a traffic jam and which might be easily obviated if motor car drivers sensibly conformed to the law.

The traffic policemen at Central and Market streets and in the square are doing everything possible to enforce these regulations, but with the busy jobs on their hands at their respective posts, it is sometimes impossible to keep narrow Prescott street so that traffic may proceed freely and smoothly.

At the present time the right hand side of East Merrimack street between the square and the railroad track cannot be used as a parking area and drivers generally respect the signs placed there. The opposite side, however, has not been closed as yet, but is the next proposed step and will come shortly.

There is no section in the traffic regulations published by the city which deals with an autoist swinging around a street car on the off side, thus riding head-on into the lane used by traffic going in the opposite direction, but it is the general opinion that such a regulation will have to be created and strictly enforced. It is the custom now in hundreds of instances, off the downtown thoroughfares, for drivers to swing out around a stopped electric car, rather than to slow up and even stop, until passengers have been left or taken on.

## LOCKOUT TIES UP WORK AT FRENCH PORTS

BREST, July 31.—(By the Associated Press)—All work in the port has ceased, the employers having declared a lockout because of the demands of the dockers' union.

HAVRE, July 31.—A lockout on the docks of Havre has become effective, 3500 men being out. The union of employers has hired 300 day laborers to work for the French quartermaster's department.

The union of employers of Havre, considering the dockworkers' union to have broken the contract signed last March for a six months' period, had given notice that all work in the port would be stopped.

## SOLDIER WELCOMED BY HIS FRIENDS

First Class Private John A. Perry was tendered a welcome home party at the home of his parents, Mr. and Mrs. Archie Perry, 35 Ferry lane, Tuesday evening. Many of his relatives and friends gathered to greet him and extend congratulations on his safe return from war service. A beautiful traveling bag was given him by the family. An informal musical program was carried out with Paul Gagnon as violinist and George Lebel, Loretta Buote, Della Blanchard, Hilda Perry and Emilie Perry as pianists. Refreshments were served and the party dispersed at a late hour after a most enjoyable evening.

## SUN BREVITIES

Best printing, Tobin's Associate bldg. Shoe shine, Coughlin's, 10 Prescott st. Lyden for best catering, Tel. 4531.

J. P. Donohoe, 229 Eldredge Bldg., real estate and insurance. Telephone.

William B. Ready, well known bar-ber in the Associate building, is enjoying his annual vacation.

Manager Pickett of Keith's theatre and Mrs. Pickett, have returned after a delightful vacation at Oak Bluffs.

Misses Malvina and Clotilda Roy of Cross street and Miss Corinne Bernier are spending a few days at Salisbury and Hampton beaches.

Mrs. C. M. Tyrrele of B street and grandson, Master Vincent Cryan, are spending their vacation with Mrs. Orville Bryant of Woodlawn.

Mrs. J. P. Farrell of Mosier, British Columbia, formerly Miss Sadie Spencer of this city, and who has been visiting her sister, Mrs. Harry Muffet of Lowell for the past few days, has been suddenly called home by the death of her husband.

Fifty or more young people enjoyed a dancing party in the Rogers hall gymnasium last evening in aid of the Rogers Hall Athletic club. A lively orchestra played for a long program of dances, which continued until 12 o'clock. Miss Catherine Jennison was directly in charge.

The War Camp Community club and Crescent Hill Association of Centralville are co-operating in plans for an outdoor neighborhood sing to be held at the Greenhalge school some evening next week. The arrangements are in the hands of B. S. Pouzzner of the community club and J. J. Mahoney, chairman of the social committee of the association.

Joseph H. Brouillette, 458 Moody, 18, Saco-Lowell shops; Marie E. Lafreniere, 6 Dempsey place, 18, clerk.

For a Lowell resident a vacation without The Sun would be rather gloomy. Order it mailed to you while you are away.

## MOVIES AND BAND CONCERT TONIGHT

Owing to a conflict in schedules, the municipal movie show which was to have been given on the South common last evening was transferred to the North common, but as the band did not appear, the affair was postponed until tonight and will be given on the slope of the South common as at first planned.

A program of first rate pictures has been arranged and good band music will be an added attraction. The band will play for an hour prior to the show, which will commence as soon as the darkness falls.

## CAR DERAILED

Gravel lying on the tracks caused the derailment of a trolley on the Varum avenue route near the Pawtucket bridge early last evening. Traffic was tied up for half an hour.

## STUDY THEIR BACKS" MAY WIN PRIZE MONEY

A chance for Lowell people with sharp eyes to win some handy vacation money is offered by the Merrimack Square theatre in a novel contest to be held during the week of August 15. Photos of prominent local business men will be taken from the rear view with only their backs showing. These will be exhibited at the theatre during the week and patrons will be given a chance to guess who they are.

The persons guessing the largest number correctly will be given prizes of \$25, \$15 and \$10, respectively, as first, second and third prizes. The "Who's Who" contest is what Manager Walter J. Nelson terms it, and it's bound to cause a lot of fun before the winners are actually chosen. Advance notice is given so that Lowell people may have a chance to study the backs of local business men and be prepared to name them when only their backs are shown. During the week of Aug. 25 the facial features of the same men will be shown so that those who take part in the contest will have an opportunity to see how near right they came.

## INVITE SERVICE MEN

### Sec. Pouzzner to Enlist Aid in Running Club

It is the plan of the War Camp Community club in Dutton street, to give service men the opportunity to assist in the management of the club which has been created for their pleasure. In the use and in promulgation of this scheme, B. S. Pouzzner, local director, will address members of the American Legion and the Navy Veterans' association at their meetings next week.

The plan of management embraces a series of rotating committees, one to serve for one of the 12 months of the year. Its functions will be suggestive rather than the actual operation of the club, but will give the men who derive benefits from it the chance to take part in its growth. Interest will be thus aroused and expansion will be assured.

## THIEVES TAKE PAQUIN'S GROCERIES AND MONEY

The grocery store and meat market of Wilfrid Paquin at the corner of Moody street and Gershon avenue in Pawtucketville, was entered by thieves sometime during Wednesday night and the intruders made their escape with \$5 and some odd cents in change and a quantity of groceries.

It is not known just how the thieves gained an entrance into the store, but it is believed that it was by means of a skeleton key. The doors and windows of the place were found in a normal condition yesterday morning. The cash register was rifled. Canned goods and cookies were among the food taken. The police have been notified.

## BOARD OF TRADE PLANS ENTERTAINMENTS FOR NEXT WINTER

The entertainment committee of the board of trade will meet tomorrow evening at 5 o'clock to discuss plans for the coming fall and winter.

If China should ever forsake her evil way and turn Christian, where would the other Christian nations go to do their stealing.

## MAN'S BEST AGE

A man is as old as his organs; he can be as vigorous and healthy at 70 as at 35 if he aids his organs in performing their functions. Keep your vital organs healthy with

## GOLD MEDAL HARLEM OIL

The world's standard remedy for kidney, liver, bladder and uric acid troubles since 1896; corrects disorders; stimulates vital organs. All druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation.

## NOTRE DAME ALUMNAE MEETING

A big meeting of members of the alumnae of Notre Dame academy will be held at the academy on Saturday afternoon next, August 2nd, at 3 o'clock to formulate plans for the attendance of members at the convention of the Notre Dame Federation at The Summit, Cincinnati, Ohio, Aug. 29th to September 1st. The forthcoming convention is expected to be a noteworthy one in Notre Dame circles and unusual interest is being manifested throughout the country. There is no dearth of enthusiasm among the members of the local alumnae, albeit that midsummer ordinarily is not conducive to arousing interest among the members. Yet the Ohio meeting has transcended everything else in the life and aspirations of the alumnae throughout the country and hence an interesting meeting is looked for Saturday afternoon at the famous academy in the shade of St. Patrick's Miss Julia Donohoe of Boston, the bustling president of the local alumnae is in charge of the arrangements for this session and will be glad to inform members unable to get to Saturday's meeting as to the plans.

## CLUB LAFAYETTE WILL HAVE FLOAT IN BIG LABOR DAY PARADE

At a recent meeting of the directors of Club Lafayette it was voted that the organization take part as a body in the parade to be held Labor day in honor of the French-speaking soldiers and sailors and that the club furnish a float, the subject of which will be some phase of the life of Lafayette. It is expected that the members will turn out in great numbers and that at the close of the parade a reception for the service men of the club will be held in the rooms of the organization in upper Merrimack st.

## MR. AND MRS. BRUNET CELEBRATE FIVE YEARS OF HAPPY MARRIED LIFE

A pleasant gathering of friends took place last evening at the home of Mr. and Mrs. Arthur Brunet in Lakeview avenue, the occasion being the fifth anniversary of marriage of the couple. Mr. and Mrs. Brunet were the recipients of appropriate gifts and in the course of the evening a buffet luncheon was served. Games were played and vocal and instrumental selections were given by Charles L. Cordeau, Arthur Brunet, Alberic Favreau, William Vincent and others.

## JOHN M. FARRELL Auctioneer

OFFICE, 162 MARKET STREET, LOWELL, MASS.

## AUCTION SALE

### Entire Furnishings of the Waverly Hotel

22 Market Street, Lowell, Mass. TOMORROW, AUGUST 1st, 1919 Commencing at 10 a. m.

I shall sell at public auction all the furnishings of the Waverly Hotel, one of Lowell's leading hotels. The proprietor has taken pride in its furnishings and spared no expense to provide the best in every line, to please the public. The building has been sold and the new owner is going to remodel it for other business. It must be vacated and everything will be sold without limit, to the highest bidder, for cash. The furnishings consist, in part, of the following:

Office furniture—counters, cigar show cases, office desks, writing tables, chairs, pictures, draperies, brass window rails, etc.

Bar room furnishings—a handsome 50-foot black walnut bar with all the latest attachments, pumps, drains, bottle capper, etc., a back bar to match the front bar and extending the entire length of it, with large plate-glass mirror, cabinets, shelves, etc.; four double cash registers, electric fans, heavy brass window rails, electric clocks, good ice chest, bar ornaments, pictures, glasses, goblets, tumblers, wine glasses, of the best quality.

Parlor furniture—piano, table chairs, draperies, carpets, rugs, pictures, etc.

Dining room furniture—50 dining room tables and 300 chairs, a large lot of hotel crockery of all kinds, silverware, cutlery, glassware, napkins, linen, towels, tea and coffee urns, copper, hot water heater.

Grill room—furnishings and furnishings of mission wood, pictures to match.

Kitchen furniture—large steel kitchen range, steam tables, ice chest, kitchen crockery and cooking utensils, two large electric blower fans with motor attached, portable baker's oven with four apartments No. 113.

Bed rooms—furnishings of 20 rooms, iron beds, springs, mattresses, bedding, dressers, chairs and tables.

All the gas and electric light fixtures.

Bath room—furnishings of three bath rooms, all open plumbing, bath tubs, lavatories, closets.

Wash room—four closets, urinal, and large lavatory.

Four complete mantels with large mirrors, large electric motor.

Heating plant—a practically new hot water heating plant with hot water boiler attached and all the radiators and piping; also extra steam brass and lead piping.

This lot of personal property must be sold regardless of cost, and many useful articles will be found at the sale in addition to those mentioned here.

Per order, JOHN J. REGAN, Proprietor.

# Predicts War If Profiteering Continues

## Upheaval Nearer in this Country Than Ever Before, Due to Mounting Prices

**Pres. Lee of Trainmen Says Action Not Words Necessary**  
—Trouble With Everybody is Desire for Almighty Dollar—Must Get Together and Call a Halt—Nearer War Now Than When Kaiser Threw Down the Gauntlet, He Declares

WASHINGTON, July 31.—William G. Lee, president of the Brotherhood of Railway Trainmen, who sent an "ultimatum" to the railroad administration, demanding a reduction in the cost of living or an increase in wages by Oct. 1, later in the day made public an abstract of the report of hearings recently held by the board of railroad wages on the trainmen's demands at

which he declared an upheaval was nearer in this country today than ever before due to the unrest arising from mounting living costs. The railroad and government departments had better be assisting to crush profiteering by the packers and other industries, he said, than shouting across the table at each other at hearings to consider still further increases.

"All of us are to blame," he said,

"because we are exerting every effort to get more money for ourselves and better conditions. Every day we must realize that profiteers are taking double from the workmen what is given them; and the trouble with the people on the hill (capital) with us and with every corporation and with everybody is that we are exerting ourselves to get the dollar, while the

## WILSON FAILS TO CHANGE VIEWS

**My Back Stiffer Than Ever for Ratification With Reservations, Says Sen. Keyes**

**New Hampshire Man Talks After Conference With President on Treaty**

WASHINGTON, July 31.—"My back is stiffer than ever for ratification of the treaty with reservations," said Senator Keyes of New Hampshire today, after a conference with President Wilson at the White House.

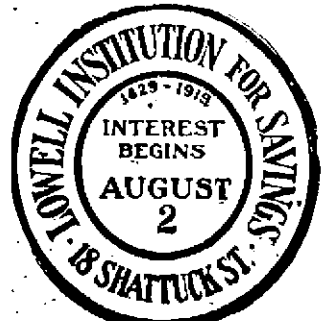

Senator Keyes, who was one of the signers of the round robin on the League of Nations, circulated by republican senators in the closing hours of the last congress, told the president he favored reservations along the lines proposed by William H. Taft, Charles E. Hughes and Elihu Root.

Senator New of Indiana, a republican member of the foreign relations committee, said after a visit to the White House today that he had told the president it would be "utterly impossible to get the senate to accept the peace treaty as it stands" and that it either would be "ratified with reservations, or fail."

Senator New said he told the president he was utterly opposed to Article 10 of the League of Nations. He added that in reply to the president's statement that adoption of reservations by the senate might set a precedent for other nations he said that the question of reservations was one for the United States to decide, regardless of the effect on other countries.

## ORBACH MUST GO 50-50 WITH HIS WIFE

Justice Chamberlain of the probate court has rendered his finding in the case of Mrs. Mary Orbach of this city, who sometime ago filed a petition with the probate court for separate support, the defendant being her husband, Samuel Orbach, former proprietor of the Owl theatre and one of the proprietors of the Crown theatre of this city. The judge has ordered Mr. Orbach to pay his wife the sum of \$15 a week for her support.

It will be remembered that the case was tried at a local session of the probate court a couple of months ago and that during the trial Mr. Orbach testified that his weekly income amounted to only about \$30. At that time he also stated that he was willing to support his wife providing she made her home with him.

## SHARP SETBACK IN GRAIN PRICES

CHICAGO, July 31.—Unusually sharp setbacks took place in prices for grain and provisions today. Corn dropped nearly six cents a bushel to \$1.63 1/2 for December and pork more than \$1 a barrel.

## TROOPS GUARD RIOT ZONES

**Mayor Calls on Soldiers to Control Law Breakers—6000 Troops Patrol Streets**

**Death List 30 With Over 500 Injured—No Serious Outbreaks Today**

CHICAGO, July 31.—Chicago was comparatively calm today for the first time since Sunday, and officials expressed the belief that the use of five regiments of state troops had effectively quelled the race riots which resulted in 30 deaths and the injury of more than 1000 persons.

Militiamen who patrolled the danger districts on the South Side were aided by a driving rain, which swept crowds from the streets. A dozen arrests were made of whites and negroes charged with carrying concealed weapons, and there were several sporadic fights between white men and negroes, but no mob attacks were reported.

When Governor Lowden learned that thousands of negroes, virtually prisoners in their homes since Sunday because of the riots, needed food, many wagonloads were sent to the South Side.

A number of minor encounters between groups of whites and negroes were speedily stopped by the troops.

Troops Ordered to Act

Gov. Lowden ordered the troops out on request of Mayor Thompson after darkness had brought renewed rioting and the city's three thousand policemen found themselves exhausted. Fighting kept up after the troops reached their stations shortly before midnight. One squad of soldiers had to fight a crowd of negroes to reach their station at 41st street and Washburn avenue while other soldiers were fired on from ambush on their way to duty. No soldier was killed or wounded and after the troops had taken

## TRAINS CRASH TWO MEN KILLED

**Two New Haven Freight Trains in Collision at East Porchester, New York**

**Wreckage Caught Fire—Passenger and Freight Traffic Blocked**

GREENWICH, Conn., July 31.—Two men were killed when two freight trains over the N. Y. N. H. and H. R. R. were in collision at East Porchester, N. Y., early today.

The dead are: HENRY BRICKLEY, engineer, of New London.

CHARLES E. RUST, instructor, of New Haven.

They were in a motor engine hauling a west bound freight which crashed into the rear of a Midway-Hartem river extra freight just west of the signal station. The crash threw the motor engine crosswise on the tracks and both men were wedged in the cab. Eight cars of the leading freight were thrown over all four tracks. The wreckage caught fire but was quickly extinguished.

Passenger trains from the east ran close to the wreckage and trains sent up from New York made as close contact as possible to accommodate passengers. As traffic is very heavy there

## WILL ASK FOR NEW HOSPITAL

**Women's Building at State Infirmary Not Adequate to Meet Demands**

**Prohibition Does Not Affect Number of Inmates at Tewksbury**

Unlike the corrective institutions, state and county, throughout the commonwealth, the state hospital at Tewksbury at the close of 1919 will show a larger weekly average of inmates than for the 12 months of last year. In other words, the huge institution in the nearby town will not feel the effects of the era of prohibition, but rather the decline of industrial activity from a war status will have a tendency to increase the average number of men and women received at the hospital for treatment.

This is the belief of Dr. John H. Nichols, superintendent and resident physician, who first went to the institution in 1891 as an intern and has risen to the position of active supervisor of this miniature city. By indirect methods, prohibition may make itself felt in the number of people admitted to the hospital in the course of time, says Dr. Nichols, but persons continue to grow old and feeble and contract illness whether or not liquors are sold and until the real crisis of youth is found the Tewksbury hospital will continue to function in an ever widening scope.

There are in the hospital today 2051

## SAYS CITY'S MILK MUST IMPROVE

**Inspector Master Hints 16c Price May Start Him on Crusade Against Dealers**

**40,000 Quarts Consumed Daily, But It's Too Costly for Beverage Purposes**

"With the announced advance in the price of milk to the consumer, the producer will be expected to furnish at least a standard grade article," said Inspector Melvin Master this morning. "and this is directly aimed at several producers in the city, who at the present time are not selling a grade of milk which comes up to the standard in total solids and butter fat."

Inspector Master added that Lowell milk producers are working along the lines of quantity rather than quality, and that at the present time the standard of milk in Lowell is lower than it has been for some time. This is a

## WATER INCOME \$15,000 MORE

**Result Due to Increased Rate Which Went Into Effect in Month of April**

**Amount Received, Today Exceeded, Beats July Record for the Past 5 Years**

Receipts credited to the water department for the month of July, exclusive of today, amount to nearly \$15,000 more than was the case for the entire month of July last year. The increase is due to the advance in rates on water bills which went into effect April 1. The yearly bills are payable during the month of July if consumers are to get discount and, accordingly, the coffers of the water department always overflow in this month.

The following compilation shows the amount of water department receipts

STONING OF GERMANS

Judge Advocate Who Investigated Charges Finds There is no Case

PARIS, July 31.—The judge advocate attached to the second permanent court martial, who investigated reports of the stoning of Germans on their departure from Versailles, finds that there is no case.

It has been established that the Germans aroused the protests of the crowd by sticking out their tongues and shouting "Heil!" The charges that stones were thrown rest upon the unsupported testimony of Dr. Theodor Melchior, one of the German financial delegates, and Frau Greta Dorblush, one of the secretaries of the delegation.

The incident occurred on June 16. It was claimed that Dr. Melchior and Frau Dorblush were struck on the head by stones. The demonstration was confined mostly to jeering.

Premier Clemenceau sent a letter of apology to the head of the German delegation and the police officials charged with protecting the Germans were dismissed.

CITY IN MEAT BUSINESS

Mayor of Jersey City Opens Sale of Bacon Bought From War Department

NEWARK, N. J., July 31.—Mayor Gillen today opened the city's sale of bacon bought from the war department. The sales were held in five houses. Fifteen tons of strip bacon and half a ton of canned bacon were offered.

The price was 36 cents for strip and 38 cents a pound for canned. This is a two-cent advance over the price at which the city bought the meat from the government. Bacon of this quality is being sold at retail shops, according to the mayor, at 50 to 55 cents a pound.

CROSSES SO. AMERICA IN AIRPLANE

SANTIAGO, Chile, Wednesday, July 30.—Lieut. Locatelli, a member of the Italian aviation mission now in Argentina, completed today an airplane flight from Buenos Aires to Valparaiso, marking the first crossing by air of the South American continent from the Atlantic to the Pacific.

Several days ago he covered the first stage of the flight from Buenos Aires to Mendoza, on the eastern edge of the mountains, where he waited for good weather. He started early this morning to complete the flight, crossed the Cordillera Andes and after circling over Valparaiso, landed at Vina del Mar, near that city. This afternoon he flew to San Diego. He brought several sacks of mail from the Mendoza postoffice as well as a number of private letters.

GROWING SQUASHES AND CUCUMBERS

The failure of squashes and cucumbers to bear fruit is quite a common occurrence. There are three causes for this condition—lack of sunlight, fresh air and bees. To do well squashes and cucumbers should not be planted too thick or in places where they are likely to become shaded during the day. If planted thickly the leaves of the plants shade the blossoms and the plant itself, thus shutting off all sunlight and circulation of fresh air.

among the vines. Bees do not like to frequent such spots and as a result the majority of blossoms fail to become fertile. Thinning out the plants themselves or pruning the foliage will help to overcome this trouble.

The spotted pellidnota is an insect that quitted a few persons have found in their gardens this year. It is a large brown beetle with several small black spots on its back. It is a very common species and is usually collected on or near grape vines. It feeds to some extent on foliage, but is not classed among our injurious species from the fact that it seldom, if ever, occurs in large numbers. No treatment is necessary usually, therefore, for its control.

There is a small caterpillar that was found last week on pole beans that seems to be important enough to warrant some attention as it had eaten many holes in the foliage. The worm

belongs to the looper family as its characteristics indicated. It was about a half-inch or more in length, very slender and light green in color. The looper worm obtains its name of looper through its habit of doubling up or looping as it walks. It is a very active worm and is, therefore, more difficult to control than other slug-like caterpillars. It affects all members of the cabbage family besides peas, beans, beets, celery, lettuce and sometimes the potato and tomato. Spraying with arsenate of lead is the best remedy, using the poison in the

proportion of four pounds of arsenate of lead paste to 50 gallons of water. The second brood of cabbage worms are now doing much damage throughout the county. Arsenate of lead spray should be used to control this insect when the cabbages are small. Any kind of a dry, gritty substance is also effective when dusted upon the leaves. Hand-picking the worms is the most efficient method of control on a small scale.

About this time of the year the first crop of string beans have been harvested or are about to be picked. If you allow the old vines to stay in the ground and give them a good cultivation they will begin to blossom again later on in the season and a second crop of beans may be obtained from them.

August is the month, when thorough cultivation of the garden crops should not be neglected. Keep the spray pump working among the potatoes for

## WHO OWNS THE LAKE?

Old Chelmsford Settler Gives  
Opinion to Help Clear Up  
Mooted Question

There has been considerable controversy for years as to whether Crystal lake at North Chelmsford is private or state owned, the claim being set up that any pond covering over 20 acres is a state owned pond, because of the fact that the law makes it so.

Members of the Lowell Fish and Game association have discussed the much mooted question and have had some heated arguments as to ownership, the one side claiming that if it is over 20 acres it should be state owned and the other side claiming that it does not cover 20 acres and that it is privately owned, anyhow.

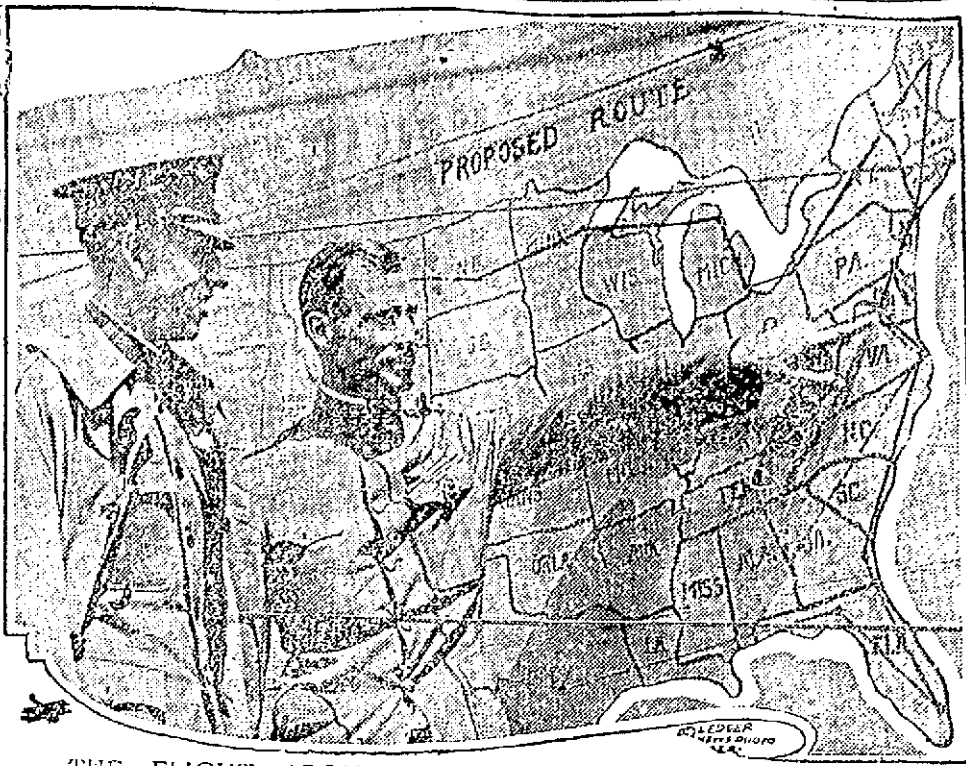

One of the association members met Mr. Fitz E. Adams of Chelmsford and immediately proceeded to question him about the lake, knowing in advance that Mr. Adams was thoroughly posted on the subject. Mr. Adams, who is 54 years old, is living in Lowell at the present time, but he spent the greater part of his life in North Chelmsford.

"The original or Indian name of the lake," said Mr. Adams, who talked in the presence of the writer, "was Ananunc lake. Later it was known as Litchfield's pond and finally as Crystal lake. The lake originally covered over 50 acres and I think it has not dwindled much."

"About 200 years ago one Daniel A. Waldo built a sawmill on Stony brook near the Merrimack river back of Scribner's store in Middlesex street. He later sold the mill to John Richardson, my great-great grandfather. The purchase included a large tract of land including the lake and extending to West Chelmsford. The whole purchase comprised several thousand acres of land and the bottom of the lake at that time was estimated at 90 acres."

"Mr. Richardson conceived the idea of making the pond or lake 20 feet higher than Stony brook for the purpose of supplying his mill with water in dry times—not the kind of water we are having now—but when rain was scarce. But his plan didn't work just as he expected. He failed to strengthen or protect the sides of the canal, that he was digging from the lake to Stony brook and the result was that the canal overflowed and pretty nearly all of the lake went into the brook causing an overflow that did considerable damage. It was stated at the time that a colored man employed on the canal or ditch, was swept away and that later his body was taken from the brook."

"Nothing more was done to the lake for about 100 years. This story, as I am telling it, I read in the history of Middlesex county, under the Chelmsford section. Trees grew in the bottom of the pond and considerable lumber was cut there. The lumber for the old

THE FLIGHT AROUND THE RIM OF THE U. S. A.

WASHINGTON—Around the rim of the United States of America in three weeks. That's the schedule of Col. R. S. Hartz of the United States air service, who in the picture is pointing out the route to Lieut. L. A. Smith. Hartz and his crew are making the flight in a Martin bomber capable of carrying a ton of mail or 12 passengers. They are booked for but 20 stops.

tavern in North Chelmsford was taken from the pond and I guess it furnished lumber for several other buildings. I know, too, that they moved hay on the bottom of the lake."

"In the year 1824 William Adams sold to Sheppard Leach the land of the lake, comprising, as has already been said, about 50 acres. Gen. Leach constructed a dam across Stony brook in West Chelmsford and ran water into the pond, bringing it back to its original size. It was the general's intention to make iron from bog ore. He built a large furnace, but was unable to get enough bog ore to make it a paying proposition and later sold out to his brother-in-law, Lincoln Drake."

"The sawmill became the property of William Adams who built a grist mill adjoining it and made flour there. The lake, now known as Crystal lake, finally became the property of George Moore and he controls the water power there. Some people claim it is a state lake, but Mr. Moore owns the bed of it and I calculate that what a man buys he owns. He gets his water power for his carding plant and big machine shop from the lake and I reckon he isn't worrying much about state ownership."

Before taking my train home from Boston get The Sun at either newsstand in the North station.

## U. S. SENATE TO DELAY SODA TAX REPEAL

WASHINGTON, July 31.—Formulation of a definite policy as to legislation modifying various provisions of the war revenue act of 1918, against which protests have been received from various parts of the country, will be discussed at a meeting today of the senate finance committee. The call for the meeting was issued by Chairman Penrose late yesterday, following hearings on house bill repealing the soda water tax and substituting a tax of two cents a gallon on fruit juice beverages for the present 10 per cent gross sales tax.

In addition to the two bills now pending before the senate committee, which certain republican senators regard as "pop-gun" legislation, proposals have been made in the house looking to the repeal of the luxury taxes, especially those relating to imports on candy, sporting goods and furs.

Senate leaders, it is understood, feel that the question as to how far congress is to go in this matter, should be determined at once. Many senators feel that if one section of the bill is repealed, there is nothing that would prevent modifications of other provisions being taken up, which, as one senator said today, would bring a "Pandora box of trouble."

Owing to the house recess Saturday for more than a month, members of the senate committee said last night the committee would take no final action upon the soda water and fruit juice tax bills before September at least.

The committee today is expected to discuss also the question of tariff legislation to some extent, although senate republican leaders believe that it would be unwise to take any action along these lines at this time owing to abnormal business conditions. They also doubt whether any such legislation could be enacted at the present extraordinary session.

## Why all this Precaution?

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

Children Cry For

**Fletcher's**

**CASTORIA**

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit. Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria; modest in all its claims, pleading at all times—and truthfully—for our babies?

The big spurge, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little one.

There are substitutes and imitations as there are for the diamond, for anything of value. One might almost say that that which is not copied has no value. So you have had the signature of Chas. H. Fletcher and a copy of the genuine wrapper kept constantly before you that you may guard against the false and the untrue.

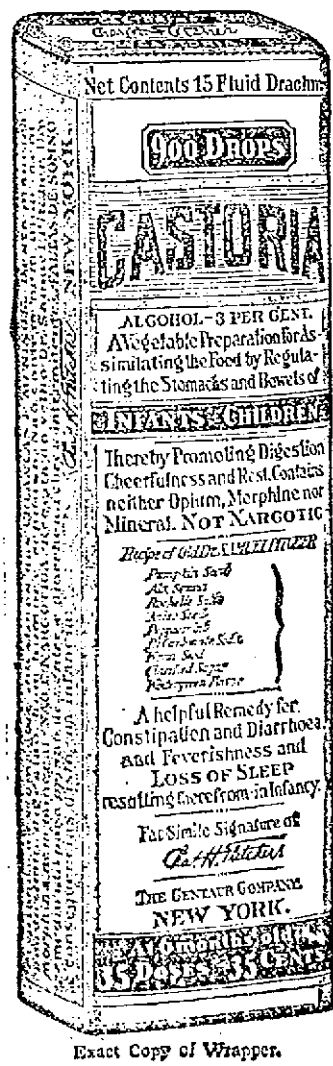

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

**Chas. H. Fletcher**

THE CENTAUR COMPANY, NEW YORK CITY.

Exact Copy of Wrapper.

NAVY MAN SAYS  
PLANES COMING HERE

A fleet of airplanes will fly over the cities of New England early in August, according to information received by Chief Cary of the local naval recruiting station, and it is expected that Lowell will be one of the cities included in the route. In this event it is probable that the machines, which are of the seaplane type, will alight on the Merrimack river and give a demonstration in the interest of recruiting for Uncle Sam's air service and literature will be dropped over the city. All recruits wishing to sign up with the air service may apply now at the local station.

BUILDING INSPECTOR  
DECLARES FOR WAR

The world war is over, but State Building Inspector Angus McDonald has started a little war of his own in Lowell, and unless people who are building dwelling houses do their work according to state laws, trouble will brew. Mr. McDonald stated this afternoon that a good deal has been tolerated during the war by the state building inspectors all over the state, because of the fact that builders were handicapped to some extent by the lack of material and the shortage of labor, but he says the war is over now and conditions have got to change.

Mr. McDonald not only declares war on those who are not obeying the building laws but he has begun an offensive and has issued a warrant against a property owner in Central

city, Michael J. Shamus, who owns dwellings in Broughton avenue which were gutted by fire last year, causing the loss of five lives. Mr. Shamus, according to the charges brought against him, has secured a permit from the city inspector of buildings for the erection of a building in Broughton avenue, stating that there would be six rooms on the top floor, while in reality it was found that there were eight rooms. The city permit was revoked and the state inspector was notified. As a result Shamus was arrested for violation of the state building laws and his case will be called in police court Aug. 8. Mr. McDonald wishes to take this opportunity to issue a warning to all local builders to do their work according to state law, or they will be prosecuted.

## WOOL DESTROYED IN TWO ALARM FIRE

BOSTON, July 31.—Fire, for which two alarms were sounded, destroyed the general merchandise in building 5 of J. L. Nelson's storage warehouse on Union wharf early last evening and was prevented from spreading to building 6 by the quick work of the department under the direction of Acting Chief Peter F. Walsh.

Five minutes after the second alarm came in for this fire, box 1354 was sounded for a blaze at 11 Chambers street, West End. The apparatus in the West End and down town houses was busy with the Union wharf fire and it was necessary to pull in several pieces of apparatus from outlying houses to cover the Chambers street blaze. This proved to be a slight fire in a waste basket.

The wharf fire started in the basement of the five-story brick warehouse, worked its way up the stair well to the fifth floor, where it burned through the ridgepole. It also penetrated into building 6, which is separated from building 5 by a fire wall, but did little damage there. The damage to the merchandise on the floors other than the top was from smoke and water.

Fireboats 47 and 31 responded to the alarm. Forty-seven soon had lines into the building and aided materially in confining the fire.

An estimate of the damage could not be obtained last night with any degree of accuracy. After the fire had been extinguished in the walls, it was necessary to pitch many balls of wool and other merchandise to the wharf in order that the smoldering sparks could be extinguished. Thomas Carey, watchman of the warehouse, discovered the fire. He sent in the first alarm. Acting Deputy Chief Swallow upon his arrival sent in the second, largely because of the dangerous situation of the blaze.

### AMERICAN LEGION

There will be an important meeting of the Lowell post of the American Legion next Monday evening at 8 o'clock in the rooms of the War Camp Community club in Dutton street. Several matters of importance are scheduled to come up and it is hoped to have an exceptionally large attendance.

## ONLY DAMP SPOT THIRSTY YANKEES?

This spot by the sad sea waves will be the only "wet" place available to dehydrated Americans, if plans of a California "near-beer" syndicate mature. Investigation has disclosed that San Miguel Island, a few miles from Santa Barbara, Cal., was never ceded

to the United States by either Spain or Mexico, and consequently protected from the damp by the umbrella of the dry order. The future may show every rock in this picture sheltering a stack of beer bottles, while coast steamship lines will crowd their cabins by advertising: "We Touch at San Miguel." What's more, the island is a barren rock without a drop of water on it!

## LAWRENCE GRANTS 74 LIQUOR LICENSES

LAWRENCE, July 31.—Seventy-four liquor licenses were granted to local dealers by the license commission yesterday. On each license was pasted a strip stating that the license was granted at the licensee's own responsibility in care of federal interference.

All dealers who applied for licenses received them, including Timothy J. Scanlon, Cornelius A. Guiney and

Frank Laramie, who were summoned to appear before the federal authorities in Boston Monday on charges of the illegal sale of liquor.

The licenses granted yesterday were divided as follows: Retailers, 58; hotels, 4; wholesalers, 11; brewers, 1. No club licenses were granted, as the advertising time for such licenses had not expired.

The commission set a fee of \$1500 on the Cold Spring Brewery, the only brewery applying for a license. Hotel licenses cost \$500 each and retail licenses cost \$300 each.

Don't forget to order The Sun mailed to you while away on your vacation.

## TAHAN'S DAUGHTER

### Tells About the Indian Girls' Doll Game

To Readers: Princess Nacomee is the daughter of Chief Tahan whose Indian stories have been such a hit with The Sun boy readers. Her stories are authentic accounts of woman and child life among the Indians written especially for Lowell girls and published in The Sun only.

BY PRINCESS NACOMEES, Of the Kiowa Indian Tribe

This time, girls, I am going to tell you how little Indian girls played before white people came. Well, nearly everything they played was meant to teach a lesson. They played with dolls,

boy dolls, like this one of mine. Sometimes they helped to make them. But usually a grandmother made the doll out of soft deer skin, and stuffed it with buffalo hair. The shirt and moccasins as well as the leggings were fringed and beaded about as beautifully as those of a real warrior. The hair of the doll warrior—maybe some of the little girl's own—was carefully arranged into three braids, one on each side of the head, the other one, the scalp lock, hanging down behind.

The girls used to have great fun playing "Hunt the Baby." They played the game on the edge of the tepee village, and as in all of their games, where some woman could see them. One of the girls took the doll and all of the others shut their eyes. Then she dropped it somewhere in the grass and went back to the others and cried out, "Where is my baby?" That meant that all was ready for the hunt to begin. The girls then opened their eyes and scurried around singing their "mother song," each one hoping that the song would help her find the baby. The one that found it would give a glad cry, the others would gather around to get the first look at it, and the little "mother" played that she was very proud of the new found baby. Then they would get poles and make a make-believe tepee, build a fire in front of

it, roast some pieces of meat over the fire and have a feast.

While the feasting was going on, the women who had watched their play usually told them an old time story like this one: One day a mother left baby in his cradle leaning against the tepee and went to the stream for some water. When she went back, the baby was gone. His mother cried so loud that everybody heard her, and they hunted and hunted. But they could not find him. The poor mother spent many sad nights and many long winters thinking about her lost child, and that it was her fault that he was lost. A long time afterwards some hunters found the lost baby boy with some wolves who had stolen him. When they took him home he could not talk but he howled and acted like a wolf.

All this taught the children the lesson, "never leave the baby out of sight," which a mother rarely if ever did. She preferred her child in her arms to the prettiest little dog that ever lived.

## FATE OF EX-KAISER

### Up to England, says Foch's Aid—Foch Says Terrors of Peace Worse Than War

LONDON, July 31.—Marshal Foch, submitting to photographers at his hotel in London, yesterday, said to a reporter of the Mirror:

"For me the terrors of peace are worse than those of war. I hate all this posing."

Maj. Gen. Maxime Weygand, who is accompanying Marshal Foch, said it was for England to decide what should be done with the former German emperor. "He is covered with shame and ignominy and branded as a coward," the general declared. "The French people think that is enough punishment."

## WATCH YOUR DAUGHTER

IS she quiet and listless?  
DOES she complain of being always tired, of giddiness and ringing in the ears?  
IS she losing her color? Is her skin like wax?  
DOES she suffer with headaches? Is she pale and thin?  
IS she nervous, irritable, unhappy?  
THEN your daughter has Anaemia. Her blood is poor and thin. She needs RED PILLS for Pale and Weak Women.

RED PILLS are food for the blood. They make the blood pure and rich. They feed the nerves. They build up strength and vigor.

THEY will transform your daughter into a happy, rosy, healthy girl, who will be a joy to you and a delight to others.

GET RED PILLS for her today.

MRS. DORA ROBERTS, Mill Street, Wilkesville, Mass., says that when she was sixteen years of age, she became so weak and exhausted that her family thought she would never recover. Her appetite was poor, her digestion was bad, and she found it difficult to walk around the house. Her mother, became alarmed over these bad symptoms, and after many failures elsewhere, decided to try RED PILLS for Pale and Weak Women. "They were my salvation," says Mrs. Roberts, "I soon began to get stronger and it was not long before I was enjoying the best of health. All this thanks to the good tonic, which cured the Anaemia I was suffering from, and relieved me of the general symptoms which usually accompany such poor blood."

CAUTION:—The formula of RED PILLS for Pale and Weak Women was first discovered in Paris, in the year of 1870, by a famous French doctor, and they have been widely used ever since.

To avoid imitations or substitutions, insist on the signature "Cie Chimique Franco-Americaine". In boxes only, 50 cents, or six boxes for \$2.50.

## MOTORISTS SUE TOWN ARREST OF AMERICAN FOR \$44,000 ORDERED BY MEXICO

RUTLAND, Vt., July 31.—The town of Clarendon has been made the defendant in four suits aggregating \$44,000, filed in the United States court in this city by Worcester, Mass., residents as the result of a serious motor accident which occurred in the early hours of the morning of July 23, when a touring car owned and driven by Leonard P. Leboeuf and containing his brother, Charles L. Leboeuf, and a cousin, Carleton Leboeuf, crashed through a covered bridge near North Clarendon and down over an embankment into Cold river. Leonard P. Leboeuf was instantly killed and the other two men suffered many injuries.

The first suit is for \$25,000 damages and is brought by Florence L. Leboeuf, the wife of the dead man, for the death of her husband. In the citation she alleges that the bridge was unguarded, unsafe and badly in need of repair, and that the west bank over which the car went is not properly guarded. The second suit is for \$10,000 damages brought by Charles L. Leboeuf for injuries consisting of a broken left arm, dislocated bones in his back, severing of tendons in his legs, and other injuries. The third suit is for \$5000 damages brought by Carleton Leboeuf for injuries consisting of a broken jaw, bruises and nervous shock.

The fourth suit is for \$1000 for the complete loss of the touring car. The Leboeuvs were on their way from Worcester to Vergennes, Vt., to attend a funeral of a relative.

### BODY NOT IDENTIFIED

Medical Examiner T. B. Smith, after a careful examination of the skeleton found in the woods in Billerica last Sunday, states that the bones were those of a man about six feet tall, while the tattered fragments of clothing proved to be those of a laborer, consisting of a vest, a blue cotton shirt, blue overalls, white cotton socks and heavy blue rubber shoes. Near the body were found a broken clay pipe and the back of a mirror advertising Duffy's Malt Whiskey. The body is at the morgue of J. F. O'Donnell & Sons in Market street, where anyone who might possibly identify it may see it.

## Cadum Ointment for Children's Skin Troubles

Cadum Ointment can be applied to the tender skin of infants and children suffering from teething, rash, eczema, chapping and similar troubles. It stops the itching at once, and much suffering from skin troubles may be avoided by the timely use of this wonderful remedy. Cadum Ointment is also good for pimples, itch, blotches, scaly skin, eruptions, sores, scabs, cuts, burns, ringworm, etc. Cadum Ointment is a French preparation made in America from the original formula.

Your dealer pays more for Jersey because he knows it is pure and will give you extra satisfaction in every respect.

## Simple Operations Fitted Together

The business of Swift & Company is the fitting together of many simple operations.

No one thing in a packing business is particularly difficult for men trained to do it; but no one thing is enough.

Thousands of other operations, properly performed, are necessary for the completed processes. And some one must fit together all these thousands of simple operations.

The success with which a packing business performs its function of supplying the best possible meat products to the consumer with the greatest possible benefit to both him and the producer depends upon the energy, brains, experience, and faithful effort of the men trained in the business.

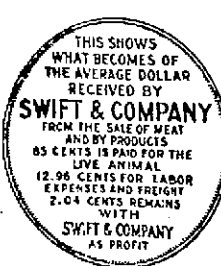

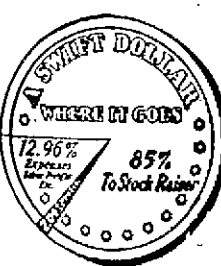

Swift & Company turns the producer's live stock into meat for the consumer at a profit of only a fraction of a cent a pound, because it fits these operations together with the least waste, overlapping, and friction.

Do you believe government direction could do it better?

Let us send you a "Swift Dollar". It will interest you. Address Swift and Company Union Stock Yards, Chicago, Ill.

## PRAISE FOR YEOMEN (F)

Sec. Daniels Lauds Girls for Faithful and Patriotic Service—2000 Mustered Out

WASHINGTON, July 31.—More than 2000 yeomen (F) and feminine marine corps reservists on duty here were mustered out today. Many will be employed in the navy department in civil service capacities. The remaining girls in the navy and marine corps in various parts of the country and island possessions will not be released from active service before Aug. 11 under the provisions of the new naval bill.

Secretary Daniels and Major General George Barnett reviewed the battalion of uniformed yeomen (F) and a company of girls of the marine corps yesterday as part of a farewell ceremony. Mr. Daniels praised their faithful and patriotic service. He said their enlistment had released nearly 10,000 men for active service with the fleet and with the marines in France.

During the war the yeomen (F) corps reached a strength of 11,275, some of its members serving in Europe and in all other places where there were naval establishments or stations. They served as stenographers, clerks, translators, camouflage artists, finger print experts, draftsmen and recruiting agents. Most of the 300 female marine reservists as the marinettes were officially styled, served at marine corps headquarters in the navy department.

## FEDERAL CONTROL OF WIRES ENDS TONIGHT

WASHINGTON, July 31.—Government control of telegraph and telephone properties will end at midnight tonight. Orders for their return to private owners were issued yesterday by Postmaster General Burleson as required under a resolution adopted by congress and signed by President Wilson 10 days ago.

Mr. Burleson, in a statement accompanying his order, said sound public opinion ultimately would determine "how this trust has been met," and that he was content to abide by the result. Beside this reply to criticisms of his management of the wire companies, the postmaster general also took a parting shot at the Postal Telegraph Co., most of the officers of which were removed several months ago because of what termed interference with government management.

The postmaster general did not mention the company by name, but said that "with one notable exception, the reason for which is thoroughly understood by those who have kept informed," every wire company had given him loyal co-operation.

Under the resolution of congress directing the return of the companies, government fixed intra-state telephone rates are to remain in force for a period of four months, unless sooner changed by state commissions but no provision was made as to telegraph rates. Clarence H. Mackay, president of the Postal company, in urging congress to provide for speedy return of these properties, said his company could reduce rates 20 per cent. and still earn a profit.

This statement was recalled yesterday in connection with the return of the properties and a rate war between the telegraph companies was viewed in some quarters as a possibility. Telegraph rates were increased approximately 20 per cent. last March to meet increased salaries of operators and other employees and rising costs of materials.

## Will Ask for New Hospital

Continued

Inmates, 1054 of whom are men and 1027 are women. Of sane persons there are 1319, while 702 are insane. Insane women far outnumber insane men, there being 505 of the former and only 197 of the latter, but this is not due to any idiosyncrasies of the sex, but simply shows the relative accommodation spaces allotted to each.

The number of inmates has been declining steadily since March of this year and will continue so until September, when the total always is at its lowest ebb. From the latter month through the winter and until spring comes again the total will rise rapidly, as it has in other years. This is due to the severity of winter weather.

## Two Abnormal Years

In the last decade at the hospital there have been two abnormal years—1913, when the weekly average of inmates was 2600, and last year, when it was 2104. In 1915 there was a long period of industrial unrest and more or less business stagnation. Bread lines were common, persons in poor circumstances were ill-clothed and ill-fed and the state institutions were filled to overflowing. The average dropped back to normal in 1916 and continued so until last year when it dropped to an abnormally low level, the lowest, in fact, since 1905.

The reason for last year's low average

## A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named Malted Milk. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

Kiddies' Barber Shop—Second Floor

## McCALL PATTERNS FOR SEPTEMBER HAVE ARRIVED

The McCall Fall Quarterly is out and we honestly believe that it is as beautiful and attractive a book as has ever been issued. It contains over four hundred authentic styles direct from Paris and Fifth Avenue and is a big fashion show in itself. McCall Patterns, Third Floor.

Capturing Fashion is like capturing trout. You must make the "catch" at the vital moment. This is what McCall's Fall Fashion Quarterly enables you to do. It gives you the pictures, descriptions and the Pattern number of the styles that have just bloomed in Paris and New York, and turning them to your own use is merely a matter of following the easiest and simplest directions. Only 15 cents when purchasing a McCall Pattern.

age was industrial activity. People commanded high wages and their personal bodies and living conditions benefited thereby. Poverty was decreased a hundredfold and state institutions were not operating at capacity. Even the number of tuberculosis cases at the Tewksbury hospital were considerably fewer last year than in 1916 and 1917, and Dr. Nichols, although admitting that he did not dare to lay his finger on the exact reason, and emphatically say he was right, nevertheless, believes that many people infected with lung diseases instead of going to hospitals kept at work.

The average weekly census for the first seven months of this year, however, shows that the yearly average will revert back to what it was in 1916 and will be in excess of two years ago. And the reason is plain; industry has slackened.

It was well that the activity of 1913 did cause a decline in the number of inmates at the institution for the hospital sent 75 men and women into the service, including 10 of the medical staff of 16 members. The work in the general hospital, as in the other departments, was conducted throughout

the year with a minimum possible number of assistant physicians, because of war demands and the difficulty in securing temporary assistants in the places made vacant was great. The nursing department and the training school for nurses was maintained with great difficulty owing to the shortage of nurses, yet those who remained responded loyally to the increased demands, many of them doing

work which should naturally fall to three or four.

Service Men and Women Many of the service men and women have returned to the hospital and more are expected, but in a number of cases physicians and nurses will not return and their places will be filled by others.

Like many other institutions under city, county and state management, the Tewksbury hospital equipment is not keeping pace with the demands made upon it. If an average weekly census of 2500 is attained this year, that number will be far in excess of what the institution is capable of handling with the maximum of ease and comfort. There was no appropriation forthcoming from the state last year for new building work. In fact, no new addition to the plant has been made for about eight years. Some of the buildings are far too old and although they have been expanded by wings and additions, wards in several instances are slightly overcrowded, based on modern hospital hygiene. The men's hospital building was erected in 1888 and others have lives of almost equal length.

Dr. Nichols is a firm believer in the proper segregation and distribution of

patients according to diseases as far as possible. This is being done now to a great extent, but new buildings, not larger than to accommodate 100 beds are needed. The old idea of creating state institutions all under one roof has long since become obsolete, and it is with the aim of forever burying this idea that the present superintendent asks for more buildings.

This year he will petition for an amount of money sufficient to erect a new women's hospital to take the place of the present one built in 1857 and which has an equipment of about 150 beds. He would have the new building large enough to accommodate 250 beds and be erected on a level plot of ground just outside the present boundary fence on the west side. Dr. Nichols also favors a building of one story, rather than one covering less ground but of three floors. The hospital has plenty of room for expansion to the westward and as it grows it will be in this direction. Buildings erected on the west side of the present group also will be nearer the heating, power and light plant, a fact which Dr. Nichols has in mind.

Wants Domestic Building The superintendent also wants a

new domestic building and will ask for an appropriation of \$120,000 for it. He said today that he believed if the state thoroughly knew of the extent of the hospital and the countless demands made upon it, more money for new work would be forthcoming with no signs of reluctance.

In 1891, 23 years ago, when Dr. Nichols first became connected with the hospital, the weekly average of cases was 300; there were 71 persons

employed during the year and the proportion of inmates to officers was 12. At present there are more than 350 persons employed and the proportion of inmates to officers has shrunk to six. Yet Dr. Nichols says he does not remember of being particularly conscious of this growth of more than 150 per cent except at particular times when the entire staff feels that the demands are greatly overbalancing the workable material and accommodations of the institution.

portion of inmates to officers was 12. At present there are more than 350 persons employed and the proportion of inmates to officers has shrunk to six. Yet Dr. Nichols says he does not remember of being particularly conscious of this growth of more than 150 per cent except at particular times when the entire staff feels that the demands are greatly overbalancing the workable material and accommodations of the institution.

## HAIR ON FACE DISAPPEARS QUICK

The most effective, convenient and harmless way to remove hair is with Depilic, the original sanitary liquid. It acts quickly with certainty and absolute safety. Results from its use are immediate and lasting.

Only genuine Depilic, the original sanitary liquid, has a money-back guarantee in each package. At retail counters in 50c, \$1 and \$2 sizes, or by mail from us in plain wrapper on receipt of price.

FREE book mailed to you sealed envelope on request. Depilic, 120th St. and Park Ave., New York.

## No energy

You cannot attend to your work properly, or with any degree of satisfaction, if your head aches or if you feel dull and groggy from a disordered stomach, or imperfect digestion. To do your work easily, quickly and well, and to keep at it, you must have a clear head.

If you have been confined in a close room, open the windows or get out for a moment and get your lungs filled with fresh air. If your stomach is deranged from hasty eating, or eating too heartily of rich or indigestible food try a few doses of "L. F." Atwood's Medicine to start up your digestive functions. You will get speedy relief and you will find yourself doing your customary work easily and with satisfaction to yourself. Fifty cents a bottle at all dealers. Sample free from "L. F." Medicine Co., Portland, Me.

## HIGH WAGES TO GO ON

Commissioner Mulready Sees

Period of Good Times for Labor

BOSTON, July 31.—Commissioner Edwin Mulready of the state board of labor and industries announced yesterday one of the men in his department had just left the service in order to go to France to help repair the damage of the war. He said there will doubtless be many such cases, as there is a great demand in France for American push and enterprise in consequence of their practical experience with Americans during the last part of the war. He predicts the movement of labor from this country to Europe will be so marked as to affect the labor situation in the United States. He does not believe there will be any immigration to offset this loss, for the European countries have no men to spare, and it is probable their governments will pass laws to prevent immigration.

The commissioner sees a long period of good times for labor before there comes any reaction. At present the labor situation is unusually favorable, he said.

"One agency manager tells me that it is not a question of finding a job for a man, but of finding a man for a job," he said.

### Vets Absorbed

"I think the way the labor market has absorbed the many thousands of men who have returned from the war is remarkable. In many cases they have better positions than they had when they went away. They are disposed to insist upon something better and, in many instances, do not want to return to their former positions. A book-keeper who was getting \$17 a week told me he could go back on the old terms, but he did not because he wanted something better. My advice was to take the job and then look for something better, for it is easier to go from one position to another than to go from one street to a job."

"The high wages of labor have a material part in the cycle of advances which is setting everything on a high level. Wages was one of the first things to go up, because the government needed men and supplies for carrying on the war. Wages were a secondary consideration. Production and speed were the main facts. Hence wages jumped till they reached an unprecedented point."

"This jump in wages was felt in the price of commodities into which labor entered, and hence the workmen got their share of the advance early, and it looks as if the conditions in the labor market would keep up the wage level for years to come. There is the loss of life by the war, which will make a deficit for a long time. There is the lack of immigration. There is the high standards of living to which labor has become accustomed."

"From my observation of the labor situation I find the style of living of the mass of workmen and their families has improved. This in itself is a good thing and it is desirable that it be continued. I recall the statement of Mr. Barr of the Foundry association, immediately after the signing of the armistice, that now wages must come down, which was followed by the declaration of Samuel Gompers, in behalf of labor, that wages should not go down. That shows the disposition of the labor men and it is to be expected that the conditions must be compelling before organized labor will consent to any less wages than it is now getting."

"Massachusetts is doing more for the laboring people than ever before, for it has the state board of labor and industries, the minimum wage commission, the industrial accident board and the state board of conciliation and arbitration directly organized for the benefit of labor. In addition, there are important activities of the state de-

partment of health, of the inspection department of the district police and of the state department of education which have much to do with the welfare of laboring people and their children in the public schools and at home."

## WOULD KEEP ALL ARMS OUT OF MEXICO

WASHINGTON, July 31.—Congress would declare itself opposed to exportation into Mexico of any arms or munitions of war under a resolution introduced yesterday by Representative Hindspeth, democrat, Texas.

"The resolution asserts that inasmuch as the existing embargo on shipment of arms into Mexico permits certain exceptions, congress should go on record as opposing any exportation whatsoever."

Representative Wilson through a proclamation made public several days directed no arms or munitions of any kind should be sent into Mexico except under such limitations as might be prescribed by the secretary of state.

Representative Hindspeth's resolution follows:

"That inasmuch as the president of the United States has found that there exists in Mexico conditions of domestic violence, promoted by the use of arms and munitions of war procured from the United States, as expressed in the embargo proclamation dated July 12, 1919, and inasmuch as he has, in consequence, forbidden the exportation to that country of all arms or munitions of war, except under limitations and exceptions to be prescribed by the secretary of state, it is the sense of congress that this measure shall be administered impartially and without limitation or exception as to any citizens or authorities of the republic of Mexico."

The Hindspeth resolution was dropped into the bill clerk's basket without comment, and referred to committee for consideration. Action on it before the house recess beginning next Saturday seems improbable, but during the vacation the inquiry into Mexican affairs will be continued by the house rules committee.

Representative Hindspeth, commenting on his resolution, said that it was aimed to prevent arms from being sent to the Carranza forces.

## SEC. LANE SAYS LEAGUE DIFFICULT QUESTION

WASHINGTON, July 31.—Patriotism of men who held differing views on the wisdom of ratifying the peace treaty, including the League of Nations covenant, is not to be challenged "so long as they think above the plans of partisanship," Secretary Lane declared here last night before a mass meeting of government employees.

"It is not an easy question to answer," Mr. Lane said, adding that it was one "to which we wish an American answer."

"And it takes courage," he declared, "whether we stand still and risk the scorn of a waiting, eager world, or break through our inertia and take the step that leads to a multitude of new relationships and possible obligations."

The view of the ordinary citizen the secretary said he thought, was that as many obstacles as possible be put in the way of nations desiring to make war, "but to be left as free as possible to follow our own designs, knowing that these do not endanger the peace of the world."

"We will not hazard our national life or the right of our people to determine their own institutions and destiny," he said. "But with these safeguards we will go far for the sake of the world."

Mr. Lane said he believed everyone would have preferred that the league should have been born "in a different way, at a different time." When Theodore Roosevelt returned from his trip

to Africa, he added, the former president made the strongest appeal any national leader had then voiced "for such a league."

"Then was the day for its creation," Secretary Lane continued. "But the world did not see the danger it was in."

Such men as President Taft and Mr. Root committed themselves to the project then, Mr. Lane said, but "the stern figure of the Kaiser, backed by his standing army of 2,000,000 men," stood in their path. William Jennings Bryan, as secretary of state, had moved in the same direction with his negotiation of arbitration treaties, Mr. Lane continued.

It was not until the war came that any but tentative steps could be taken toward the formation of a peace league. Mr. Lane said, and if the president had not made the effort to secure it "we would have said he was a quitter."

## STORE WORKERS ARE ENJOYING GOOD REST

Employees of Macartney's Apparel Shop, Cook, Taylor & Co., and The Thompson Hardware Co. are enjoying vacations as follows:

Macartney's—Mr. Joseph Hicks is enjoying a two weeks' fishing trip in Maine. Miss Lillian Lebrun is touring the beaches along the North shore. Cook, Taylor & Co.—Miss Harriet Frazer is visiting in Bangor, Me. Miss Gertrude Conroy is spending a couple of weeks at Nantasket beach. Miss Jennie McCort will leave Saturday for Malden, where she will spend a couple of weeks. Miss Mary Madole will leave Saturday on a two weeks' vacation at Beverly. Miss Ethel Mountain is the guest of relatives at Greenfield, N. H. Miss Jane McDougall will spend the next two weeks at Beverly. Miss Eva Breault has returned from a two weeks' vacation spent at Long-Sought-For pond.

Thompson Hardware Co.—Mr. Clarence Reynolds is enjoying his vacation at Cape Cod. Mr. Ralph Norwood will leave Saturday for Hampton beach, where he will spend the next two weeks. Miss Lucy Adams will spend the next two weeks enjoying the cool breeze on a farm in Chelmsford. Nelson Lebrun has returned from a two weeks' vacation spent touring the state of New York and Canada in an automobile.

## Milk Must Improve

Continued

condition which prevails all over the country, however, and is not accountable to any peculiar local conditions. Milk inspectors everywhere are experiencing the same difficulty and are doing everything within their power to raise the standard by peaceful means. The Lowell inspector says that one or two producers have been warned several times and unless the standard grows better and conforms with the state law, prosecutions will follow.

Lowell milk is not of poor grade, far from it, he says, but in several instances it is just a point or two below the recognized standard and in many cases, while the per cent of total solids may be a trifle low, the per cent of butter fat will be greater than is required, thus creating a balance. The law says that milk shall test 12 per cent total solids and 3.35 per cent butter fat.

There is no shortage of milk in Lowell and the supply and demand are about equal. A prolonged hot spell would create a shortage, however, and this occurs once or twice every summer, but no critical condition is expected. At the present time Lowell people, including householders, stores and restaurants, are consuming approximately 10,000 quarts of milk a day.

Inspector Master believes there is no doubt but that a quart of milk is worth at least 10 cents, based on its food value in comparison with the high prices being obtained for practically every other eatable, but adds that the prevailing cost it cannot be used as a beverage only in remote instances. As a substitute for other foods it is not excessively high in price but as a beverage it is an out and out luxury. Even at the present price of 14 cents a quart, people in poor circumstances find it extremely difficult to purchase milk and with two cents added, this condition, of course, will be greatly aggravated.

Milk is an absolute necessity and it is very probable that children will suffer because of an insufficient amount as daily food.

## Campers Found Guilty

Continued

everything of value they could remove. One of the defendants, who said that his real name was Carl Caster. Instead of George E. Edgings, as he originally stated, was sentenced to the Shirley Industrial school, from which he had been on parole. The other boy, known as Edward Johnson, and who today gave his name as Edwin C. Adams, was given a suspended sentence to the Massachusetts reformatory.

According to the admission of the boys and the testimony of Constable Connell of the Tyngsboro police, the pair broke into the camp of J. H. Kingsbury in Tyngsboro last Thursday and besides appropriating a quantity of camping utensils and provisions, helped themselves to Mr. Kingsbury's tent and rowboat. They rowed up the Merrimack river to the camp of Charles E. Goulding the following day and added to their supply from Mr. Goulding's camp.

By this time the youthful campers were well provided with the wherewithal to camp out for some time and when arrested by Constable Connell on Sunday had pitched camp on the bank of the Merrimack two miles above the Tyngsboro bridge, and were apparently at peace with the world. The constables couldn't quite see into the idea of allowing the camping trip to last any longer at the expense of Messrs. Kingsbury and Goulding, and they were brought to the police station. Most of the stolen property was recovered.

Joseph A. Marcotte was charged with operating an automobile while under the influence of liquor, and also with operating the car in a manner to endanger the lives and safety of the public. He was found guilty on both complaints and the case continued until Saturday for sentence.

We Serve Our Customers Best by Being Open Friday Nights Till 9.30

# AFTER STOCK-TAKING Odds and Ends Sale

Our stock-taking just completed has brought to light several hundred pieces of odd merchandise—not enough of any one kind to carry in our regular stock—many items we could not duplicate at any price if we wanted to. We are going to dispose of these odds and ends in quick order by placing them on sale at very low prices. FRIDAY and SATURDAY will be two days of unusual opportunity to get some real bargains.

## BRANDEIS IS HONORED

Jewish Colonies Declare

Holidays for Justice—Completes Tour of Palestine

NEW YORK, July 31.—Justice Louis D. Brandeis, of the United States supreme court has completed a tour of Palestine and is en route to Paris, according to word received here today by the Zionist organization of America. The Jewish colonies were reported in a flourishing condition.

Justice Brandeis who is honorary head of the Zionist movement in this country, accompanied by Jacob De Haas, executive secretary, and Professor Alfred Zimmermann of the University of Wales, a former British foreign under secretary, visited Jaffa, Jerusalem, and more than 20 Jewish colonies in Judea, Galilee and Samaria.

Their arrival was the signal for a public holiday in most of the cities and towns. Equally cordial was the reception of the party by officers of the British army of occupation.

Secretary De Haas reported that much was found to encourage the conviction that the League of Nations, consenting, the Jewish commonwealth would begin under favorable auspices because of the accomplishments of the present Jewish population.

Justice Brandeis expects to reach this country in time to report the Zionist convention which will open in Chicago on Sept. 14.

## PROTEST TO KOLCHAK

Inter-Allied Commission

Charges Violation of Agreement on Railways

VLADIVOSTOK, Saturday, July 19.—(By the Associated Press).—The inter-allied railway commission were despatched a formal protest yesterday to the Omsk government of Admiral Kolchak against violations of the inter-allied agreement regarding the operation of railways. The communication demands that Russians live up to the agreement which they signed, and are a party to, if the government expects allied aid. The removal of General Semenov from the zone where he can interfere with railroad operation also is asked.

The violations have been chiefly through the military station commandants who sell tickets, allot cars and attempt general supervision of traffic a duty assigned to the technical board of the American railway commission to Russia under the chairmanship of John F. Stevens.

The chief disturber is alleged to be General Semenov who appears to be the dominating figure in the trans-Baikal sector.

The United States has furnished \$1,000,000 and China \$500,000 for the railroad reorganization, while the other allies have promised funds.

## APPEAL TO NATION TO STOP LYNCHING

BOSTON, July 31.—Demand for an investigation by congress of mob violence and lynching in the United States is made in an address to the nation signed by 150 citizens throughout the country, including ex-President Taft, Atty. Gen. A. Mitchell Palmer, Dr. Henry Van Dyke, the governors of seven states, every living ex-attorney general of the United States, the heads of California, Illinois, Princeton, Western Reserve, Fisk and Vanderbilt universities, Charles W. Eliot, Elihu Root, Charles Evans Hughes, J. B. Bingham of Mississippi, and Senator Arthur Capper of Kansas.

The address to the nation is an outcome of the national conference on lynching, which was held in New York city, May 5 and 6, inst.

"The people of the United States suffer justly under the grievous charge that they continue to tolerate mob murder," says the address. "In the year 1918 no less than 67 persons were done to death without trial or any process of law, having been denied the right to a day in court accorded by the federal and state constitutions to all citizens.

"It is well known that the innocent with the guilty suffer the cruel inflictions of mob violence. Mobs have

FAMO destroys the dandruff bacilli and stops seborrhea.

Schorrhea is the cause of dandruff. Allowed to run unchecked it makes the hair die and fall out, just as pyorrhea loosens the teeth.

FAMO kills the seborrhea microbe and gives the hair new gloss and lustre and promotes new hair growth.

It contains no harmful alcohol and retards grayness. Two sizes—25 cents and an extra large bottle at \$1. At all toilet goods counters.

## THE MANUFACTURERS' SALES CORPORATION

IS OUT TO

## "Make a Clean Sweep of All These Goods"

IN JUST (4) DAYS (4) MORE

The final mark-down is made and this great sale draws to a close.

## 4 CLOSING DAYS ARE FRIDAY, SATURDAY, MONDAY AND TUESDAY

August 1, 2, 4 and 5. Get these days firmly fixed in your mind. We have marked shoes down so that they are selling at prices but little short of nothing. These closing days will be the record breakers of the sale. Let nothing keep you away. Your money will go farther and buy more than it ever did before. Be on hand.

## Friday Morning, August 1st, at 9 O'Clock

## STORE CLOSED THURSDAY

An army of clerks are busy today rearranging and marking the goods down for this final slaughter. All the stock now on display.

## TERMS OF SALE

Owing to the extremely low prices now—we will not exchange any shoes bought during the four closing days. No money refunded. Every sale final.

## MERCHANTS

From the city or out of town, who wish to purchase any part of this stock, will please make appointment by phone.

## JUST THINK! HERE

Is a big high grade stock being slaughtered just at the time you need footwear. Prices will be much higher soon. Grasp this opportunity.

## THESE PRICES WILL EMPTY THE STORE

MEN'S RUBBER BOOTS

## FREED OF DRAFT EVASION

BOSTON, July 31.—Lewis F. Curtis

of Newton, reputed to be one of Am-

erica's best rifle shots, has satisfied

the government that his reasons for

not getting into the war were suf-

ficient. The United States district

court has not pressed an indictment

charging him with falsifying his ques-

tionnaire for the purpose of evading

the draft.

## COUNTY TAX RECALLED

The tax of \$112,653.75 levied against

the city of Lowell as the county tax

for this year has been recalled and will

be re-levied in accordance with one of

the final acts of the recent legislative

session which provided that such tax-

es should be re-apportioned. The Low-

ell tax will undoubtedly be increased

and the assessors expect to know the

exact amount within a week.

# STOCK MARKET

NEW YORK, July 31.—The heaviness of shipping, motors and oils imparted an irregular tone to active stocks at the opening today. Tobacco, leather and paper were active. Eastern reactions extended from one to two points in Marine common. American International, Texas company, Steelbakes and Virginia Carolina Chemical and allied equipments recorded nominal changes.

Dealings became dull after the first half hour of moderate activity. Trading continued to center in the tobacco, leather and paper groups. Among motors and oils irregular recoveries were made and equipments ended the day with strength shown by Crucible Steel, Texas & Pacific was foremost of the bulls, rising 1 1/2 points. Call money opened at 6 1/4 per cent.

Oils and miscellaneous specialties were prominent at mid-day. Mexican Petroleum and Texas company leading at gains of 4 to 5 points. Prices soon reacted on higher rates for industrial loans.

A 15 per cent rate for call loans provoked extensive selling in the hour, steel and motors leading the decline. The closing was weak.

**Cotton Market**  
NEW YORK, July 31.—Cotton futures opened steady, 31.00; Oct. 34.27; Jan. 34.95; May 34.15; Oct. 34.27; Jan. 34.95; May 34.15. Cotton futures closed steady, Oct. 34.28; Dec. 34.85; Jan. 35.00; May 34.69. Spot quiet; middling 34.20.

**New York Dealings**  
NEW YORK, July 31.—Exchanges \$331,299,504; balances \$71,590,985.

**Money Market**  
NEW YORK, July 31.—Time loans strong, six bid call money strong; high 15; low 6; ruling rate 6; closing bid 15; offered at 6; last loan 15; bank acceptance 15; Liberty bond closing: 3 1/2% 95.56; first 94.30; second 94.30; third 94.30; 4 1/2% 95.10; fourth 94.30; Victory 3 1/2% 95.92; Victory 4 1/2% 95.96.

## BRIEF BUT IMPORTANT WIRE DESPATCHES

NEW YORK, July 31.—New York bankers are preparing to place on the market an issue of Belgian treasury bills similar to the \$50,000,000 issue of French bills reported yesterday.

LUXEMBURG, July 31.—The minister of state proposed today in the chamber of deputies that one million francs be appropriated for Verdun and two hundred thousand francs for the reconstruction of a devastated town in Belgium. He said France and Belgium deserve the eternal gratitude of the Grand Duchy for aid and protection during the war.

PORTSMOUTH, N. H., July 31.—Dr. Seth W. Jones, collector of internal revenue, stated today that a tax of \$1000 on dealers in malt liquors in Maine has not been imposed, and that the department, as far as he was concerned, had made no declaration in the matter.

PROVIDENCE, R. I., July 31.—William C. Bliss, chairman of the public utilities commission, today announced that if the street car men would not within a reasonable time agree to the arbitration plan ordered by the superior court yesterday, the commission would initiate an investigation of the situation and ask the court to order the receivers to resume operation of the line.

WASHINGTON, July 31.—Urging prompt and unreserved ratification of the League of Nations covenant, Senator Randall of Louisiana declared in a senate speech today that the document met the ends of universal peace "as closely as any human agency can."

WOONSOCKET, R. I., July 31.—Men last evening found the unidentified body of a man 35 years old, in a field in Hendrick neighborhood in North Smithfield, near Providence-Woonsocket trolley line. A revolver bullet wound in the pit of his stomach was either self-inflicted or the man was murdered.

PARIS, July 31.—Herbert C. Hoover, and other members of the supreme economic council, left today for London where the council will meet tomorrow to discuss plans for the continuance of inter-allied control of supplies.

PARIS, July 31.—Baron Nobukuni Makino, head of the Japanese delegation to the peace conference, accompanied by his staff, will sail shortly for Japan, leaving for Marseilles today.

BOSTON, July 31.—Work in all departments at the navy yard was suspended this afternoon while the mechanics joined in a parade and mass meeting in protest against the announcement that the working force of 8000 must be reduced by at least 1500 during the next month to square with the cut in naval appropriations made by congress.

**LAWRENCE MAN HURT**  
John Brady, a resident of Lawrence, and employed at the George C. Moore mill in that town, received a fracture of the hip this afternoon when a bale of wool fell on him. The ambulance removed him to the Lowell Corporation hospital.

## M'MANUS FETE WILL BE AT SPALDING PARK

The annual outing for the children of Lowell under the auspices of Constable John McManus will be held at Spalding park Wednesday, Aug. 20. Mr. McManus had planned to hold the event at Mountain Rock, but owing to the high price asked for special cars to the summer resort, \$30.50 each against \$7 each a few days ago, he has changed his mind and will have the event at Spalding park at a cost of \$15 per car.

Tickets will be out of the printers' shop today and will be left in various stores in the city for distribution. On the morning of Aug. 20, according to present arrangements, the boys and girls will gather in Paige street where a band will give a concert and will board special electric for the park, where games and sporting events will be carried out. The little ones will be treated with ice cream, sandwiches, lemonade and doughnuts and pie. Police officers will be on the grounds to look after the welfare of the young ones and it is hoped the affair will prove most enjoyable for all concerned.

## MARY BOYLE O'REILLY SPEAKS HERE AUG. 6

Mary Boyle O'Reilly, of Boston, daughter of the noted Irish patriot and poet, and herself a war correspondent, lecture and traveler, will come to Colonial hall this city, next Wednesday evening, August 6, at 8 o'clock to give a lecture on her experiences in Europe during the world war. Miss O'Reilly will come here under the auspices of the Children's Home of Hoxford square, of which Miss Ellen M. O'Leary is matron. Miss O'Reilly appeared here last fall at the State Normal school, but her address next week will deal with her experiences from a different angle. Tickets for the lecture will be obtainable downtown at places to be announced later.

## Upheaval Near

Continued  
workingman is merely existing and while the profiteer is piling up millions.

"I will admit to you gentlemen that we are going the wrong way. I admit to you that it is time to call a halt and I will admit to you that until we get together, until we come together to stop this, there will be hell in this country—and it is nearer today than I ever knew it in my years of experience. Just let somebody drop a match in this country of ours and it will be a sorry day for all of us.

"Unless my vision is most terribly obscured, then there is something coming to us pretty soon in this country that we had better take notice of. We had something of peace in this country prior to the war conditions. We were getting along fairly well until profiteering became so noticeable everywhere and until the commodities that working people are compelled to pay for were permitted to be increased, doubled and trebled, without any question and often seemingly with the approval of the government. "We are nearer war in this world today, I believe, than when the Kaiser threw down the gauntlet. Our lawmakers are to blame, in my opinion, because the masses of the people attempt to correct it, and surely there is power to correct it; but instead they are playing politics as some of these labor organizations are playing politics, and it is the same all down the line."

**Thousands Marooned**  
STAMFORD, Conn., July 31.—Thousands of passengers on morning trains over the New Haven railroad from points to the east found themselves marooned here and along the tracks for 12 miles for many hours, today. Every means of conveyance to get around the wreck at East Portchester had been secured by those on the first trains to be held up and later, when business men, jurists and others having engagements in New York city found they could not proceed, there was much excitement. Trains were held up all the way from Bridgeport to Greenwich, and passengers whiled away the time sitting alongside the tracks. Men sought to outbid each other for use of private automobiles which appeared, and the telephone brought machines from Bridgeport, Danbury and New Haven.

**SEVERE LOSS FOR THE INDEPENDENT AUTO CO.**  
Two motor vehicles valued at several thousand dollars, belonging to the Independent Auto company of this city were totally destroyed by fire on the Lowell road, in Nashua, yesterday morning. Nashua firemen reached the scene too late to be of assistance.

A limousine driven by Miss Catherine Ansara of this city, which had broken down, was being towed by a service car. The limousine bumped into the tow car, and both were burned before they could be parted.

## WOULD LEAVE DEAD IN FRANCE

PARIS, July 31.—General Pershing told the correspondents today that he would advise against the removal to the United States of the American dead buried in France. He said he was arranging for a conference with American artists with a view to making plans for the beautification of a permanent cemetery and the erection of monuments to America's dead.

General Pershing also said that in his opinion, the 48,000 German prisoners held by the American army may be released as soon as the German peace treaty is ratified by three of the great powers. He said he believed it would not be necessary to await

## AGAIN DENIED BY JAPAN

Foreign Minister Nails Report of Secret Plot Between Japan and Germany

TOKIO, Saturday, July 19 (By the Associated Press).—"I declare once more with a clean conscience, that Japan never acted to breach her pledged faith to her allies and associates in the war."

This statement was made today by Viscount Yasuoka Uchida, the foreign minister, to the Kokusai news agency with regard to reports that Germany and Japan had entered into secret negotiations for an alliance during the war.

"The absurd story that secret negotiations were conducted during the course of the war between Japan and Germany," he said, "seems to be again attracting public attention in America. That such a report is persistently circulated, despite the categorical denial repeatedly made by the ministry at Tokio and by the Japanese representatives at Peking, Washington, Paris and elsewhere, apparently indicates that certain quarters interested at the present moment in the estrangement of Japan from her friends have been despatched at work with this ill-advised object in view."

## Action Follows Ultimatum

Continued  
ministration a statement similar to that of the engineers, setting forth that the trainmen must have increased wages unless immediate steps are taken to reduce living costs.

## Sell Army Food

WASHINGTON, July 31.—First steps in the federal government's attempt to reduce the high cost of living were taken today with the inauguration of a plan for the sale of \$125,000,000 worth of army food stocks direct to the people with every postmaster and mail carrier over the country acting as a salesman.

Distribution in this manner was requested by the house of representatives and details were worked out at conferences between Secretary Baker, Postmaster General Burleson and Representative Kelly of Pennsylvania, author of the house resolution.

While this program was being put into effect, President Wilson had before him a statement from the Brotherhood of Locomotive Engineers which declared that "conscientious profiteering by the great interest who have secured control of all the necessities of life" had brought about such conditions that the engineers felt they must demand increased wages, unless living expenses were reduced.

At the department of justice, investigations into causes of increasing living costs were under way with particular attention to the question of whether producers or dealers had combined in violation of law to raise prices of necessities.

Meantime there was pending in the house a resolution proposing that the federal trade commission investigate rising costs of coffee, sugar, shoes and clothing.

## R. R. Shopmen Not to Strike

WASHINGTON, July 31.—Representatives of the six railroad shops who are in conference here with railroad administration officials telegraphed to shop employees over the country today not to strike pending final settlement of their demands. The workmen were informed that the railroad administration had consented to enter into a na-

## Influenza Left Woman Run-Down and Despondent

Failed To Regain Strength Until She Began Treatment With Dr. Williams' Pink Pills

"Like so many others who had influenza during the epidemic," says Mrs. Honorius J. Laconture, of No. 76 Broad street, Marlboro, Mass., "I was left in a badly run-down condition and it seemed impossible for me to regain my strength."

"The influenza didn't last long but the disease was so severe that it sapped almost all my strength. My stomach bothered me and food soured, causing severe pains and dizzy spells. There was also a very rapid heart action which caused me to worry and I became discouraged. I was very weak and found great difficulty in doing my housework."

"I read about Dr. Williams' Pink Pills in a newspaper and decided to give the remedy a trial. In a few weeks there was a decided improvement in my condition. My appetite was better and I could eat without distress. Gradually I regained my strength and the unusual heart action was corrected. I feel better than I have in a long time and can strongly recommend Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills for Pale People are sold by your own druggist or will be sent direct by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for free book, "Building Up the Blood."—Adv.

tional agreement with the unions covering rules and working conditions.

The committee represented 450,000 men. Two broad subjects were up for consideration—creation of national agreement and a "very substantial" increase in wages to meet increased living costs, which the committee said had caused a serious state of unrest among the shopmen.

"We are now officially assured by the director general that the railroad administration will sign a national agreement," said the telegram to the shopmen. "An earnest effort is now being made by the director general to give us definite information at the earliest possible moment as to position of railroad administration regarding wage matters."

"The successful termination of our efforts depends upon the united support of all men involved. There must be no stoppage of work during these negotiations. We will advise you as soon as we are in possession of further definite information."

## Trainmen's Ultimatum

WASHINGTON, July 31.—William G. Lee, president of the Brotherhood of Railway Trainmen announced today that unless the railroad administration had taken action by Oct. 1, on the demands of the brotherhood that wages of the trainmen either be increased or the cost of living reduced, steps looking to the enforcement of the demands would be taken.

Mr. Lee said a resolution containing this declaration, which had been adopted last night by the special committee of 15 appointed at the recent convention of the trainmen at Columbus, Ohio, would be sent to the railroad administration. The resolution provided that in the absence of action by Oct. 1, the committee would reconvene to consider "the necessity for using the protective features of the brotherhood."

## PROHIBITION CAMPAIGN

Secret Movement in British Cabinet to Maintain Liquor Control Regulations

LONDON, July 31.—In connection with the prohibition campaign in England, the members of parliament who sympathize with it will conduct an energetic secret movement in parliament to maintain the existing liquor control regulations established during the war and especially the restricted hours of sale, says the Daily Mail. These members are trying to persuade Premier David Lloyd George to receive a secret deputation, the newspaper asserts.

## Lowell Has 18 Oases

Continued

The big rush will come tonight. Although it is admitted that 2.75 per cent. hasn't got the kick contained in the beverages sold before the town went dry, it's a mighty smooth drink for a warm summer day, say the knights of the white apron. Many of the dealers who secured licenses yesterday were unable to get

"stocked up" in time to open their doors last evening, but the three establishments who paved the way for the anti-prohibitionists Tuesday evening by applying at the license commission for first class liquor licenses, and who opened shortly before noon yesterday, did a rushing business throughout the evening.

Of disturbance there was practically none. It was a jolly, good natured crowd who touched elbows again in front of the three bars aforesaid and one would be led to believe that 2.75 per cent. was indeed non-intoxicating after making a round of the places open and observing the conduct of the patrons.

No liquor licenses were granted by the license commission today but a special meeting has been called for tomorrow morning when the commission will act on a batch of applications which have been coming in, throughout the day. All dealers taking out new licenses subject to federal regulations will be forced to surrender the old licenses under which they operated prior to July 1, but the commission states that should the prohibition ban be lifted before the end of the license year, the dealers will not be forced to renew their licenses and can continue to do business.

Regardless of its education or its morals, the class that is a menace to the established order is the one that isn't getting enough to eat.

## FOUR HONDURAS TOWNS CAPTURED BY REBELS

SAN SALVADOR, July 31.—Four towns in Honduras have been captured by the revolutionists, according to despatches received here today, while government troops have scored successes at three points.

General Lopez Gutierrez, one of the leaders of the revolution, was routed at Tapasent and died to a mountain, according to the Honduran minister here, Senor Fortin.

Col. Francisco Carbona, with a force of 800 men, was reported defeated yesterday by government forces at Caballitos and Goascoran. At Goascoran Col. Juan Jacinto Velasquez was killed.

The four towns taken by the revolutionary forces, according to advices here, were Comayagua, Gracias, Camasca and Marcata.

## Troops Guard Riot Zones

Continued

their places disorders died down within the region patrolled.

## Plans for Concerted Attacks

Mayor Thompson's decision to request the aid of state troops was reached after his secretary and Gen. Dickson had gone through the zones where whites and negroes had clashed many times since Sunday and he had received reports from private investigators who told him that many small athletic clubs were arranging to make a concerted attack on negroes.

Gen. Dickson reported that the situation was ominous and Chief of Police Garrity presented a tabulation of two policemen slain and 31 injured. The fire chief told the mayor that firemen had answered 40 alarms for fires in negro homes. With this information at hand the mayor hastily telephoned Gov. Lowden and General Dickson to order the soldiers on duty.

## Rioters Flee When Troops Arrive

As the soldiers swung with steady stride into the riot area, the rioters disappeared as if by magic. Some of the gangs sped to territory hitherto uninfected by terrorism and resumed their unlawful occupation, but most of them retired for the night. Rain aided in driving them to cover.

By 3 o'clock in the morning, all was quiet in the troops-guarded territory.

## Battle for Two Hours

The most serious riot of the night took place at 53rd and State streets, where 200 policemen fought nearly two hours a crowd of negroes, firing several hundred shots before the rioters were subdued and 45 of them arrested. It was only after the patrolmen had chopped their way into some of the buildings and seized a dozen snipers with their rifles and 500 cartridges that the fighting ceased.

as the police charged the barricaded negroes, all the rifle fire resulted in the injury of only one person, Patrolman Emil Johnson, driver of a patrol wagon. He was shot as the police men dashed up to the scene and thereafter the bluecoats kept in the shelter of their vehicles while approaching the row of houses.

## Soldiers Captured Negroes

Before the troops had all been assigned there were some minor clashes. The first melee occurred in front of the shop of the motor transport corps at 51st street and Washburn avenue. Nine negroes, armed with revolvers fired promiscuously, but hit no one. A squad of soldiers soon came up and gave chase, capturing the negroes after firing several shots. Ten revolvers and several razors were taken from them.

## Five Whites Arrested

The first arrests made by soldiers were those of five white men whose automobile was searched because of their rowdiness, and found to contain a revolver.

While the soldiers were taking their stations, a crowd of whites surrounded the home of John Coles, a negro policeman in Englewood. The house was severely damaged before other policemen came to the rescue.

## Troops Guard Postoffice

Federal officials hinted today that troops would be asked to surround the postoffice, affording protection for employees of both races and guaranteeing delivery of mail. Failure of 1000 chauffeurs, carriers and clerks to report for duty yesterday, was declared by Postmaster Carlisle to constitute interference with the mails.

## Negro 102 Years Old Arrested

Sanford C. McCoy, colored, who told the police he was 102 years old, probably was the oldest person picked up by the police as a suspect in the roundup of rioters. He was disarmed of a loaded revolver, and warned to go to his home.

## Woman in Man's Attire

A white woman, dressed in man's clothing and carrying a pistol, was arrested. She told the police she was on her way to a railroad station and had donned male attire through fear of rioters.

Leaders among the negroes of Chicago met last night in an effort to discover the real causes of the race riots and to devise means of ending the disorders. Resolutions were adopted advising negroes to be the first to cease acts of violence.

## Negroes Wreck Shoe Store

Rain today dampened the spirits of even the stragglers remaining about the riot areas, for they disappeared without waiting the appearance of a soldier.

Before rain negroes wrecked the windows of a shoe store in East 35th street, owned by a white man, and carried away a quantity of shoes.

With the coming of daylight it was discovered that rioters in a number of streets on the South Side had stretched steel cables across the pavements with the evident intention of preventing the fire department from answering alarms and perhaps wrecking the apparatus. There were a number of fires in houses occupied by negroes during the early morning hours. The police believe they were started by white rioters.

## DECKER RELEASED

PATERSON, N. J., July 31.—Lester Decker, who had been held pending investigation into the death of his 20-year-old fiancée, Miss Mabel Harris, whose body was recovered from the Ramapo river, was released today. County Prosecutor Dunn reported that an autopsy showed that the girl had met death by drowning and that there were no marks of violence.

I am Alex Valentine, the dissolute "rounder" in "OPEN YOUR EYES." My career is closely interwoven with the lives of Frances Forrester and Suffering upon one girl, and was about to wed my stamp-believes "Silence is Golden!" But will YOU?

## Thin People Need Bitro-Phosphate

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances

Take plain bitro-phosphate is the advice of these physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensively and is sold by A. W. Davis in Lowell and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by sup-

Georgia Hamilton, the wonderful "mole" girl, who was once thin and frail, says: "Bitro-Phosphate brought about the magic transformation. I gained 15 pounds and never before felt so well."

plying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance, the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's hospital, recognizing its merits by its use in ever increasing quantities. Frederick Koile, M.D., editor of New York Physicians' "Who's Who" says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anaemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-Phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION:—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

Serathol Is Fine For Indigestion Says Dr. Parrish

Since the publication of Dr. Edward Parrish's recommendation of ordinary Serathol for indigestion, gas, acidity and dyspepsia, it has won instant favor with scores of dyspeptics all over the country.

When you have that "big lump in the stomach" feeling, or bricking gas or bad breath from an upset stomach, just take a little ordinary Serathol, wait one minute by the watch and you'll probably say what others have said: "Serathol works like magic!"

At any rate it is perfectly harmless, pleasant to take and can be obtained at trifling cost from A. W. Davis in Lowell and all all druggists.—Adv.

## GET \$40,000 FOR MAYS

Three Yankee Players Thrown in—Scott Perry May Come to Boston

BOSTON, July 31.—The trade by which Carl Mays, a pitcher of the Boston Americans, was transferred to the New York Highlanders took rank today among the biggest transactions in the history of baseball. An official of the Red Sox stated that the Boston club received \$40,000 in cash for Mays, in addition to Pitchers Alvin Russell and Robert McGraw and a third player to be chosen later. An estimate of the trading value of the three latter players placed the amount at \$15,000.

It was understood that Derrill Pratt, second baseman of the New York team, was the most likely choice of a Boston club among six players available. With this choice exercised, the Red Sox management is expected to consummate a deal now pending which has as its object the acquisition by Boston of Scott Perry, pitcher of the Philadelphia Athletics. Boston probably will offer Pratt and another player, with \$15,000 for Perry, it is said.

## PHIL JOHNSON SUSPENDS PITCHER

CARL MAYS—TRADE IS BLOCKED

CHICAGO, July 31.—Carl Mays, who was traded yesterday by the Boston Americans to the New York Yankees, has been suspended indefinitely by B. B. Johnson, president of the American League, as the result of his desertion of the Boston club in Chicago, July 12. Mays had a three-year contract with Boston, and when he left the club, he broke this contract, Johnson declared.

If you wish to know whether stock in an oil well or a mine is worth the paper it is printed on, observe whether it is offered to bankers or laboring men.

Three Other Bouts  
Crescent Rink Friday Night

## BOXING

Young Kloby vs. Johnny Donovan  
O'Sullivan Park, Lawrence  
Saturday Afternoon  
Tickets at "Bob" Carr's, Central St.

## MOY AND CLINTON MEET HERE TOMORROW NIGHT

The Crescent A. A. will stage a classy ring attraction tomorrow night at the Hibernia rink, when Eddie Moy of Allentown, Pa., and Johnny Clinton of New York, two of the leading heavy-weight fighters of the east, will meet in the main bout of 12 rounds. There is great interest in the bout, not only in Lowell, but in Boston and surrounding towns. The pair battled through 12 previous rounds in Boston a short time ago, and fans who saw the main event that it was one of the best of the season. Both men have trained diligently for the bout, and their managers announce that they are in the pink of condition. Jimmy Gardner, the "pride of Lowell" will be the third man in the main event. Matty Carney will officiate in the other bouts, which will include two light-round numbers and one six-round affair. One of the most promising boys seen in action this season will meet Willie Green of Boston in one of the eight-round events. Young Criddle of Lawrence and Charlie Elkins, the Boston southpaw, will perform in the other. Jim Jones, of the Hibernia club and Young Fox of the R. & M. car shop will entertain in the opening number.

## Kloby vs. Donovan

Young Kloby, the famous K. O. king of the Yankee Division, who has set up a wonderful record since returning to his country, will meet Johnny Donovan of Boston in the main bout of 12 rounds at the Lawrence ball park on Saturday afternoon. There is much interest in this set-to, for the pair met at a short time ago in Boston and while Kloby won, up until he put over his famous sleep producer, Donovan had the advantage. Donovan claims that he gave away too much weight to Kloby in that battle, and as he has added several pounds he will be in better condition for the coming fight. Friends of both are confident of victory and are ready to back their favorite to the limit. There will be three other bouts. Local fans may secure tickets at Bob Carr's, Central street. Special cars will run from Lowell for the fight.

## CHAMPIONSHIP TENNIS

NEWTON, July 31.—Championship tennis was expected at the Lakewood "Cricket" club when William M. Johnston of San Francisco met L. Morris Williams, former national champion, in the challenge round for the Longwood bowl today. Johnston, who won the club trophy in 1918, had two more chances to win in order to retain possession. Williams won the right to challenge by defeating Richard Hurie in the tournament finals yesterday.

Both players specialize on a close to the net game.

**SPECIFY Firestone Gray Sidewall Tires** when ordering your car and make every mile you drive a pleasanter, easier, less expensive mile. You'll know the feeling of confidence that really dependable tires bring.

Most miles per dollar is a simplified statement of Firestone economy. It means the greatest return on your investment, the biggest value for your money.

The faithful service of the Firestone Gray Sidewall Tire has been the talk of car owners for the past year. It means fewer tire troubles, less annoying delays, less upkeep expense.

That a more liberal mileage adjustment is in effect is only an additional reason for riding on—

## The Call-'em

Although it would have pleased many people and ball players, too, if the remainder of the season as punishment for desertion while under fire, nevertheless, there cannot be any great amount of criticism over the deal which takes him to the Yankees in exchange for Russell and McGraw and a good sized chunk of cash. The American league never would have been able to live down its reputation of unfair dealing if Mays had been allowed to go to the White Sox, no matter what the price. The Yankees are willing to play. The Yankees are slumping and are not seriously figured as pennant contenders and it is not generally thought that Mays will supply the necessary winning punch. Of the candidates of Pitchers Russell and McGraw, little has been said, but at least they will be of some use and Derrill Pratt certainly was not.

## Only Ten More

With Seybold's American league home run record in his hip pocket Babe Ruth now sets sail over the trail blazed long years ago by Buck Fournier. To equal Buck's mark the Boston battering ram needs to pole nine more circuit swashes between now and October, or ten more to create a new world's record. He is sure to hang up stand for seasons to come and many people firmly believe he will eclipse the greatest slugging record of all time.

## What's a Kibler or Two?

One of the most sensational "come-backs" unfolded in the big leagues for some time is that of Carl Wellman, tall southpaw of the Browns. Two years ago when the left-hander underwent a major operation resulting in the removal of one of his kidneys, it was believed his baseball career was ended.

## A Handy Pair

No two players on any club in either major league are as valuable as the team more this year than Ty Cobb and Miguel Vach of the Detroit Tigers. They are hitting better than ever and with speed to help out a bit now and then, constitute a terrible pair.

## A Couple of Perils

Japanese domination of the United States tennis championships and the peninsula of Shanghai are two menaces that are interesting the American public. The tennis peril, as embodied in the person of the diminutive Ichika Kikumaru, is not unfavorably exciting Yankeeedom, which has blackly taken the little Oriental to its bosom and made him a regular fixture in the United States ranking committee. Kikumaru has been said, but at least he had not taken out his citizenship papers. Kikumaru was ranked fifth in the United States in 1918. Last year he tried to adapt his game to American theories and failed, playing an inferior game, all reports indicated. This year he has gone back to his old specialty of back-court play, improved and strengthened, and has thus far swept through his opposition unscathed.

## AMATEUR BASEBALL

The Bellevues and Matthews will clash on the South common Saturday afternoon at three o'clock and as both teams are in the running for the city championship some classy baseball is sure to materialize before the issue is decided. Both teams have been constantly strengthened throughout the season and the rival managers are well satisfied with their respective lineups, which will be announced later.

## AMERICAN SPORTS TAKE 16 JAPANESE KILLED AND 18 WOUNDED

PARIS, July 25. (By mail).—American sports, basketball and army mass games have been played for the first time in Africa at Tunis and Algiers this year and have been adopted enthusiastically for Yankee athletics was carried to the French colonies in Africa by the returning colonial soldiers who learned the games in France under instruction of Y.M.C.A. athletic directors with the Foyer du Soldat.

When the colonials were returned to Africa the French war ministry asked the "Y" to send to Tunis and Algiers four athletic directors for permanent work at the army posts there. This being impossible, the "Y" sent Charles Jones, a Harvard athlete and professional coach in the state at Worcester academy, to spend six weeks in each of the two African cities to train basketball in basketball, mass games and basketball. Jones had been teaching at the French army center of physical instruction at Joinville, near Paris, and at Algiers found a number of "monitors" who were to be their army athletic instructors, whom he had trained in American games at Joinville. They were already playing our games. Secretary Jones was able in six weeks at each army post to organize the sports on a permanent basis, commence a basketball series, basketball tournaments and programs of mass games.

The Arabs were intensely interested, the colonials enthusiastic. And the French army officers and soldiers delighted with the new method of play. The sporting instinct in their natures responded to the call of the bat and the ball. The games are by all odds to stay, so the French officers say.

## FISH AND GAME CLUB PLAN BIG OUTING

The executive committee of the Lowell Fish and Game association held a meeting last evening and transacted considerable business, the most important of which was the voting in of 15 new members and the appointment of a committee of twelve to act in conjunction with the executive committee in arranging for the annual outing to be held at Willow Dale in September. William Burke of Lynn was elected chairman of the committee and the latter gave promise of being the best in the history of this rather young but active and progressive association. The speakers at the outing dinner will include the governor, or his representative, the mayor and other well known men, including Congressman Rogers who is an enthusiastic member of the association and one who has done a great deal to assist in the work to which the association is devoted, that of protecting streams and covers, enforcing fish and game laws and protecting migratory birds, etc. It is to be hoped that the new members will have been installed in this city and in Lawrence before the date of the outing and dinner in order that the outing may be complete.

## FREIGHT STEAMER RAN AGROUND

BOSTON, July 21.—The freight steamer Lake Ogden, bound from South American ports, ran ashore on Cross Bay shoals in Vineyard sound late last night and redoubled without assistance early this morning. The cutter Osprey had been ordered to assist the stranded ship but was recalled.

TOKIO, Monday, July 25.—(By the Associated Press).—A second official statement on the incident at Kwang-Chang-Tau places the Japanese losses at 16 officers and men killed and 18 others wounded. (No previous report of the incident has been received. The place mentioned presumably is Kwang-Chang-Tau, about 100 miles west of Kiriin in Manchuria).

## NO REFERENDUM VOTE ON PROHIBITION

LANSING, Mich., July 31.—A referendum vote on ratification of the federal prohibition amendment cannot lawfully be held in Michigan, Attorney General Goesschek has ruled in advising the secretary of state not to accept initiatory petitions to that end filed by the State Hotelmen's association.

When James P. Rock of Central Village, Conn., went to his barn to get his horse he found the stall empty, and eventually found the horse in a dark corner of the hayloft, reached only by a steep flight of stairs. To get him down he had to cut a hole in the side of the barn and lower the horse with a tackle.

## ASK WILSON TO ACT TRIAL BY HIGH COURT OF

Cut Cost of Living or Grant Wage Increase to Locomotive Engineers

WASHINGTON, July 31.—Request that some action be taken by the government to reduce the increased cost of living was made of President Wilson yesterday by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, and a number of other officials of the brotherhood, who called at the White House.

## Action or More Wages

The alternative of governmental action to force down the cost of living, or a demand by the railroad engineers of the country for another increase in wages, was presented to President Wilson by Mr. Stone, and members of the brotherhood's advisory board.

Detailing conclusions reached by the advisory board at its recent meeting in Cleveland, Mr. Stone in a prepared statement read to the president, declared that while the railroad engineers found themselves "obliged to again request an increase to meet the mounting cost of living," they were of the opinion that "the true remedy for the situation and one that will result in lifting the burden under which the whole people are struggling, is for the government to take some adequate measures to reduce the cost of the necessities of life to a figure that the present wages and income of the people will meet."

The brotherhood board outlined no plan of action for the government to take beyond saying it was believed "that this situation is brought about mainly by conscienceless profiteering by the great interests who have secured control of all the necessities of life."

President Wilson, it was said at the White House after the conference, which lasted half an hour, was much impressed with the statement presented, and promised to give serious consideration and study to the question of what the government might be able to do.

Previous to their conference with the president the brotherhood officials conferred with Director-General Hines, who expressed sympathy with their request that governmental action be taken to lower living costs.

The president was told by the brotherhood board "that a widespread spirit of unrest exists among all classes, especially among wage-earners whose wages will no longer provide adequate food, shelter and raiment for themselves and families."

## SAYS NATION FOR LEAGUE

Chairman Cummings Discusses Politics With President Wilson

WASHINGTON, July 31.—Homer S. Cummings, chairman of the democratic national committee, discussed with President Wilson yesterday the political outlook for 1920, the attitude of the country toward the peace treaty and the League of Nations, describing his observations during his recent two months' trip through 14 western states.

The conference, which lasted more than half an hour, was the first the national chairman has had with the president since last December. Mr. Cummings refused to discuss the possibility of Mr. Wilson again leading his party in the 1920 election and would not affirm or deny that this subject was broached during the conference.

Chairman Cummings said he told the president the country was overwhelmingly in favor of immediate ratification of the treaty and its League of Nations covenant without change or reservation. As to the political situation, Mr. Cummings was understood to have been emphatically confident.

Many matters of party interest were understood to have been taken up and policies and legislation considered from every conceivable angle.

The president was said to have outlined to Mr. Cummings the tentative itinerary of the trip he will take through the country to give the people an account of his stewardship at Paris. The proposed trip was understood to have received the chairman's approbation.

In no state he visited, Mr. Cummings informed the president, did he find a majority of the people opposed to the League of Nations. On the contrary, he said, if the people had an opportunity to vote on the question today, a 10 to 1 majority would be given in favor of the immediate ratification of the league and the covenant without change for reservation.

In California, the home of Senator Johnson, one of the leading opponents of the League of Nations, he said he found the sentiment four to one in favor of the league.

## PROMINENT NAVAL VETERAN DEAD

BOSTON, July 31.—Lieut. John Paul O'Neill of the naval recruiting service, who as chief boatswain O'Neill was a active figure in the campaign to stimulate recruiting in New England, in the months immediately following the United States' entrance into the war died at the naval hospital at Chelsea today. O'Neill at 34 years was a naval veteran of 16 years standing. In 1905 he evolved a plan for mooring battleships that was adopted by the navy department.

## R-34 CIRCLES OVER LONDON

LONDON, July 31.—The giant British dirigible R-34, which landed at Fillingham, Norfolk, on July 12, after making the first transatlantic dirigible flight, left there yesterday for East Fortune, Scot., the point from which it started for the United States.

The R-34 circled over London at low altitude during the trip and was seen and cheered by excited crowds.

## AMUSEMENT NOTES

## THE STRAND

The heroine in "My Little Sister," with Evelyn Nesbit in the leading part, pictured at the Strand today, is an innocent young girl who is lured with her sister into a house of ill-fame and, although she escapes, the police cannot be stirred into action for the rescue of the sister who remains in the house because they are hampered by rules and regulations. If nothing worse, so, this girl is lost forever to the world. Evelyn Nesbit gives a vivid portrayal of the beautiful girl caught in the net of the white slavers, and later strives in vain to save her sister. It is a heart-gripping story, as pitiful as it is true. The story is made from Elizabeth Robins' novel of the same name, which had such tremendous circulation not long ago. Miss Nesbit, who has the principal role, has never done anything better than in this tense drama.

Evelyn Nesbit, who has contributed specially fine acting in recent months, will be presented in "Fools and Their Money," a clever satire on the newly-rich. This story presents much of heart interest, and humor elements, and these are adroitly blended. It is almost pathetic to see those who have

but recently acquired money, living at cross purposes. Father is content to remain democratic, but mother wants to climb the social ladder. The gist of it all centres around a real society girl who is masquerading as a servant in the home. In addition to these two splendid pictures there will be shown an international news and a comedy, and there will be singing by Miss Elford and an overture and incidental music on the organ.

## "OPEN YOUR EYES" SPECIAL STORY ON GASTON GLASS AT MERRIMACK SQUARE THEATRE

Gaston Glass, who plays the role of "Alex Valentine," the Broadway "rounder" in "Open Your Eyes," the dramatic photoplay coming to the Merrimack Square theatre next week, has had a meteoric rise to fame. Glass, who is a modest sort of chap, was an art student in Paris when the war broke out. Enlisting in the French air service, he became an "ace" only to be so badly wounded after two years of fighting in the skies as to be discharged from the service. The immortal Sarah Bernhardt took the young man under her wing and he came to America as an actor in the Bernhardt company on her last tour.

While in this country the movie "bug" stung Glass, and he did not return to France with the rest of the company, but went to work for a large motion picture company instead. He was leading man for Marguerite Clark in several of her productions, and when, shortly before the armistice was signed, the Warner Brothers were called to Washington to prepare a photoplay under the supervision of the public health service of the United States government he was chosen to create "Alex Valentine." His success in that role shows the wisdom of this choice.

## LAKEVIEW PARK

Thursday is one big day at Lakeview park. Miner-Dwyer's band, Kings and Dancer Horns are the reasons. Hear them every day.

## TO SALVAGE GERMAN SHIPS

LONDON, July 31.—One battleship, three light cruisers and 15 destroyers of the German grand fleet, which were scuttled by their crews at Scapa Flow in the Orkney Islands on June 22, are ready to be salvaged. It was announced yesterday in the house of commons.

## RISE IN PRICE OF MILK

Local Dealers to Charge 16 Cents a Quart and 9 Cents a Pint

Beginning tomorrow the price of milk at retail in Lowell will be 16 cents a quart and nine cents a pint, according to a decision reached last evening at a meeting of the Lowell Milk Dealers association. Last winter milk sold here at 16 cents a quart but dropped to 14 with the advent of warmer weather. The advance is caused by the producers asking a higher price for their goods and the latter, in turn, place the blame on the drying up of pastures and other items

which enter into the general expense of producing milk.

From now on Lowell people will pay the same price for milk that Boston people are paying and it was agreed by the dealers last evening to maintain the local price the same as that in Boston, whether the latter increases or decreases.

The dealers will pay the producers 10 cents per quart for milk or 35 cents for an eight and a half quart can. Formerly they paid 9½ cents per quart and 30-35 cents for the eight and a half quart can. The dealers say that they did not know just what increase would have to be put into effect until the written demands of the producers were received last evening. The meeting was held in Odd Fellows' building and was largely attended.

Mother is an ardent prohibitionist, but she thinks it has taste of congress to prohibit the making of a little blackberry wine at home.

It's Simply Good Sense

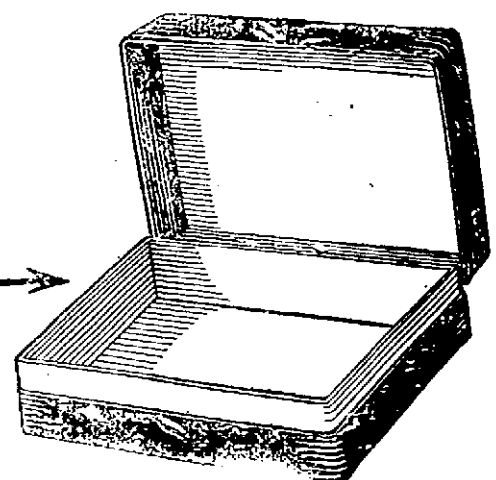

This is the inexpensive

and attractive machine-made paper package which is responsible for the low price of the LORD SALISBURY TURKISH Cigarette.

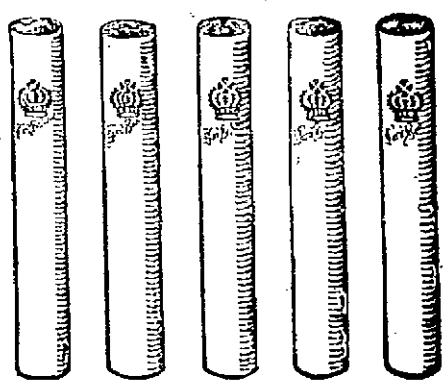

This is the expensive

hand-made cardboard box which is responsible for the high price of other brands of Turkish cigarettes of our own manufacture as well as the manufacture of others.

These are the 5 extra

TURKISH cigarettes which you get in buying LORD SALISBURY as compared with other high-grade Turkish cigarettes.

20 cents for 15 cigarettes

## NATIONAL ADVERTISING

Advertised goods are usually more reliable and as a rule the values are better than goods not advertised. Part of the system of carrying on a campaign of advertising an article that is to be pushed, is included in the benefit it is expected may accrue by creating good will and a good reputation for the article.

This is equally true in local or "nationally advertised" merchandise. "Well advertised" merchandise is usually worth while in every respect. Its advertising campaign is a benefit to every merchant who carries a stock of the article advertised. The experience of most advertising men shows that when the shopper is "impulsed" to go to a certain store to buy an article advertised in such a campaign, the chances are more than even that he will buy other things at the same time.

The national advertisers pick the "live one" in every city and this is one of the reasons you find them selecting

Lowell's Greatest Newspaper

### FIRST STREET DISGRACE

Early this summer, when it seemed probable that the work of diverting First street to make it a part of the Lowell-Lawrence state highway would be started within a short time, or at least, when it became known that the proposed plans were acceptable to all parties concerned, an agitation so to construct the new road as not to interfere with the First street dump, so-called, received general notice. It was the belief of many people that the city might well take over that plot of waste land on the river bank and create an athletic field and recreation park thereon. The idea received very general approval but the state highway commission pronounced the idea impracticable from the standpoint of the construction of the road and it gradually passed out of the public mind.

After several months of inactivity, now comes the statement from the city engineer and a representative of the engineering force of the highway commission that they do not believe the work will be started this year. The old roadway remains as bad as ever and we have no centrally located recreation field. We believe that the entire blame should be laid at the now closed door of the highway commission. It fears a loss of individuality which may come through a proposed merger of several state organizations, including the highway, rivers and harbors and Metropolitan park commissions and, therefore, much prefers to "pass the buck" rather than to do any work for which it may not receive full credit.

The question now arises as to what our city officials can do about it.

County Commissioner Barlow took pains to see that the county provided an appropriation to meet its quota of the expense and the city of Lowell did likewise, but the state highway commission that under the usual arrangement was to do the work has flunked. Is there any remedy or any way by which the work so greatly needed may be started so that our city may be relieved of the disgrace of that rough and dangerous section of highway on First street?

Verily somebody at city hall if not the board of trade and citizens in general, should register a vigorous kick against this delay on starting work on the First street boulevard.

### RAILROAD CROSSINGS

Way back in 1913 a Massachusetts court submitted a finding that public convenience and necessity required the abolishment of the Middlesex street, Western avenue and Fletcher street grade crossings at Lowell, but that the financial condition of the Boston & Maine railroad at that time would not permit of such an expenditure of money and therefore, action would be held in abeyance until such a time as the company was financially strong enough to undertake the work. That was six years ago, but from that day to this not a single constructive step has been taken.

The finding of the court substantiated the outlined plans of the city of Lowell, which at first only embraced the abolishment of the Middlesex street crossing, but which later were developed to include the Western avenue and Fletcher street grades.

Presumably the six years which have elapsed have not been sufficient to allow the railroad to replenish its depleted treasury and possibly Lowell may expect some action when in the mind of the road the resources warrant it, but we seriously doubt if the corporation will act on its own initiative. It will submit to considerable prodding before it takes up this work and

such prodding may as well start now if we of the present generation desire to see these grade crossings abolished.

When the project first was brought forward the estimated cost to the railroad was in the neighborhood of \$800,000, but this sum in the six years which have elapsed has shrunk perceptibly in purchasing power, and it is safe to say that if the crossings were to be done away with today, according to the present plans, the expenditure would be well in excess of a million dollars. This consideration will stand as an obstacle to early action in the undertaking.

### FOR CHEAPER FOOD

It has seemed to us that a suggestion contained in the Daily News Record of New York, concerning a very great trouble we are experiencing in this country at the present time, is very much worth while.

Referring to the oppression of the high cost of living the Record has said: "The root of the trouble is not the government guarantee of \$2.26 a bushel for this year's wheat crop, but the fact that the government will not allow wheat to be sold at a low price. The farmer will get his \$2.26 but for some reason the government will not let the people have cheap wheat and charge the difference to the cost of the war. If wheat were \$1.26 a bushel down would come the price of corn, the price of meat, poultry, butter and eggs, every one a staple article eaten by the masses. It is the artificial price of wheat that keeps an artificial price on corn and other grains and in a measure also on beef, pork, poultry and eggs."

The Record says:

"It seems to be a penny wise and pound foolish policy this apparent determination that the great guarantee to the farmer shall not take money out of the United States treasury. No account whatever is taken of the billions of dollars that our people have to pay for their food in excess of what they should pay, and in excess of what they would pay if wheat price was reduced and the government loss taken, and charged off to the war."

"Perhaps some cabinet officer, says Secretary Lane, who has shown extraordinary common sense in what he has said and what he has done, might bring before congress in his convincing way the good which would come, and so compel the passage of a bill which would do more for all of the American people than any other which could be devised."

The problem of the man in the street today is how to feed, clothe and house his children when the cost of living threatens to go so far ahead of what he can earn.

The suggestion of the New York paper seems reasonable, but apparently such sentiments do not prevail in congress.

### RACE RIOTS

It is most regrettable to find race riots raging with such fury in Chicago following the outbreaks at Washington. The negro race in the recent war performed its duty fully as well as any other class of citizens and Chicago is the last place that should assail any class as undesirable. The negroes are here and have a right to live here. The nation poured out its blood in the Civil war to free them from slavery and it is not to our credit as a nation today to find the negroes abused in any of our large cities or anywhere else within the boundaries of the nation. What we should do is to help the negro to a higher plane of intelligence and better citizenship. We do not believe, however, that the negroes have been responsible for the recent outbreaks of racial hatred. The government should stamp out race riots wherever they appear and it is decidedly dangerous to permit

them to spread. Already they stand as a disgrace to the nation and steps should be taken not to permit such a calamitous state of affairs as reported from Chicago to exist anywhere in this country.

That there should be such a formidable list of wounded and killed is not creditable to the Chicago authorities. The state troops should be allowed to make up the shortcomings of the police department, but apparently although in the city the troops were held in barracks during the time the worst of the riots were in progress.

Principal John J. Mahoney of the local State Normal school is recognized throughout the country as a leading authority on the best methods of Americanization not only through the schools but through social and industrial agencies. It is gratifying, therefore, to those who have known his ability in this line and who have read his book on Americanization to learn that he has been engaged by the Massachusetts chamber of commerce as one of the leaders in this important work in Massachusetts. Mr. Mahoney is at present giving a series of lectures before the summer school at Harvard for the benefit of teachers and organizers in Americanization work. His new duties will occupy most of his time for the coming year so that it may be necessary for him to obtain a leave of absence as principal of the Normal school.

We note that the situation regarding alleged cruel and inhuman treatment of American boys under punishment in the American army's prison camps in France, has switched around now so that Lieut. "Hard Boiled" Smith says the original orders to torture prisoners came from Brig. Gen. William W. Harts, commander of American troops in the Paris district. Evidently nothing had hitherto been heard of Gen. Harts being out in the territory where a Boche bullet might accidentally interfere with the activity of his mind. If the charges made by Smith against General Harts be true, it is difficult to reconcile his conduct with the usual disciplinary methods of the American army.

Perhaps, as the New York shoe and leather merchants proclaim, the present soaring prices of leather indicate that in October a good pair of shoes will cost you \$30, but we refuse to subscribe to it. Moreover we have a hunch many New York toes may have intimate acquaintance with New York cobbles, if the \$30 price really appears.

We know of no finer thing bestowed on helpful but non-combatant individuals who had a share in the war, than the certificate which the war department announces it will award to employers who take back all their men returning from service and whose wording says the certificate is given for "decency and honor."

Harvard is asking her "grads" to chip in now and make it possible for more business and scholastic ability to be turned out, and by present accounts they show a good disposition to slip their alma mater that \$10,000,000 she says she has got to have.

There were all kinds of news in The Boston Globe yesterday, good, bad and indifferent, but for women folks perhaps, there was nothing more valuable than an item a reader contributed for the household page wherein she told how she had canned beans for three years and never lost a single jar.

It strikes us that the republic of France might have made the United States a somewhat more generous offer for the military property of the United States now in that country which consists variously of docks, railways and real estate. The French believe we should sell it to them for one-fifth of its cost.

The service men experience two Christmas holidays this year, the first of which may be said to be tomorrow when the state treasurer starts sending out the \$100 bonus checks, each one of which will without doubt be gladly and gratefully received.

Now they offer \$25,000 for Pancho Villa, dead or alive. Who would suppose a hundred and fifty pounds of yellow was worth so much?

We expect each day the kaiser's mind may approach a conclusion whereby he will at last realize he was not really a superman. He was just a superfluous.

Hard times in Massachusetts? No, not by a long shot. The record shows 150,000 new automobiles have been registered in this state since Jan. 1 and 1919 is only six months old.

## SEEN AND HEARD

Somebody who knows something about oiling streets may sometime meet somebody who has something to do with street oiling in Lowell and tell that somebody how to do it.

Bang! An automobile tire busted. The machine was standing at the curb and a nervous man standing on the sidewalk jumped through a plate glass window. Now it is up to the court to decide who shall pay for the window.

That poor boy of Henry Ford's, according to testimony at the Ford trial, was only receiving during war time the sum of \$75,000 per year. Must be hard to keep up appearances on such small pay.

When Jimmie Mercuryfoot's brother came home from the war and received his discharge at Camp Devens he blew into Jimmie's apartments. "Well, Jimmie, old top," said the returned brother, "how goes the battle?" Jimmie looked admiringly at the brother who had been over there and who had done his bit. "Oh, pretty good," said Jimmie, "but don't forget, brother, that all the battles of life are not fought with beating drums and booming cannon."

### The Nut Season

Getting sunburned is right stylish now. Nut season doesn't begin until fall. It takes that much longer for the tree species to tan. Scientists are testing away a lot of good thought and time on other subjects, when they're straphanging right next to a popular problem. Why do folks willingly nominate themselves to get sunburned? They aren't satisfied with letting the sun skid along up in the sky, but invite it down on their necks, shoulders, and arms. Then once everything that comes in listening distance, they'll sentence themselves to a lot of sunbaked punishment, lay low to enjoy the broil again, then steer themselves in sun focus again just to get sunbaked up in an enlarged freckle. After all, which side of the bars are the monkeys on?

### Such Is Life

The country folks spend their vacations running around crowded cities, and the city cousins forsake the comforts of the avenue mansion for the tumbledown "Boarders Taken In."

Suburbanites hardly can wait of a Sunday morning to motor in to the city's park for a day's restful recreation, and half way in they meet the city family hovering out to the dustiness of a rural picnic ground.

John Blinks, who is married, wished he wasn't, and John Jinks, who isn't, is worrying the life out of his lady friends proposing to them.

Mother will scold her Willie all day long, but let Mrs. Next-door intimate Willie isn't quite the angel child he ought to be, and the fur does fly!

Most people would as soon witness a divorce proceeding as a wedding ceremony.

All the world loves a lover, but laughs behind his back.

We encourage matrimony and then turn the newlyweds over to the mercies of the landlord, the grocer and other high cost of living Robin Hoods.

We pick a shoveler because he knows how to shovel, but we choose a congressman because he can shake hands well.

We preach learning to our youngsters and then pay a baseball pitcher ten times the salary of a college professor.

And in Big Business "honesty is the best policy" unless you can get away with it.

We yell our heads off because milk is 15 cents a quart, and yet we'll haul the promoter who sells us a scrap called off stock worth less than white paper.

We send men to congress who fill their cellars with booze and deny the working man the privilege of getting a glass of beer.

We make it hardest for those who need food most to get it and pile it high on the plate of the satiated stomach.

We're all so equal that we charge the 100-pounder no more than the 200-pounder when we carry him in the passenger car. Via freight it's different.

When a fellow refuses to agree with us, he's stubborn, but when he does, he has no mind of his own.

But such is life, and no doubt that is one of the reasons why life is such.

### Education

(Copyright, 1919, N.E.A.) As far as Arnolds are concerned, perhaps H. Ford has never learned which one was Ben and which was Mat. But some folks say that he's some sage in fixing on a living wage.

What history taught him that? His information is so scant. He runs the modern wonder plant. A think the world has marveled at: And yet he seems to have a plan of fair play to his fellowman.

What grammar taught him that? And any dunce who's been to school. Or any educated fool. Can mix his dates and floor him flat. Can gibber at his foolish dad. That he is wrong and bloodshed's bad.

What Bible taught him that? An ignorant idealist he! So he gives back to you and me His total profits of the war. So recent a profiteer. Can never know, it's crystal clear. What educators fear!

—Edward Vance Cooke.

## ONLY TREATMENT THAT GAVE RELIEF

Suffered Three Years Before Finding "Fruit-a-lives"

CENTRAL WHARF, BOSTON, MASS.  
"For three years, I was troubled with Constipation, accompanied by Dizziness and Violent Headaches. I took medicines and laxatives, but without permanent relief."

Last October, I heard of "Fruit-a-lives" or *Fruit Liver Tablets*. I used one box and the results were so pronounced that I bought two dozen boxes.

I continued using "Fruit-a-lives" until the twenty four boxes were finished, when my physical condition was perfect." JAS. J. ROYALL.  
50c. a box, 6 for \$2.50, trial size 25c.  
At dealers or from FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

## MAN ABOUT TOWN

Do all the city's ministers have a chance to enjoy a much longer vacation at the seashore or mountains than the average person in their flocks? I wouldn't say so. I had a talk with one clergyman this week and he said if it was necessary to make apology because at the time he did not look like a gentleman of the cloth, some pardon might be due him from the fact that during that forenoon, he had been very busy at his home putting up string beans—several cans of them—and he said rather proudly that he had raised them himself so that, preserving them for next winter represented a very profitable operation in its entirety. I understand Lowell in fact has many parson gardeners whose gardens are a credit to them.

Teaching the vernacular to non-English speaking immigrants is regarded as one of the most important phases of Americanizing them and their children, in order that they may not be left astray by bolshevism and other isms harmful to themselves and to the country. As these alien students mingle with their American born neighbors and listen to their speech they must be somewhat puzzled at the difference in the language as used by these neighbors and that taught in the schools. The chief offenders against decent English are in two classes: the men ignorant of their own tongue who resort to profanity or vulgar slang, and the women who characterize everything as "swell," "great," "fawful" and other superlatives excellent in their proper place, but decidedly inelegant as used. It seems to me, we can all do our bit for Uncle Sam by keeping a closer watch on our tongues as we go through the daily routine.

When the new homes of the Merrimack River bank and the Old Lowell parks are completed and ready for occupancy, they will artistically grace the streets upon which they front, but will look like two orchids in a cluster of dandelions. Possibly this added prominence gained through glaring comparison with nearby and adjoining buildings is what the bankers are seeking, but whether they seek it or not, they are going to get it, sure as shooting. Of course the more new and modern structures erected, the fewer grow the homely arks, but what we need is a wholesale investment in new real estate down town—buildings planned along 1919 lines, inside and out, rather than the old hitching post, watering trough type of our grandfathers. Some of the money heirs have obtained from rentals might well be put to civic use, and I would also heartily favor a city ordinance which would allow the city to seize an undesirable building, if it becomes generally known that the owners refuse to sell for a fair amount and thus block enterprising and progressive building operations. Lowell will never have a business section worthy of the city's population and area until some multi-millionaire, philanthropically inclined, comes along and buys the whole business.

## VOTE ON CHICAGO STRIKE

15,000 Carmen Will Ballot on Wage Scale Tomorrow—Strike on Since Tuesday

CHICAGO, July 31.—Fifteen thousand surface and elevated men on strike since last Tuesday morning, will ballot tomorrow on whether to accept the wage scale agreed upon last Monday by their representatives and those of the companies and rejected the same night at a mass meeting of 6000 carmen. This scale provided 65 cents an hour and overtime of time and a half. Union leaders claim it was rejected at a meeting that was not representative and was dominated by radicals.

If the strike is settled it is expected fares will be increased from five cents to seven on surface lines, with a one cent charge for transfers, and from six to eight cents on elevated lines.

## DIDN'T KNOW HIS BOSS

Guard Held up Sec. Glass When He Tried to Enter Treasury by Front Door

WASHINGTON, July 31.—Secretary Glass, departing from his usual custom of entering the treasury by a private entrance, walked up to the Fifteenth street door.

"What do you want?" asked the guard.

"I want to go into the treasury."

"Do you work here?"

"Yes, I'm secretary of the treasury."

"What's your name, then?"

An officer of the watch about that time rescued the head of the nation's financial system who later told the joke on himself.

## FRANCE NOT TO WAIT

Plan to Ratify Peace Treaty Before Aug. 20—Discussion Opens Aug. 10

PARIS, July 31.—(By the Associated Press)—It is expected in French circles that the discussion of the German peace treaty will open about August 10 in the chamber of deputies and will continue for three or four days. There will then be a three or four-day discussion in the senate.

The suggestion that the French would not consider the treaty until the United States had acted came from opponents of Premier Clemenceau. But it is generally believed that M. Clemenceau will be able to bring about a speedy consideration.

As Japan is supposed to have a copy of the treaty by this time, and the emperor's ratification is expected at an early date, French officials are of the opinion that the treaty will become effective when the French ratify, about August 20. England has already ratified the treaty, and the signatures of only three great powers are necessary to make it effective.

One o'clock on the afternoon of August 6 is the time fixed for termination of the Austrian delegation's communications concerning the peace treaty. The Bulgarian peace treaty was taken up again yesterday by the supreme council. The Bulgarian delegation this afternoon sent its first note to the conference, insisting that Macedonia, Dobruja and Thrace must be given to Bulgaria.

### AMERICAN SAILOR KILLED

WASHINGTON, July 31.—Robert I. Simpson, Iowa Falls, Ia., was killed and another seaman injured in the explosion of a mine close aboard the mine sweeper Curlew in the North sea, the navy department was advised yesterday. Simpson was knocked overboard and his body was not recovered. The Curlew was damaged only slightly.

## New Hair Growth After BALDNESS

HAIR GROWN ON MR. BRITAIN'S BALD HEAD BY INDIANS' MYSTERIOUS HAIR GROWER

My head at the top and back was absolutely bald. The scalp was shiny. An expert said that as he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth. Yet now, at an age over 60, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs.

### Indians' Secret of Hair Growth

At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian "medicine man" who had an elixir that he stated would grow hair. Although I had but little faith, I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days.

That I was astonished and happy in expressing my state of mind mildly. Obviously, the hair roots had not been dead, but were dormant in the scalp, waiting the fertilizing potency of the mysterious pomade. I negotiated for and came into possession of the principle for the recipe put into practical form by a chemist.

That my own hair growth was permanent has been amply proved. Many men and women, also children, have reported satisfactory results from Kotaliko.

### How YOU May Grow YOUR Hair

My honest belief is that hair roots rarely die even when soiled by dandruff, fever, excessive dryness or other disorders. I have been told by experts that often when hair falls out the roots become imbedded within the scalp, covered by hard skin, so that they remain for a time like bulbs or seeds in a bottle which will grow when fertilized. Stomach troubles, indigestion, and hair lotions which contain alcohol are enemies to the hair, as they dry it, making it brittle. Kotaliko contains those elements of nature which give new vitality to the scalp and hair.

### PROVE FOR YOURSELF

Get a box of the genuine Kotaliko at a reliable druggist's or \$300.00 GUARANTEE with each box. A small testing box in tin, card, silver or stamp, may be obtained by sending your name to:

JOHN HART BRITAIN, BB-1193 Station F, New York City

## ARRESTED FOR MURDER

Ten Persons, Including Russian General, a Colonel and Several Women Held

LONDON, July 31.—Ten persons, including a Russian general and a colonel and several women have been arrested in connection with the death of Nikolai Ardashev, a prominent member of the Russian colony in Stockholm, says a message to the Exchange Telegraph Co. from Stockholm.

Ardashev is declared to have had close connections with the Bolsheviks and the Stockholm message says he probably was killed by supporters of the old regime. He was court-martialed at a villa outside of Stockholm, hanged and thrown into the sea.

## SHORTAGE OF MEN TO MAN U. S. DESTROYERS

NEWPORT, R. I., July 31.—A shortage of enlisted personnel among the destroyers of the Atlantic fleet has caused a suspension of the full power trials scheduled for several of the vessels, it was learned today. The possibility that some of the destroyers may be temporarily placed out of commission, or put in reserve, is being discussed among officers of the destroyer force, the vessels of which are now anchored in Narragansett bay.

Destroyers' crews have been depleted to such an extent by the discharge of men enlisted for the duration of the war and the reversion to inactive status of naval reserves, together with the month's furloughs granted to men re-enlisting that some crews are on a skeleton basis. One destroyer has but 40 men aboard. The condition is such that Captain Harris Lanning, chief of staff to Rear Admiral Charles P. Plunkett, commander of the destroyer force, has gone to Washington to press the urgency of the need of an increased enlisted personnel.

Harbor drills and instruction aboard the destroyers are being carried on but maneuvers at sea and full power tests cannot be held probably for a month or more. As a result it is expected the destroyer force will maintain its base in these waters until late in September.

## PAWTUCKETVILLE IS KEEN ON CELEBRATION

A meeting of the residents of Pawtucketville interested in the welcome home celebration to be given the French-speaking soldiers and sailors of this city Labor day, was held last evening in the rooms of the Pawtucketville Social club in Moody street.

Chairman Joseph Sawyer occupied the chair and considerable business was transacted. The various committees reported favorably, particularly the committee in charge of the cavalcade, which reported that no less than 25 names have been secured for that division of the parade. It was announced that the district would furnish a float for the parade, the subject to be, Foch signing the armistice at Spa. There was great enthusiasm at the meeting and all indications point to a big celebration for Labor day.

Keep in touch with local events by having The Sun mailed to you while on your vacation.

## He Quit Tobacco

This veteran, S. B. Lamphure, was addicted to the excessive use of tobacco for many years. He wanted to quit but needed something to help him.

He learned of a free book that tells about tobacco habit and how to conquer it quickly, easily and safely. In a letter he writes: "I feel like a new man." Letters of others report similarly. Wonderful for cigarette and pipe habit, and chewing.

Anyone desiring a copy of this inspiring book can get it free, postpaid, by writing to Edward J. Woods, 223-231 Station E, New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself with nicotine. In three days you can be rid of the addiction—then become robust, acquire healthy flesh, add years to your life. Show others this ad.

# DEFENDS "HARD-BOILED" SMITH

Col. Grinstead Says Army Desertions Necessitated Drastic Action

Declares Thousands of Men Ran Away From Front Lines During Battle

PHOENIX, Ariz., July 31.—Further defense of Lieut. Frank H. (Hard-boiled) Smith in his conduct of prison farm No. 2 and assertions that large numbers of American army desertions necessitated drastic action, were contained in a formal statement made public today by Col. Edgar P. Grinstead, mentioned in testimony Tuesday before the congressional committee in New York as one of the men responsible for prison cruelties.

Col. Grinstead said: "Everybody that was a soldier in France knew that thousands of our men were running away from the front lines and that had the war continued, many executions would have been necessary before these desertions could have been stopped."

Says Smith Did Duty  
He characterized as "absurd" intimations that he had made a scapegoat of Lieut. Smith. "I don't believe and never did believe, that Lieut. Smith did anything but his duty at farm No. 2," he said.

# CHILD SAVED FROM WORMS

A mother of six children writes: "My baby was very sick and a friend of mine suggested trying Dr. True's Worm Elixir. Now I have six children and am never without Dr. True's Elixir, the Family Laxative and Worm Expeller in my house." Mrs. B. N. Gile, West Newbury, Mass.

Signs of worms are: Deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly with occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short, dry cough, grinding of the teeth, little red points sticking out on tongue, starting during sleep, slow fever. If your child shows any of these symptoms, start giving Dr. True's Elixir at once.

Adv.

# To Urge Bela Kun to Quit

BASLE, July 31.—General Bochu, Hungarian soviet minister of war, has left Vienna for Budapest to urge Bela Kun to retire voluntarily according to Vienna despatches received here today quoting the Neuse Wiener Tageblatt.

# Peace as Soon as France Ratifies

PARIS, July 31.—The French cabinet approved today the proposal that peace should be considered to exist officially from the date of publication in the Official Journal of ratification of the German treaty by the chamber of deputies. It was decided that the ratification of the German treaty should be considered to mark a state of peace without awaiting the completion of treaties with other powers still at war with France.

# DEATHS

OSGOOD—George G. Osgood, formerly of this city, out for some years, died at the Memorial hospital. He was for several years a foreman in the Amesbury mills. While here he was promoted to C.M.A. work. He leaves three daughters.

ROY—Irene V., aged 8 months and 9 days, infant daughter of Edmond L. and Christina (Haganan) Roy, died today at the home of her parents, 141 High street.

THURGOOD—J. Arthur, aged 1 year and 22 days, infant son of Edmond L. and Christina (Haganan) Roy, died today at the home of his parents, 141 High street.

TYMOWICZ—Wladyslaw, aged 10 months and 2 days, infant son of Mr. and Mrs. Wladyslaw Tymowicz, died today at the home of his parents, 609 Market street.

FLANN—John Flann, an old and esteemed resident of Westford and a devoted attendant of St. John's church, died at his home in Brookside, Westford, aged 77 years, 1 month and 6 days. He leaves four sons, William J., Bernard J., Thomas E. and John L., one daughter, Mrs. James J. Savage, and one brother, Patrick Flann.

# FUNERALS

THOMASSON—The funeral of Anders Thomasson took place yesterday afternoon from his home, 142 Westford street. Public funeral services were held at the Swedish Lutheran church in Westford street and were largely attended by relatives and friends.

FLANN—The funeral of John Flann will take place Saturday morning from his home, Brookside, Westford. A funeral mass will be sung at St. John's church, North Chelmsford, at 10 o'clock. The burial will be in the family lot in the Edson cemetery, where the committal service was read by Rev. Mr. Norstrom. The burial service of the Swedish Mutual Aid society was exemplified by its president, Edward Wickstrom. The funeral arrangements were in charge of Carl G. Phil, undertaker of Westford.

# FUNERAL NOTICES

Robert E. Terrill, of Lawrenceburg, Ind., took a large amount of honey from his beehives and put it in a storehouse. A few days later it had disappeared. Mr. Terrill found that bees had carried off all the honey, having gained entrance to the storehouse through a keyhole.

# THE LOWELL SUN THURSDAY JULY 31 1919

# SEC. JOHN T. SPARKS BOTHERS TRAFFIC COP

Trouble Looms for Autoists Who Judge Parking Area Signs are for Fun

Although signs in abundance relative to the length autos may be parked in the restricted areas along Prescott street and Merrimack, between the square and the spur-track of the Massachusetts Co., can be plainly seen, autoists continue to give the traffic policemen considerable trouble.

Within a distance of 75 feet from either end of Prescott street, there shall be no parking whatsoever, the traffic rules say and between these inner boundaries of the restricted sections, a 5-minute rule is set. It is the violation of this latter regulation which oftentimes causes a traffic jam and which might be easily obviated if motor car drivers sensibly conformed to the law.

The traffic policemen at Central and Market streets and in the square are doing everything possible to enforce these regulations, but with the busy job on their hands at their respective posts, it is sometimes impossible to keep narrow Prescott street so that traffic may proceed freely and smoothly.

At the present time the right hand side of East Merrimack street between the square and the railroad track cannot be used as a parking area and drivers generally respect the signs placed there. The opposite side, however, has not been closed as yet, but is the next proposed step and will come shortly.

There is no section in the traffic regulations published by the city which deals with an autoist swinging around a street car on the off side, thus riding head-on into the lane used by traffic going in the opposite direction, but it is the general opinion that such a regulation will have to be created and strictly enforced. It is the custom now in hundreds of instances, of the downtown thoroughfares, for drivers to swing out around a stopped electric car, rather than to slow up and even stop, until passengers have been left or taken on.

# LOCKOUT TIES UP WORK AT FRENCH PORTS

BREST, July 31.—(By the Associated Press)—All work in the port has ceased, the employers having declared a lockout because of the demands of the dockers' union.

HAVRE, July 31.—A lockout on the docks of Havre has become effective, 3500 men being out. The union of employers has hired 300 day laborers to work for the French quartermaster's department.

The union of employers of Havre, considering the dockworkers' union to have broken the contract signed last March for a six months' period, had given notice that all work in the port would be stopped.

# SOLDIER WELCOMED BY HIS FRIENDS

First Class Private John A. Perry was tendered a welcome home party at the home of his parents, Mr. and Mrs. Archie Perry, 35 Ferry lane, Tuesday evening. Many of his relatives and friends gathered to greet him and extend congratulations on his safe return from war service. A beautiful traveling bag was given him by the family. An informal musical program was carried out with Paul Gagnon as violinist and George Lebel, Loretta Buote, Della Blanchard, Lillian Perry and Emilie Perry as pianists. Refreshments were served and the party dispersed at a late hour after a most enjoyable evening.

# SUN BREVITIES

Best printing, Tobin's Associate bldg. See shine. Coughlin's, 10 Prescott st. Lydon for best catering. Tel. 4934.

J. P. Donohoe, 228 Hildreth Bldg., real estate and insurance. Telephone.

William B. Ready, well known barber in the Associate building, is enjoying his annual vacation.

Manager Pickett of Keith's theatre and Mrs. Pickett have returned after a delightful vacation at Oak Bluffs.

Misses Malvina and Clotilde Roy of Cross street and Miss Corinne Bernier are spending a few days at Salisbury and Hampton beaches.

Mrs. C. M. Tyrrelle of B street and grandson, Master Vincent Cryan, are spending their vacation with Mrs. Orville Bryant of Woodlawn.

Mrs. J. P. Farrell of Moyir, British Columbia, formerly Miss Sadie Spencer of this city, and who has been visiting her sister, Mrs. Harry Muffett of Lowell for the past few days, has been suddenly called home by the death of her husband.

Fifty or more young people enjoyed a dancing party in the Rogers hall gymnasium last evening in aid of the Rogers Hall Athletic club. A lively orchestra played for a long program of dances, which continued until 12 o'clock. Miss Catherine Jennison was directly in charge.

The War Camp Community club and Crescent Hill association of Centralville are co-operating in plans for an outdoor neighborhood sing to be held at the Greenhalge school some evening next week. The arrangements are in the hands of B. S. Pouzner of the community club and J. J. Mahoney, chairman of the social committee of the association.

Leo F. Dubovy, Portland, Me., 37, baker; Elsie Horst, 175 Warwick, 25, box shop.

Joseph H. Brouillette, 489 Moody, 18, Saco-Lowell shops; Marie E. Lafreniere, 8 Dempsey place, 18, clerk.

For a Lowell resident a vacation without The Sun would be rather gloomy. Order it mailed to you while you are away.

# MOVIES AND BAND CONCERT TONIGHT

Owing to a conflict in schedules, the municipal movie show which was to have been given on the South common last evening was transferred to the North common, but as the band did not appear, the affair was postponed until tonight and will be given on the esplanade of the South common as at first planned.

A program of first rate pictures has been arranged and good band music will be an added attraction. The band will play for an hour prior to the show, which will commence as soon as the darkness falls.

# CAR DERAILED

Gravel lying on the tracks caused the derailment of a trolley on the Varnum avenue route near the Pawtucket bridge early last evening. Traffic was tied up for half an hour.

# AUCTION SALE

Entire Furnishings of the Waverly Hotel  
22 Market Street, Lowell, Mass.  
TOMORROW, AUGUST 1st, 1919  
Commencing at 10 a. m.

I shall sell at public auction all the furnishings of the Waverly Hotel, one of Lowell's leading hotels. The proprietor has taken pride in its furnishings and spared no expense to provide the best in every line, to please the public. The building has been sold and the new owner is going to remodel it for other business. It must be vacated and everything will be sold without limit, to the highest bidder, for cash. The furnishings consist, in part, of the following:

Office furniture—counters, cigar show cases, office desk, writing table, chairs, pictures, draperies, brass window rails, etc.

Bar room furnishings—a handsome 50-foot black walnut bar with all the latest attachments, pumps, drawers, bottle capper, etc., a back bar to match the front bar and extending the entire length of it, with large plate-glass mirror, cabinets, shelves, etc.; four double cash registers, electric fans, heavy brass window rails, electric clocks, good ice chest, bar ornaments, pictures, glasses, goblets, tumblers, wine glasses, of the best quality.

Parlor furniture—piano, table chairs, draperies, carpets, rugs, pictures, etc.

Dining room furniture—50 dining room tables and 200 chairs, a large lot of hotel crockery of all kinds, silverware, cutlery, glassware, napkins, linen, towels, tea and coffee urns, copper hot water heater.

Grill room—furnishings and furnishings of mission wood, pictures to match.

Kitchen furniture—large steel kitchen range, steam tables, ice chest, kitchen crockery and cooking utensils, two large electric blower fans with motor attached, portable baker's oven with four apartments No. 115.

Bed rooms—furnishings of 20 rooms, iron beds, springs, mattresses, bedding, dressers, chairs and tables.

All the gas and electric light fixtures.

Bath room—furnishings of three bath rooms, all open plumbing, bath tubs, lavatories, closets.

Wash room—four closets, urinal, and large lavatory.

Four complete mantels with large mirrors; large electric motor.

Heating plant—a practically new hot water heating plant with hot water boiler attached and all the radiators and piping; also extra steam brass and lead piping.

This lot of personal property must be sold regardless of cost, and many useful articles will be found at the sale in addition to those mentioned here.

Per order, JOHN J. REGAN, Proprietor.
